

## Health News

**June is Alzheimer's & Brain Awareness Month**, highlighting the impact of Alzheimer's and other brain disorders. It **encourages early detection, brain-healthy habits, and support for those living with dementia and their caregivers.**

The month also calls for increased research and funding to advance treatment and find a cure. Communities and organizations host events to educate and **raise awareness. Everyone is urged to take action to protect brain health** and support individuals and families affected by cognitive decline.
