

Training Announcement

Beyond Perimeter – Patrol Actions at Critical Incidents and Barricaded Subjects

This class will go beyond establishing a perimeter and explore managing a critical incident such as a barricaded subject, hostage situation or manhunt for a wanted person. We will hit on de-escalation, tips to progress the call, non-criminal barricaded subjects, tactical decision making for patrol and legal factors. This course will also explore tactical disengagement best practices when the incident circumstances require.

This is not a “SWAT” course. This is excellent material for leadership, aspiring supervisors or patrol officers.

This is a classroom-based training. No special equipment required. The course is open to all sworn law enforcement officers.

Course Instructors:

Scott Hamilton
