Semester Highlights

The *St. Louis Area Winter Retreat* was an amazing time of fellowship and learning. We learned from Dr. Griffin about the intersection of science & faith and the power of the Gospel!

The *Connect the Docs* fellowship dinner brought area wide professionals and students together to hear student testimonies, updates on conscience-protecting state legislature from Senator Andrew Koenig, and a moving keynote from Dr. Richard Chole.

Chapters at WashU, SLU, UMSL, and SIU continue to thrive with our amazing student leaders and advisors. Meetings have ranged from studying the book of 1 John, to speaker series, to prayer meetings. Praise God!

STUDENT TESTIMONIES

CMDA has provided me a secure and brave community where I am able to practice my faith, learn about others faith journey and reasoning behind choices but most importantly thought me how to integrate faith in healthcare without feeling lost, alienated or act hypocritically about my values and beliefs.

Nana Abena Boateng
OT Student, Washington University

Coming to SLU-MED from Washington state, I didn't have any family or friend connections in the entire mid-west. I didn't realize that an organization like CMDA existed, a whole healthcare community committed to following Christ. It's nice to know I have mentors and peers out there who know the true physician.
