RINK CONSTRUCTION

Replacement of the rink floor is underway and progressing on schedule. The official date of completion is August 24th, which would let us start the 2024-2025 season right on time! The heating system (under the brine lines) and the brine cooling lines will be replaced along with a new concrete floor. Improvements will be made to both systems which should improve our already stellar ice conditions that we enjoy. Season start: Plan A - Ice in on September 9th and League play beginning on 19th. Plan B - Ice in on September 16th and league play beginning on September 26th.
