

Lieutenants Questionnaire:

1. Why would you *even consider* an EV?
2. How far do you drive on an average day ?
3. How much do you spend on gasoline?
4. Do you have an EV, or if not, what's holding you back?
5. What do you think is holding your neighbors (or other employees) back?
6. What do you think is holding people in general back from switching away from gasoline?
7. Who do you think will push against chargers at your place? Why?
8. Why will they push?
9. Who do you think might be skeptical but not strongly enough opposed to push back?
10. Who do you think might sway the skeptics?
11. What do you think might sway the skeptics?
12. How important do you think incentives are for speeding adoption of EVs?
 - a) Rate 1 to 5: 1 = insignificant, 5 = essential.
13. How important do you think incentives are for speeding installation of charging stations?
 - a) Rate 1 to 5: 1 = insignificant, 5 = essential.
14. Any other considerations that might make charging at your place a good, or bad, idea?
15. Is there anything else that should be on this questionnaire?
