

# Teaching Evaluations and Comments

Jessica Monnet

September 9, 2017

## 1 Summary of My Teaching Evaluations

---

---

	Scale 1 to 7	
	Average	Median
Competent in course material	5.725	6
Presented clearly	5.694	6
Responsive to students	5.812	6
Integrated lecture and discussion material	5.698	7
Present and on time for discussion and office hours	5.666	7
Discussions were useful	5.957	7
I would expect another course with this TA to be	5.732	6
General teaching effectiveness	5.659	6

---

---

Notes: A value of 1 indicates "Among the Worst" and a value of 7 indicates "Among the Best"

## 2 Comments from Students

- Gave one lecture in place of professor. I loved the lecture. It gave a new perspective on education and was from her current research, so it felt relevant and important. Clear presentation.
- She very clearly outlined what we needed to know, and explained things in great detail. She was understanding if we were confused and answered questions clearly. Overall great TA. I would definitely love to have her as a TA in the future, and I hope that one day she is a professor because those students would be incredibly lucky.
- Jessica is very approachable! I went to most of her discussion sections and office hours, and I found her very helpful! One of the coolest TA's I've had.
- She was able to clarify any uncertainties and questions from lecture. Knew material and explained it in an effective way.
- She was just very clear in her overall discussion of material. There was excellent organization and clear notes. She was also very welcoming and open to help which is always a huge huge plus.
