President's Corner

Happy August,

We made it through July without any 100° days. Hopefully August will not be too unbearably hot.

I hope everyone is taking advantage of the great weather and enjoying your car and outdoor activities. There have been at least one if not two or more car shows to participate in nearly every weekend, and the car show schedule is very full through August. We have participated in three car shows, the Swap Meet car show, St. Anthony Motors Classic and Hot Rod Car Show, and the Puget Sound Antique Airplane Club fly in in Blackfoot. There were 15 vintage cars (11 from our club), 2 tractors, and 41 antique airplanes. Photos from this event are included in this newsletter.

The Skyline Activity Center is now open but is not available to us for the August meeting. Therefore, the August meeting will be held in the upper parking lot at 7:00 p.m. Please bring your own chair. Treats will be provided but bring your own beverage. Hope to see you at the monthly meeting.

Old Business

The 2021 Swap Meet & Car Show June 19 – 20th at Tautphaus Park was a success. We had the best old car party in town! Thanks to our members we were able to have a great turn out and a successful event! We had four new members join the club and we made a profit. Some people started with one car in the show, left and then returned with another. We are already signed up for 2022!

Membership Award – Gaylon Hansen was acknowledged for being a member of the Eastern Idaho Chapter of VMCCA for 43 years!

Region News – Bob Shilkett. There is a VMCCA scholarship and a Road Ahead Initiative that will be discussed with the Board of Directors in August. If you have any National VMCCA questions or suggestions let Bob know so he can take them to the Board.

The planes will arrive between 1-1:30 p.m.; they would like to have the cars there between 10-10:30 a.m. There will be food booths and activities before the planes arrive. We will caravan to the show from the Albertson's parking Lot at Broadway and Skyline. There will be a roped off area for the cars.
