Clerk

#9141

Jan Simon Executive Director for Missouri Community Betterment, will be in Carterville on May 2 at 5:30 p.m. to present a program that will inform you about the Missouri Community Betterment organization and the services that it can offer to your community. The program will be approximately 1 hour. Missouri Community Betterment annually hosts an awards competition and a conference for youth and adults. The purpose of Missouri Community Betterment is to provide assistance to communities to improve their quality of life. Please put this date on your calendars and let me know if you will be able to attend this informative meeting.

Other talking points to attend the meeting:

Communities that participate in Missouri Community Betterment are more progressive and have their "act together" because they have developed a community plan and are working on projects that have been determined through the planning process. These projects will help to improve the quality of life in their community. By improving the quality of life people will want to reside in this community, new businesses will want to come to this community and youth, who have been a part of the planning process, will want to return to this community to live. The MCB program is also a great way to recognize local individuals for the hard work they are doing for your community. The annual conference offers great information for youth and adult attendees.
