## REMINDER ON OBTAINING FORENSIC EVALUATION RESULTS

In recognition of the importance of forensic evaluation results especially when investigating an Emergency Response (ER) referral, this FYI Bulletin reminds staff of the current manner that forensic evaluation results are provided to DCFS and steps to take when the results are not received by the time of the closing of the ER referral.

The results of the forensic evaluations are recorded on the California Emergency Management Agency (CalEMA) Forms and are provided to the assigned CSW and SCSW via the Department of Health Services' E-mHub System within 10 business days of the date of the evaluation, or via fax from Children's Hospital Los Angeles. Please note that the Public Health Nurses (PHNs) do not receive forensic evaluation results, rather the results are only provided to the CSWs and SCSWs.

If the results of the forensic evaluations are not received within 10 days of the examination, please contact the out-stationed CSWs who are located at all the Medical Hubs to obtain assistance. ([LINK TO THE ROSTER](#))

Thanks to staff for being mindful of these instructions.
