Insemination Sheaths

Ref	Type	Bag	Color
PC-001	With Slit	50PCS	Verde
PC-002	Without Slit	50PCS	Azul

Description:

PVC Sheath designed with an insert that provides a secure fit for the insemination straw and can be used for both 0.50 ml and 0.25 ml straws.

The dimensions are 17.50" (44.45 cm) long, 0.178" (0.452 cm) outer diameter.

- The insert color indicates which gun should be used with each sheath:
- All sheaths with a green insert that have a slit can be used with the "O"-ring or ring-style insemination gun.
 - All sheaths with a blue insert that do not have a slit can be used with the barb-style insemination gun.

Sanitary Chemises

Ref	Size	Box
PC-007	18"	100PCS A.I
PC-008	21"	100PCS A.I T.E

Description:

Sanitary protection in the form of a bag. Unroll a bag, slide the holster and gun inside, then push the holster and gun into the cow. The sanitary sleeve will keep your holster and gun clean during your sanitary procedure.

Disposable

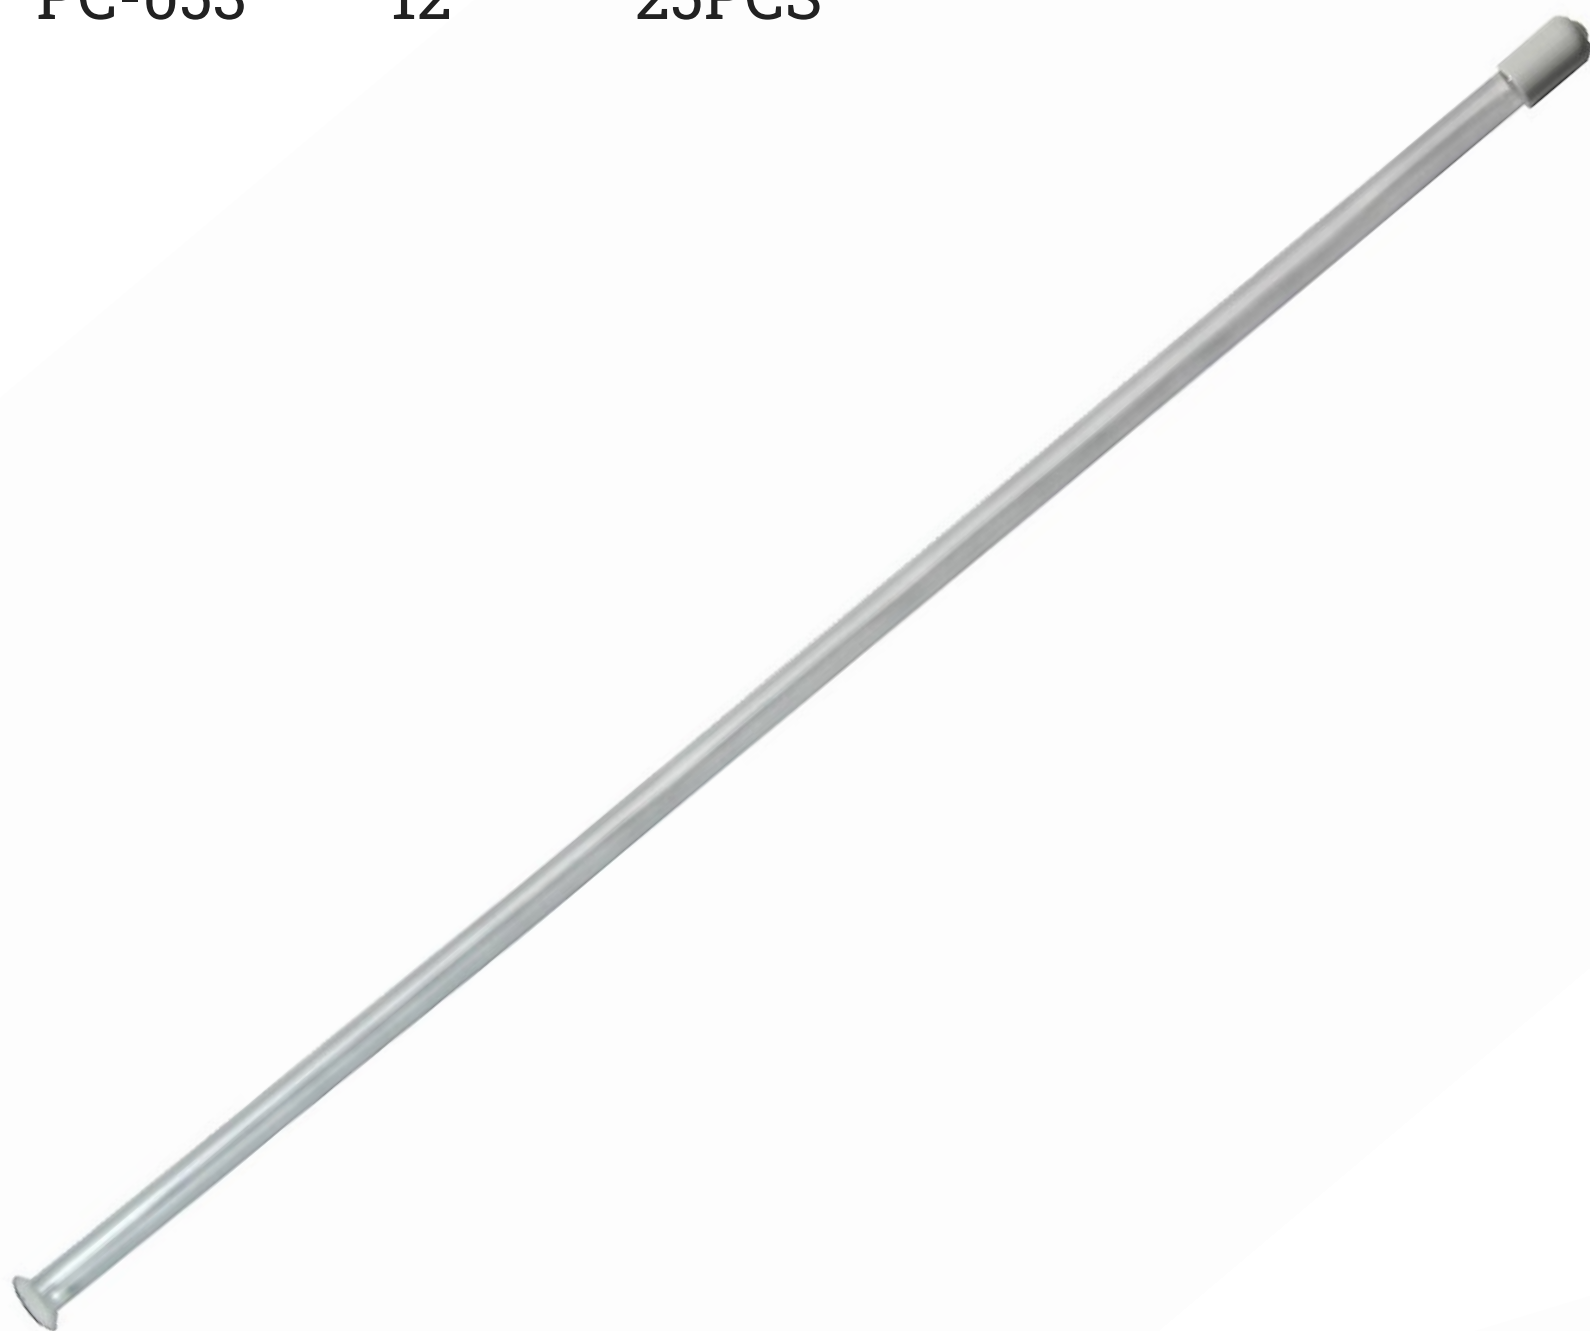

Sheath AI Protectors

Ref	Size	Bag
PC-053	12"	25PCS

Description:

Very popular for sanitary protection of the sheath during use.

The tube and its rubber cap prevent the transfer of contaminants to the uterus during insemination or embryo transfer, as the sheath does not come into contact with material outside the animal. Its funnel-shaped tip makes it easy to grasp with one hand during insemination.

Description:

Properly designed, 6.50" (16.51cm) long polyester tongs for quick and easy removal of straws and goblets from their containers. Designed with a grooved tip that grips and surrounds the straw without damaging it. Protects your hands while handling semen as the plastic transmits little heat or cold. Sold individually.

Straw tweezers 0.5cc

Ref	Size
PC-011	6.50"

THAW UNIT/ With Thermometer

Ref	Type	Liters
PC-012	With Thermometer	0.35 Liter
PC-044	Without thermometer	1 Liter with gobelet

Description:

Safely thaw up to 30 semen straws at a time.

The durable, wide-mouthed thermos features a Celsius dial thermometer on top that allows you to monitor the thawing time.

The PC-012 thermos is all-metal for 0.35 liters of hot water. It comes with a black, single-color bio-leather case, measuring 9.25 inches high x 2.75 inches in diameter.

The PC-044 thermos is all-metal for nitrogen and lasts 24 hours.

Thermo for Nitrogen and straws transport

Ref	Duration	Liters	Capacity
PC-013	2 Days	2 Liters	40 Straws
PC-045	3 Days	4 Liters	60 Straws

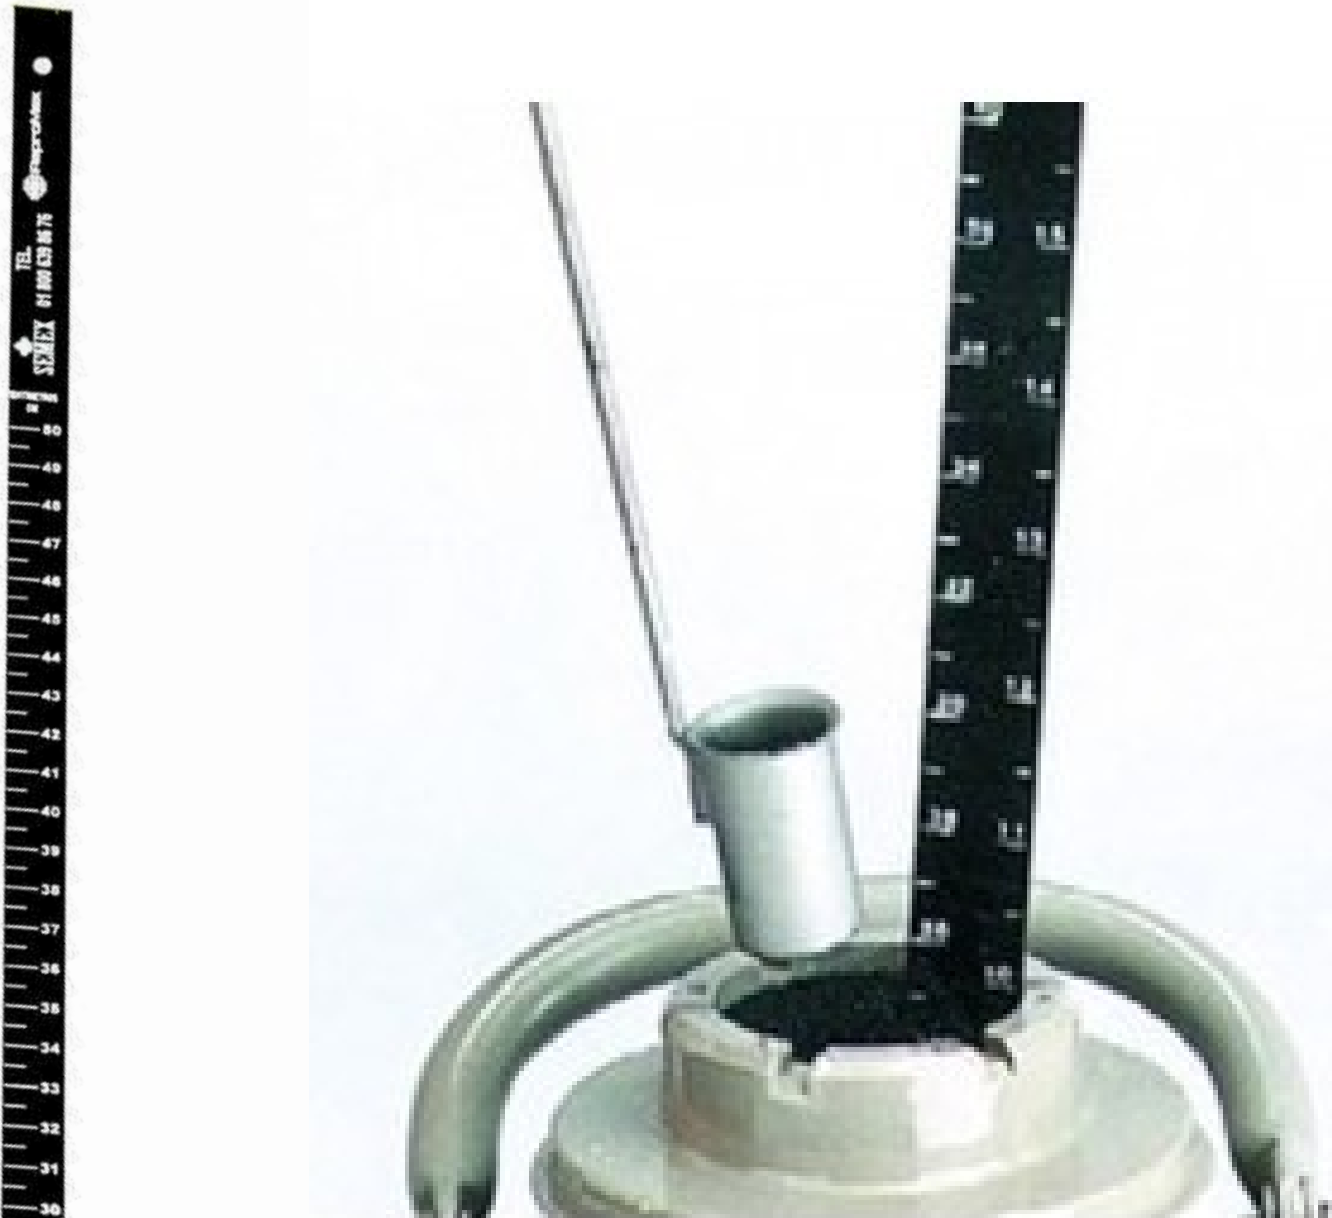

Description:

	PC-045	PC-013
No. of baskets:	01	01
No. of straws in gobelet:	60	40
No. of bulk straws:	150	75
Nitrogen Capacity:	4	2
Average Static		
Evaporation:	0.95	1
Diámetro del Cuello:	3CM	3CM
Dimensions:	21CM x 47.5CM	21CM x 47.5CM
Unoccupied Weight:	10 lbs	4 lbs
Full Thermo Weight:	15 lbs	7.5 lbs

Nitrogen Stick

Ref
PC-009

Description:

This Sitck takes control of the nitrogen measurements existing in the tanks.

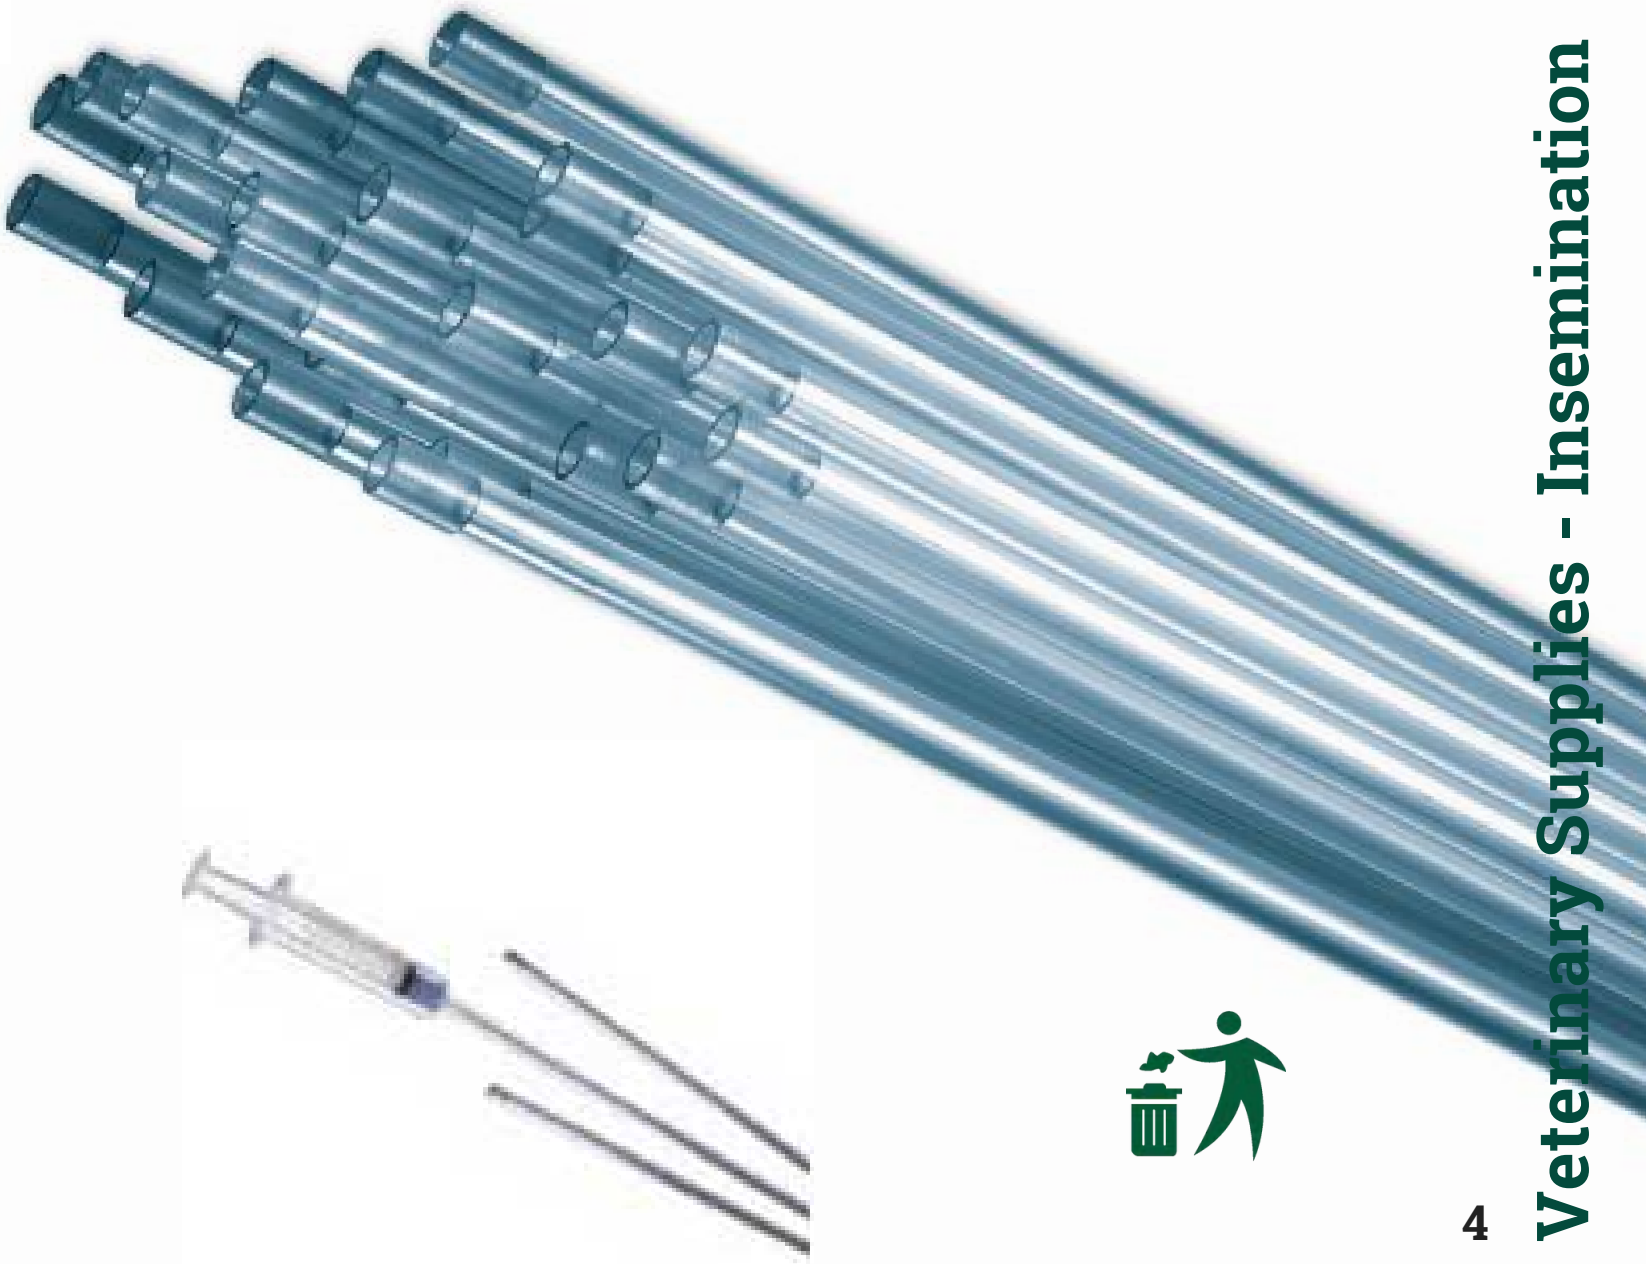

Every 2 cm marked means the presence of 1 kg of nitrogen in tanks with a capacity of 20 kg of nitrogen.

Drilled infusion Tubes

Ref	Size	
PC-053	18"	
PC-054	21"	
PC-055	25"	
PC-056	4"	

Description:

This infusion tube is designed with a perforated tip for easy connection to the syringe nozzle, eliminating the need for adapters. The tubes are made of PVC and have smooth, rounded tips. The inner diameter is 0.110" (0.279 cm) and the outer diameter is 0.215" (0.546 cm).

End Cone For semen Collection

Ref
PC-010

Bag
50PCS

High Transparency
Durable
No Drip

Description:

The end cone for semen collection is made of sterilized materials and is safe and hygienic.

It is soft, strong, durable, and leak-proof. Its transparent design makes it easy to see when in use.

It is made with a matte, non-slip surface, making it comfortable to use. Material: PE

Disposable

Insemination Gun

Ref
PC-1000

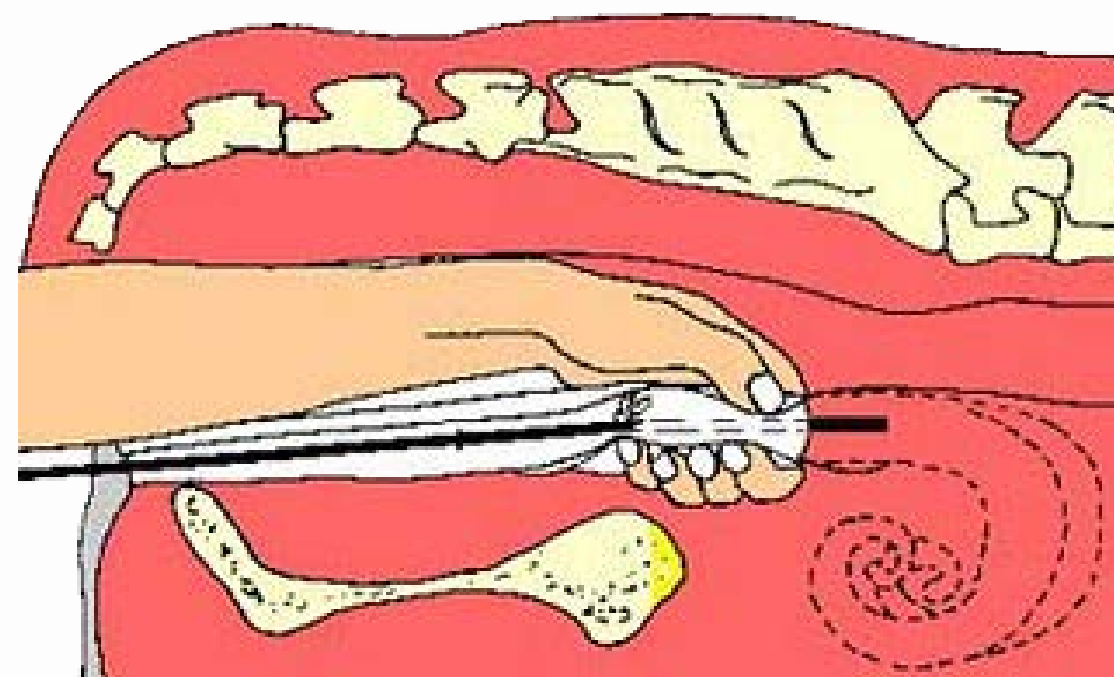

Size
18"

Description:

The universal gun accepts 0.25cc and 0.50cc straws. The snap-on design allows the sheath to slide without cutting into the pistol when removed. Disc color varies. Strong and durable with automatic locking and removable sheath. Dimensions: 18.5" long.

Material: 304 Stainless Steel.

Insemination Catheter spiral tip

Ref	Size	Type
PC-014	22"	without handle
PC-046	22"	with handle

Description:

A molded Melrose-type tip allows for insertion of the catheter without damaging the reproductive tract. The coiled tip is made of high-quality thermoplastic rubber.

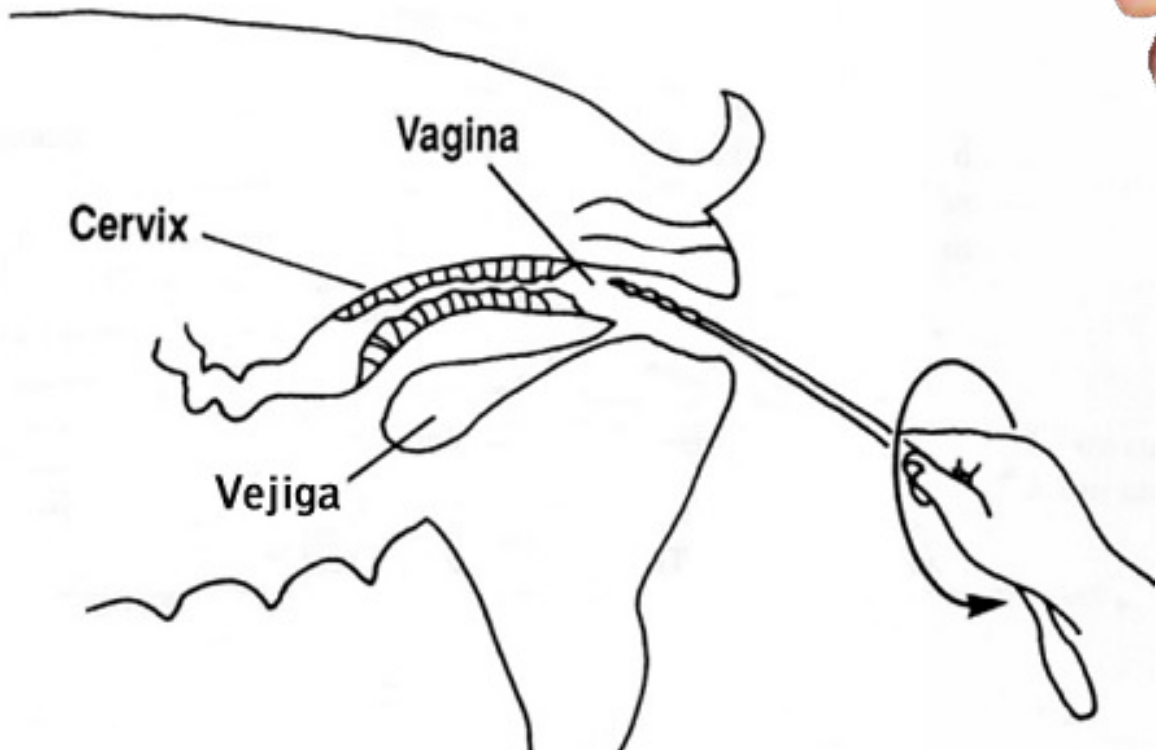

Intrauterine Catheter

Ref	Size
PC-015	31"

Description:

These intrauterine catheters are designed for use with any of our foam-tipped catheters. The foam catheter tip is inserted first, followed by the insertion of the intrauterine catheter into the foam catheter tube. Allow the sow to relax her cervix before attempting to insert the intrauterine catheter.

StrawCutter

Ref

PC-1001

Description:

The straw cutter is designed to quickly cut straw tips. After inserting the straw into the cutter, press the button to cut it to the appropriate length. It disassembles for cleaning and sanitizing.

Made of non-corrosive plastic with a stainless steel blade.

Measures 2.25" (5.72 cm) in diameter. Individually wrapped.

Insemination BOX

Ref

PC-056

Description:

Rectangular box made of lightweight, durable plastic with capacity for storing a variety of tools. A small, removable tray is ideal for storing frequently used items. The handle allows for great portability. Two optimized side organizers in the lid allow for the organization of small items such as straw tongs and straw cutters.

Box Width: 48 cm

Material: Plastic

Number of Compartments: 3 Notes: Keep the product clean, dry, and away from sunlight.

Embryo Transfer Sheaths

Ref	Bag	Tip
PC-016	5PCS	metal
PC-017	5PCS	plastic

Description:

Metal or plastic tipped sheath, with side opening, for use with sterilized 0.25ML straws.

E.T Gun

Ref	
PC-018	

Description:

The best option for cows where the cervix is difficult to pass.

Sterilizable transfer instrument for use without sheaths, with a removable stainless steel or plastic tip. It features a side outlet and a ring to mark the opening position.

Disposable tip for MT transfer instrument, made of sterilized plastic, individually wrapped.

PC-301	3MIL	21"	Bag of 50pcs
PC-302	4MIL	21"	Box of 50pcs
PC-303	4MIL	21"	Bag of 50pcs
PC-029	6MIL	21"	Box of 50pcs
PC-028	6MIL	21"	Bag of 50pcs

Description:

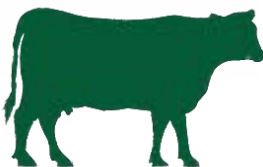

These clear polyethylene boots are easy to put on and take off over the shoe. They can be worn with or without the convenient lace. Boots should be worn only once and discarded to avoid unwanted cross-contamination. Packaging and color options are available upon special request.

With Ties

ANIMAL ID

Ref	Size	
PC-081	22mm	
PC-082	24mm x 42mm	
PC-083	50mm x 61mm	
PC-084	66mm x 74mm	

Description:

It consists of a single piece that prevents tears at the pin hole. The pin's design prevents overtightening in the animal's ear, preventing infections and tears. It has a UV filter that guarantees the marking and color of the earring, maximizing its lifespan. Its surface allows marking with a laser or permanent ink pen.

Material: Polyurethane

Manufacturing of Different Colors Available

Mastitis test Tray

Ref
PC-076

Description:

Tray designed for mastitis testing. The paddle has 4 circular quarters that segment it.

Instructions for use:

To perform the mastitis test, extract approximately 2 ml of milk from each quarter of the paddle segments.

Teat Dipper Cup

Ref
PC-077

Description:

The teat dipper cup allows for effective cleaning and disinfection. It's an angled teat sealing cup with a return spout and splash-proof design. Its durable white bottle makes it easy to squeeze.

Calf Weaner

Ref
PC-078

Description:

High-quality polypropylene, conditioned with UV, UVR, and antioxidant protection. Spider-shaped. Standard size.

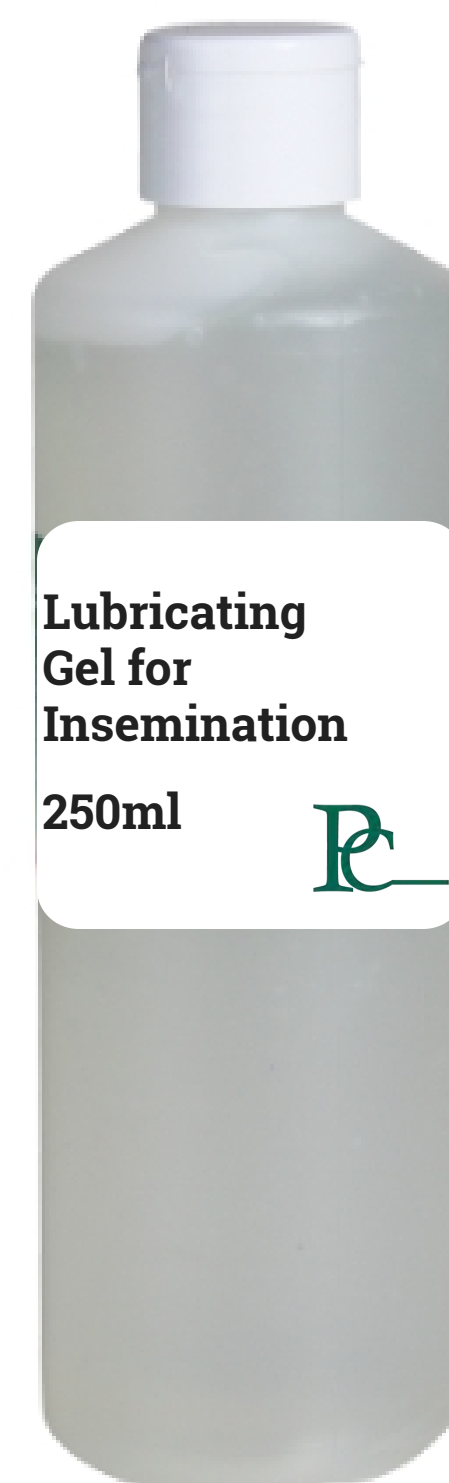

Vet Lube | 250ml

Ref
PC-079

Description:

- Non-spermicidal
- Non-irritating
- Prevents internal damage to the vagina or cervix.
- The animals' internal ducts remain clean during insemination, improving hygiene and therefore fertilization.

Elizabethan Collars

Ref	Size	neck perimeter
PC-600	7.5cm	22-25cm
PC-601	10cm	22-25cm
PC-602	12.5cm	28-33cm
PC-603	15cm	31-38cm
PC-604	20cm	38-44cm
PC-605	25cm	44-50cm
PC-606	30cm	47-57cm

Description:

Durable and lightweight, with full body coverage. It features a tab for easy placement and security.

The Elizabethan collar is specifically used to prevent your pet from touching wounds or scars and facilitate healing. Essential for post-operative care.

Technical Specifications:

Materials:

Clear and lightweight material. Made of strong and durable opaque polyethylene plastic.
