I have been doing Integrated Medicine since 1984. Licensed since 1970. Doing Nutrition, Wellness Care & Non-linear Scanning (BioStar) with bioresonance for health. I do not take patients unless they are willing to get well! No insurance since they b forbidb helping patients and demand drug care only! Wake up Americans! Your body wants to be healthy & well so why do you stay with doctors

employed by insurance to keep you sick for their profit? Come get a scan, find out what is really wrong and how to get your health back on track. All health problems start with an emotional wound or conflict but the discovery will help you be well! Coming to Hawaii? This is a wonderful place to visit, have a scan and learn how to be well in the healing island of Hawaii.

**Integrative pediatrics
Portland, Oregon**

Contact: 503-643-2100 (only for patients who live within 50 miles of the office
https://www.integrativepediatricsonline.com
We currently are a medical home - required to be able to take most insurances - therefore to become a patient and be seen you need to live within 50 miles of our office and have an insurance that we can take. In some cases, we can accept cash payment.

We have CLIA certification/waiver to run rapid (15 minute) COVID-19 tests to see if you are infected with SARS-CoV2 and if you are ill you would not be in the main office space until proven to be negative for COVID-19. We then can do a complete evaluation and take care you as we normally would do.

Our physician is an MD with over 25 years of experience and is a practitioner of Functional Medicine. We are located in Johns Island, SC and provide in-person care at this location. We also offer telemedicine appointments to patients statewide throughout South Carolina and Virginia. We can provide consultations on COVID-19 from a Functional Medicine perspective. We may prescribe Ivermectin, provided it is not contraindicated for the patient. In addition, we can recommend certain vitamins and supplements to help boost the immune system. Patients may call 843-996-4908 for details and to set up a telemedicine appointment.

Contact: Contactus@drjmed.com or 817-481-2444
<http://drjmed.com>
All Covid patients are provided televisits after initial interview and scheduling. COVID testing is not performed in our office but is helpful for treatment guidance and recommended if suspected. Treatment is tailored to age, history and not solely dependent on active symptoms. Prevention of later complication is a critical element of our approach. We also give early supportive care to symptomatic individuals on a case-by-case basis. No insurance accepted as payment though we provide paperwork and online data for filing.

<https://www.chwpeds.com/>
Our physician is an MD with over 25 years of experience and is a practitioner of Functional Medicine. We are located in Johns Island, SC and provide in-person care at this location. We also offer telemedicine appointments to patients statewide throughout South Carolina and Virginia. We can provide consultations on COVID-19 from a

Functional Medicine perspective. We may prescribe Ivermectin, provided it is not contraindicated for the patient. In addition, we can recommend certain vitamins and supplements to help boost the immune system. Patients may call 843-996-4908 for details and to set up a telemedicine appointment.
