ASM MATERIALS CAMP®-TEACHERS

(FREE professional development for teachers!)

MCMASTER UNIVERSITY

Hamilton, Canada | JULY 5-9, 2027

WHO SHOULD ATTEND

- High school and middle school teachers in science, engineering, and industrial / career and technical education
- Pre-service science teachers

WHY ATTEND

- Learn how to engage your students using simple low-cost experiments that you can integrate into your existing lesson plans
- Help your students discover career opportunities in science and engineering
- NO CHARGE, a $1250 value (made possible through generous donations to the ASM Materials Education Foundation).
- Next Generation Science Standards (NGSS) aligned curriculum.

WHAT'S INCLUDED

- Four (4) Continuing Education Units (CEUs)
- Demonstration materials; Lunches & snacks
- Option to get two (2) graduate credits
- Housing is available

"I appreciate the presenters providing the content at a level that we could not only comprehend but also take back to our elementary classroom. This was a great experience! We began each day @ 8 AM, and typically, time drags during in-service and PD, but on day one I looked at my watch once in the AM and it was almost noon! Time flies when you're having fun, I guess! ;-)" (Jon T.)

"I was hesitant on signing up for the camp since I don't have any background in material science. Experiments/activities were explained for my 6/7/8 grade classes. Not complex at all. It was a great week! I'm very glad that I attended it!" (Gloria L.)
