FREE STEM PROFESSIONAL DEVELOPMENT FOR TEACHERS

SAIT | CALGARY, CANADA | JULY 29 - AUGUST 2, 2024
MCMASTER UNIVERSITY | HAMILTON, CANADA | JULY 8-12, 2024

OUR PROGRAM

ASM Materials Camp®-Teachers is a free, week-long, idea-generating workshop introducing teachers to methods that make math and core science principles more enticing and relevant to their middle and high school students. Materials topics are great motivators in any engineering, technology or science course as students learn concepts that are reflected in their everyday lives.

WHAT MAKES US DIFFERENT

Teachers leave our camps able to engage students using simple, low-cost experiments that integrate into existing lesson plans. Participants are eligible to receive four (4) Continuing Education Units (CEUs) and can opt for two (2) graduate level credits.

REGISTER TODAY!

For more information and to view the 2024 ASM Materials Camp®-Teachers Summer Schedule, please visit asmfoundation.org.

SCAN ME! Watch a video about ASM Materials Camp® Teachers!

"I highly recommend the ASM Materials Camp to anyone who teaches science. They are able to take extremely difficult material for students to learn and tie it to real world applications so that students of all levels can engage and relate to the topics. I was given many ideas, activities, resources and support to enable me to be a better teacher for my students. This was the best professional development opportunity I've ever attended. Thank you so much for everything!"

—Joanne K.
