Building stronger connections: Expanding partnerships with more school districts and visa sponsor partners

This year, we've proudly placed teachers for the first time in Houston ISD, Ector County ISD, St. Louis School District, SSD at St. Louis County, Anchorage School District, VINCI Schools, Greater West Town Development Project, Roselle Public Schools, Harrison School District and Albuquerque Public Schools. Alongside our main partners GeoVisions and Alliance Abroad Group (Teacher Lounge), we've also partnered with new visa sponsors including Global Educational Concepts, Cultural Vistas, and Spirit Cultural Exchange. Thanks to these collaborations, our teachers are thriving, making a real impact in classrooms, and helping students succeed—bringing I-Rise USA's mission to life every day!

Support Makes The Difference! The Secret Behind i-RISE's Success

At I-RISE USA, success goes beyond bringing teachers to the U.S.—it's about ensuring they feel prepared, supported, and valued every step of the way.

From **pre-arrival guidance** to **post-arrival care**, I-RISE provides hands-on support that helps teachers transition smoothly into their new lives and classrooms. Before arrival, we assist with visa processing, documentation, and cultural readiness. After arrival, we continue to offer mentorship, check-ins, housing assistance, and professional development to help teachers thrive.

Our commitment to care doesn't stop once the journey begins—it grows stronger with every milestone. Because at I-Rise USA, **when teachers feel supported, they succeed—and so do their students.**

Teacher's Welcome Kit

Since 2023, i-RISE USA has welcomed 80 international teachers into U.S. classrooms!

Teaching Beyond Borders, Inspiring Across States.
