4-Burner Built-in Propane Gas Island Grill Head in Stainless Steel with Rotisserie Burner

This handsome KitchenAid 30 in. Built-In Island Gas Grill Head is constructed with premium corrosion-resistant materials for durability and ease of upkeep. Boasting 775 sq. in. of total cooking space, this unit thrusts up to 61,000 BTUs of fire-roasting energy across four main stainless steel burners and one ceramic rotisserie burner. Perched above the primary burners are angled flame tamers that deflect heat, prevent flare-ups and vaporize drippings into flavor infusions that permeate foods with a distinctive smoky taste. This Even-Heat System distributes consistent and uniform heat across the stainless steel-wrapped cooking grates so there aren't any hot spots. Electronic ignition allows burners to fire up instantly and the built-in thermometer enables precise temperature regulation.

- 30 in. wide built-in grill head for outdoor kitchen islands
- Equipped with 4 premium-grade 12,000 BTU stainless steel main burners
- 304-grade stainless steel wrapped cooking grids offer superb heat retention and produce restaurant-quality sear marks
