TurboWash™ Technology

Tired of spending hours on end finishing your family's laundry? Now, those days are gone. LG's revolutionary TurboWash™ Technology allows you to save 20 minutes on larger loads*, with outstanding cleaning performance! It's like pressing the fast forward button on your laundry.

Ultra Large Capacity

Towers of towels, piles of sweatshirts, and a mountain of jeans? Go for it. The **ultra large capacity (4.0 cu.ft.)** tub lets you do more laundry in fewer loads. That's time saved and sore backs avoided.

Steam Technology

There's no clean like a steam clean. Our **Steam Technology** gently but powerfully penetrates fabrics to virtually eliminate dirt, odors and wrinkles.

* Based on AHAM-HLW-1-2010 test protocol. Cotton/Normal or comparable cycle at default settings, 8-lb loads, front load washers only. Excludes other LG manufactured products. Excludes quick wash or comparable cycles intended for small, lightly soiled loads only.

ALWAYS STAY EFFICIENT

Efficiency can mean a lot nowadays, and this dryer knows it. Its ultra large capacity will handle extra-large loads, so you finish your laundry faster. The Intelligent Electronic Controls with Dual LED Display make it easier to get the settings right, so you can just "set it and go." Plus, the Sensor Dry System will detect the level of moisture in the fabric and automatically adjust drying time and temperature. If you appreciate efficiency, so does this dryer.
