

We are a college and career planning program that will assist your student in the transition from High School to post-graduate life.

Not everyone's transition is the same; some may lean towards attending a four-year university, a technical college, or seeking employment after high school.

We guide students of all ages by helping them find their passions, so they can live their lives with a purpose!

Unsure of which majors to consider or which careers you may be best suited for?

Our program includes both a personal and career assessment, which helps identify a student's goals.

We then develop a plan and tailor our curriculum to achieve those goals.

Filling out FAFSA applications can be a daunting task.

The most simple error on your application can potentially cost you thousands of dollars or delay the disbursement of your funds.

You can trust our trained staff to make sure you won't lose a penny!

Looking for colleges may seem easy, but the objective is finding the *right* college that best fits your goals and needs.

Once we find colleges suited to you, we then search for eligible scholarships and grants that they offer.
