ABOUT US

Well-Suited is a 501 (c) 3 educational non-profit organization founded in 1997. We provide an array of college and career planning assistance for middle and high school students within the Los Angeles Unified School District through partnerships with community organizations, schools, colleges and universities. Our goal is to increase student enrollment in post-secondary educational institutions and to provide the academic and personal support for individual success.

YOUTH PURSUING THE AMERICAN DREAM

Well-Suited presents a one-day intensive college and career readiness seminar for LAUSD high school students. The program will feature guest speakers from the UC and CSU university systems, who will impart their knowledge on attaining a higher education degree. Career professionals, from a host of industries, will also be present to confer guidance. The goal is to provide students with the resources and skills that they need to embark upon the next chapter of their lives as they strive to pursue the American Dream.

A word from our founder

It gives me great pleasure to announce that in September 2023, Well Suited and our Corporate Sponsors will host the first annual “Youth Pursuing the American Dream.” The event will serve as a catalyst for both High School students to utilize as a launch pad.

We hope that our past and future sponsors join us in exposing our students to wealth-building skills that will give them the confidence and self-esteem needed to achieve their dreams.

I'd like to thank you all for your consideration to support the youth in Los Angeles to build a brighter future.

Sincerely,
Janet Lavender
