

# MANAGE COVID-19 TESTING & VACCINATION

with  
**Vaxtrac**

## Register & validate...

health care providers (HCPs) with ease and efficiency, improving work flows and security.

## Track & protect...

test and vaccine inventories using unique traceable security labels from distribution to point of care.

## Preregister...

and schedule appointments through a simple online form to increase efficiency on-site.

## Rapid check-in...

when pre-registered individuals arrive for care, or simple, fast on-site registration.

## Testing or vaccination...

administered by an authorized HCP, easily recorded and reviewed in mobile app before sending for blockchain certification.

## Issue trusted credentials...

that are immediately available, privacy-preserving and digitally secured to support future verification needs.

## Download the MyVax app...

to easily manage and share proof of test results and/or vaccination status when needed for travel, business, school, etc.

## Carry your family's records anywhere...

in the format of your choice: the MyVax app, digital code, travel card, or printed paper documents for maximum flexibility.

**FOR AN  
EASY, SAFE,  
RETURN TO  
NORMAL**
