Vaccines are here. Now what?

CHALLENGE 1

Transparency & Accountability

Real-time recording of test/vaccine distribution and administration to individuals—with traceability back to the healthcare provider.

CHALLENGE 2

Proof of Health Status

Standardized, trusted digital health credentials to support safer engagement.

CHALLENGE 3

Response Efficiency/Speed

Actionable public health monitoring to support policy decisions & implementation.

1

Track & Manage

2

Identify & Validate

3

Administer & Certify

4

Issue Certificate

5

Validate & Admit

6

Monitor & Notify

How to Fill the Gaps:

Make it easy to accurately record and report vaccine and testing data

Provide fraud-proof, privacy-preserving test and vaccination credentials

Create trusted, accessible validation and monitoring tools for all sectors of the economy
