

Guide to Operating Veterans Worldwide iPad and GPS Setup

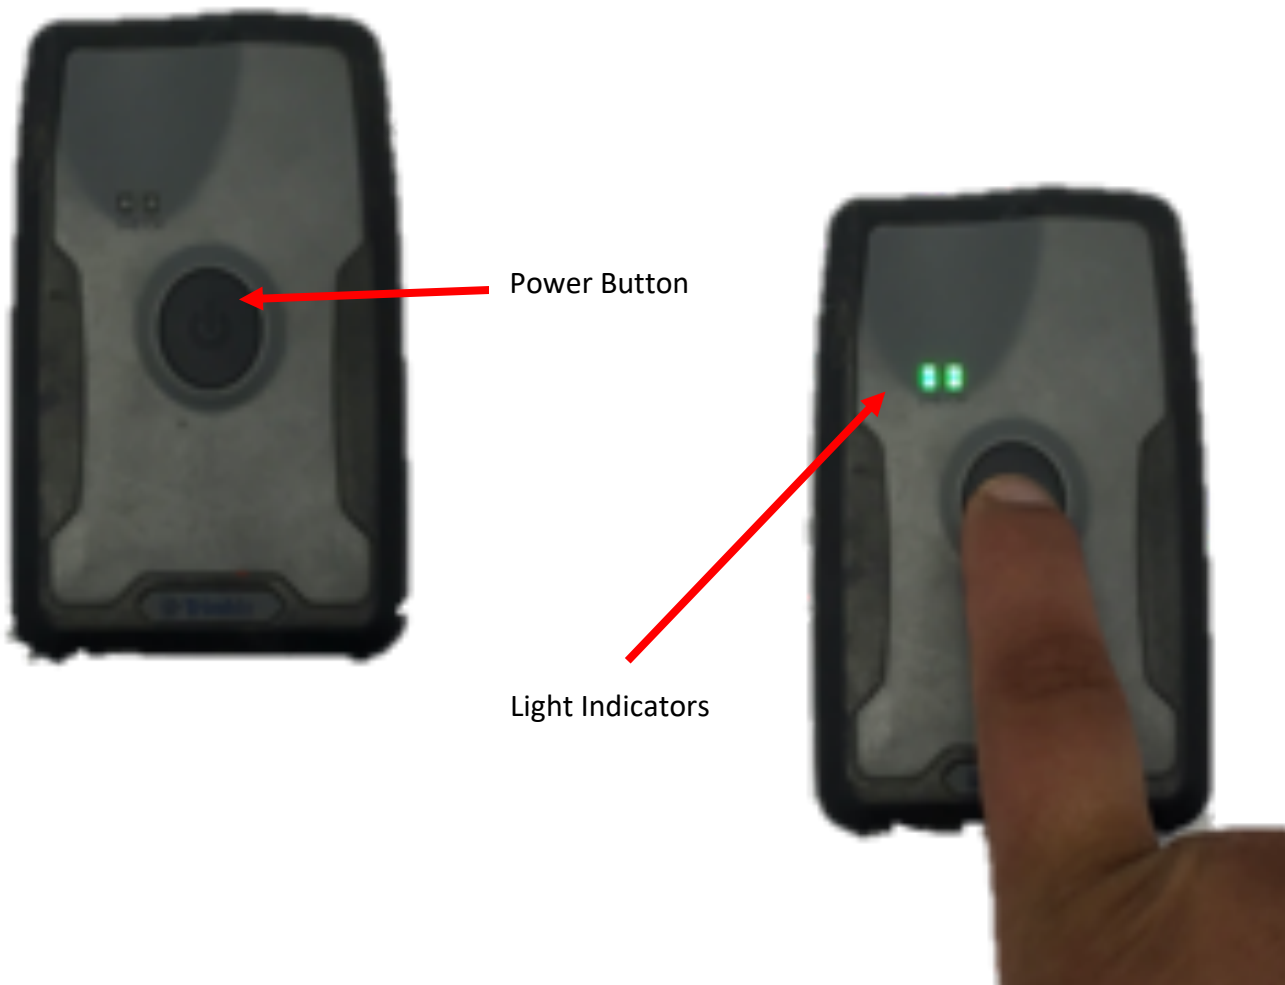

Welcome to this guide on how to operate the iPad and GPS setup. This is to help remind/train anyone who needs to use this setup for field purposes. For Further clarification or troubleshooting, please call Patrick Schultz at (573) 727-4182

Powering on and Connecting GPS

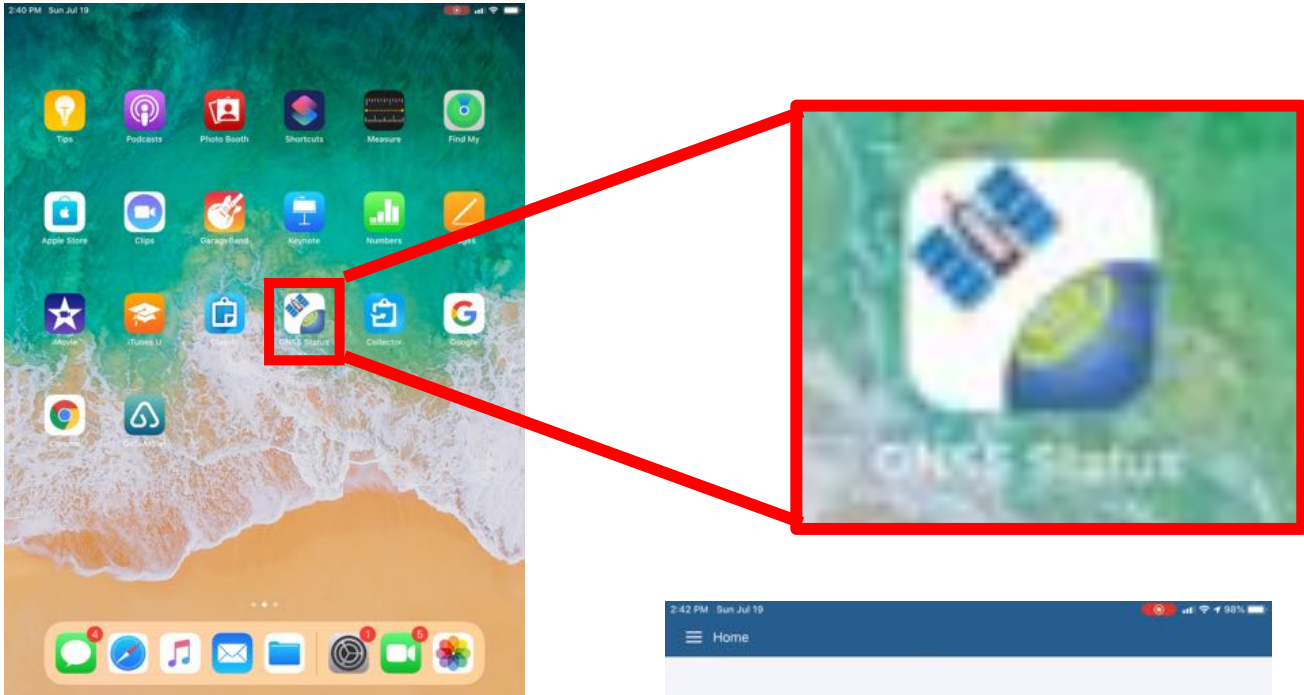

Step 1.

Power on GPS Receiver by pressing and holding down the power button until both Light Indicators are Green.

Step 2.

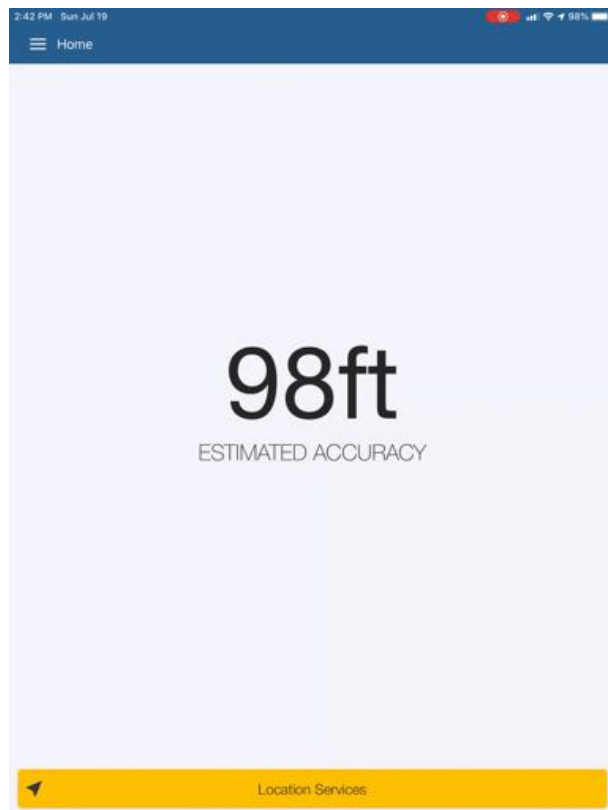

Open iPad and open the GNSS Status App.

Step 3.

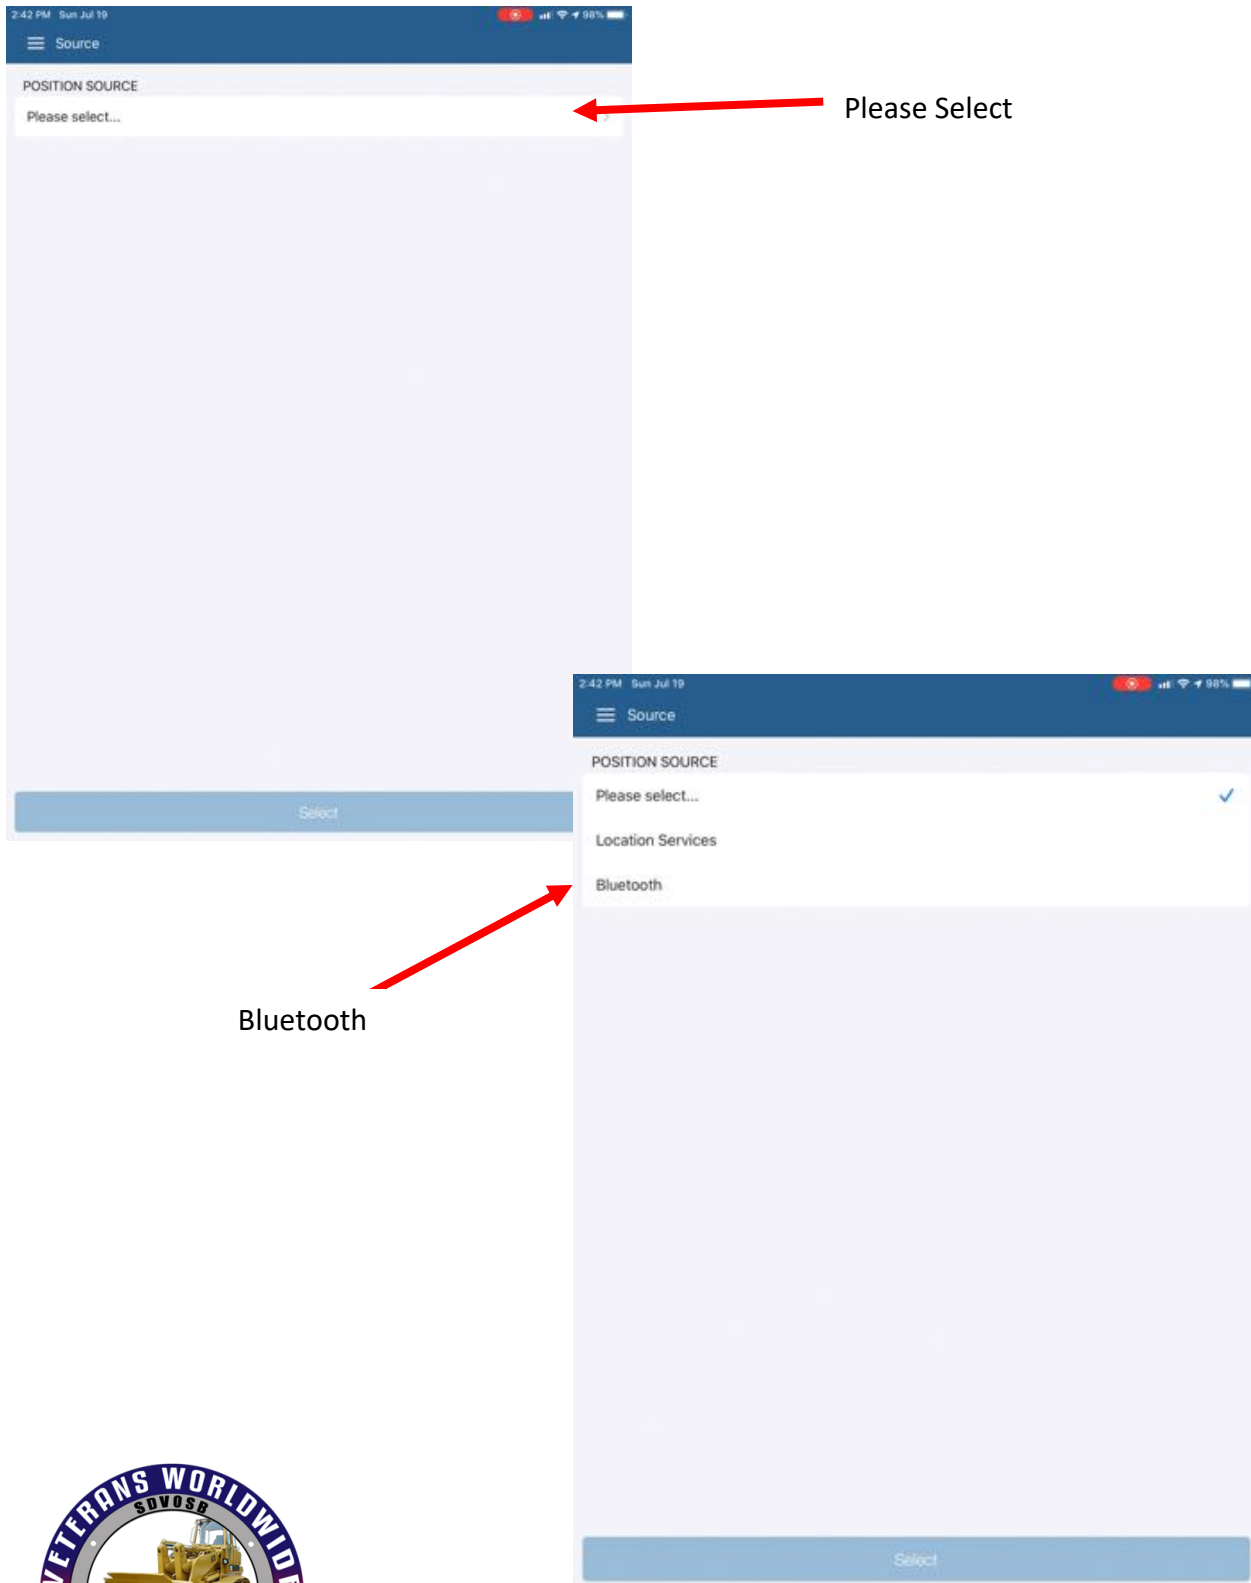

Tap the Yellow Status Bar at the bottom of the screen to open up connection menu.

Yellow Status Bar

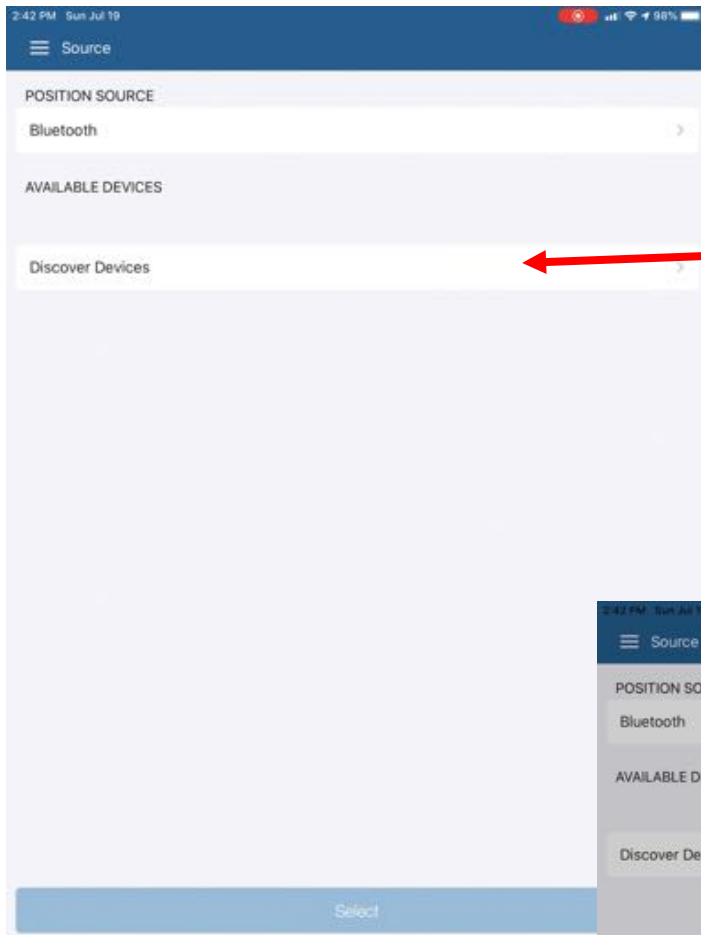

Step 4.

Tap "Please Select" then "Bluetooth" from the dropdown menu.

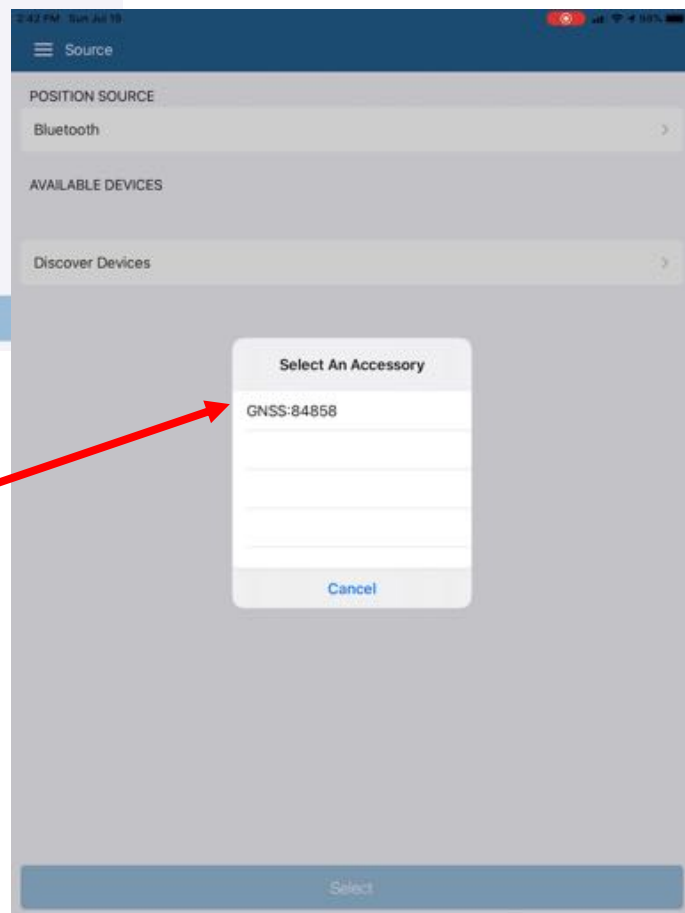

Step 5.

With Bluetooth selected, tap “Discover Devices”. Once prompted, wait until GNSS:84858 appears in the options list. Once this appears, select it to proceed.

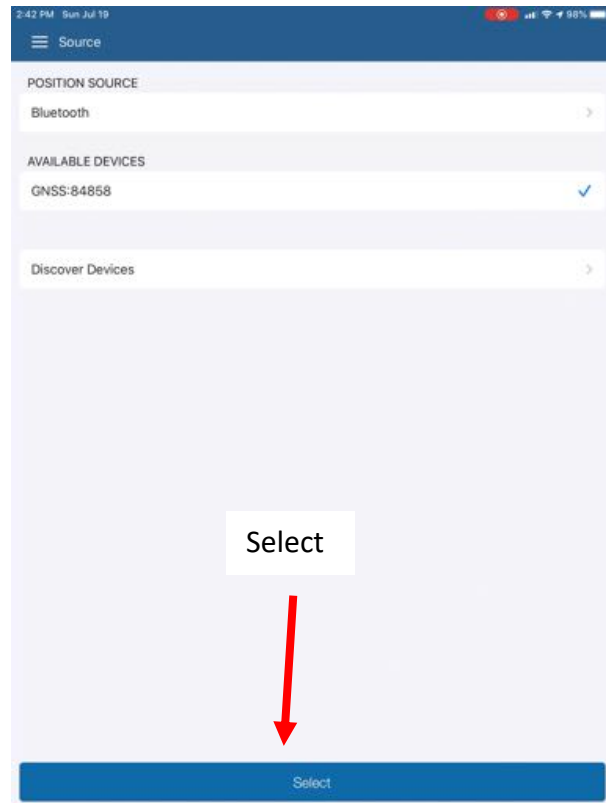

Discover Devices

GNSS: 84858

Step 6.

Tap "Select" at bottom of screen to complete pairing process.

Step 7.

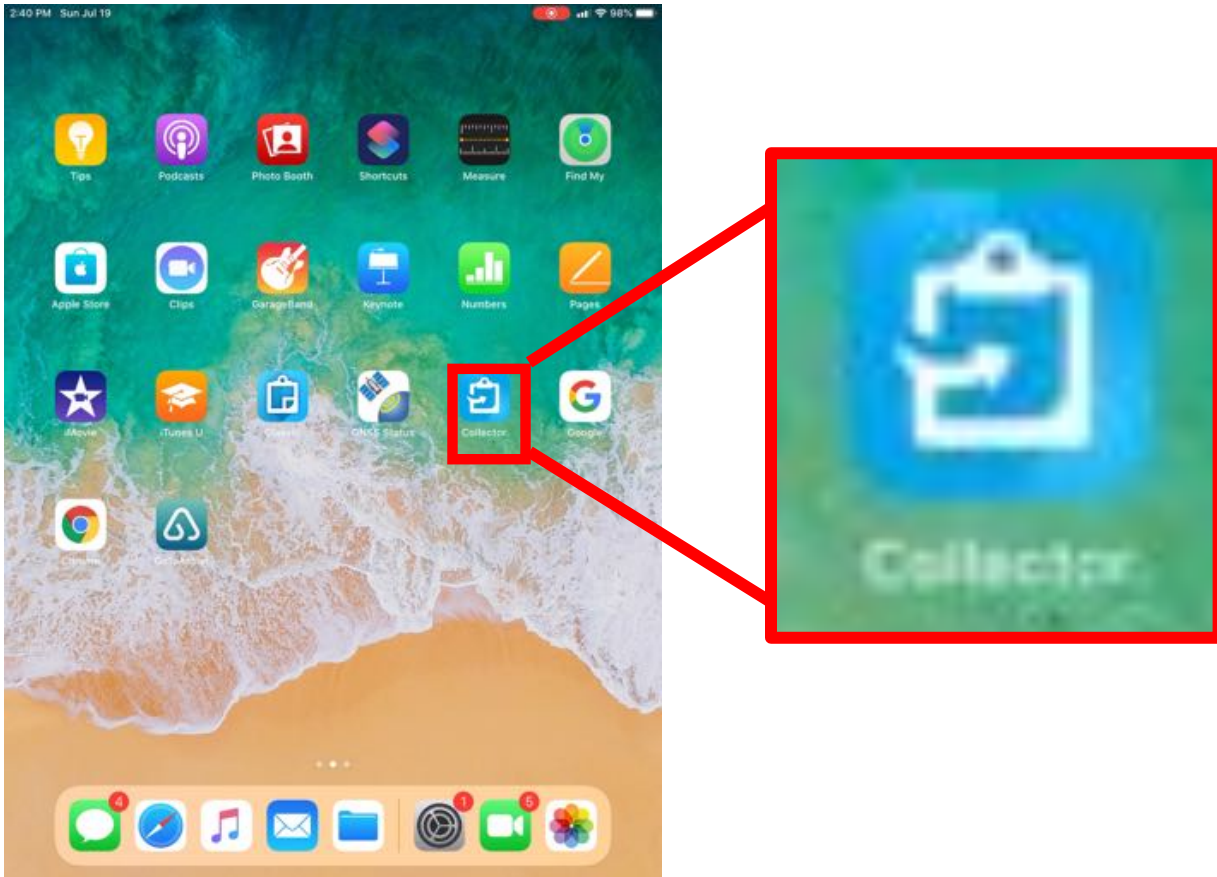

Wait until GPS Receiver connects to Satellites. Once connected, close App.
*This may take several minutes. For best results, stand in a wide-open area with no obstructions or metallic objects nearby while holding receiver above head.

Changing Location Provider and Opening Maps in Collector

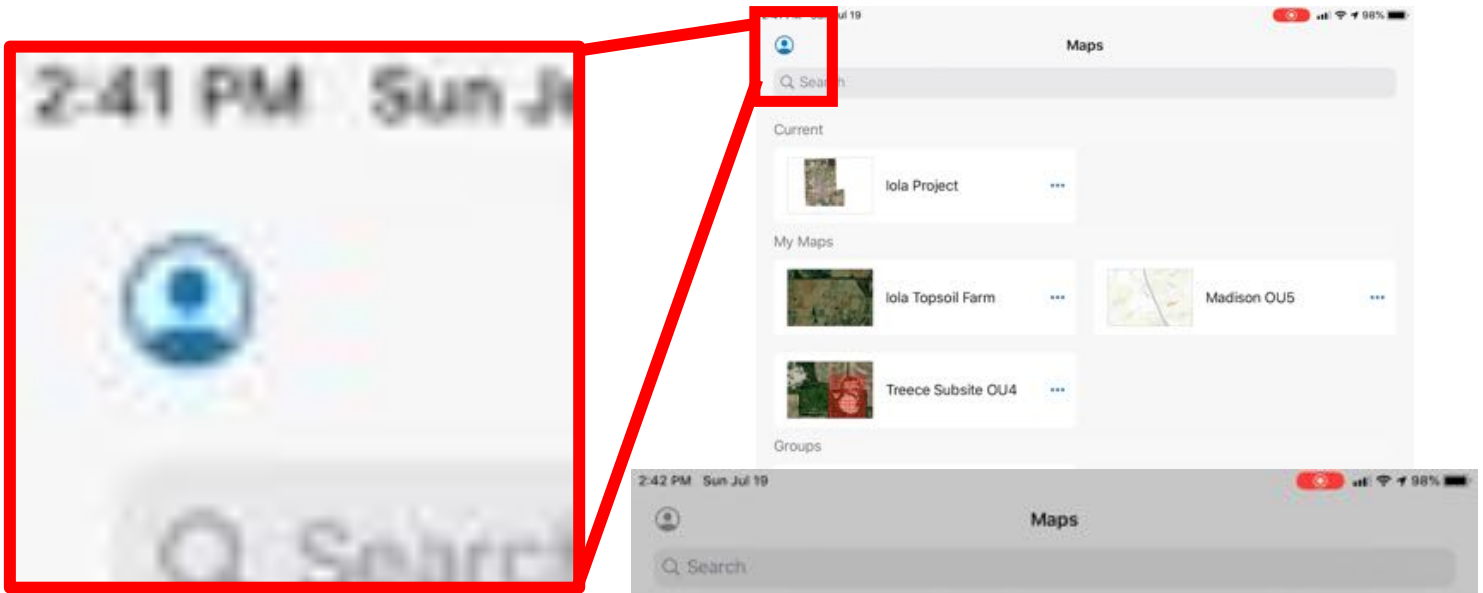

Step 1.

Open Collector App.

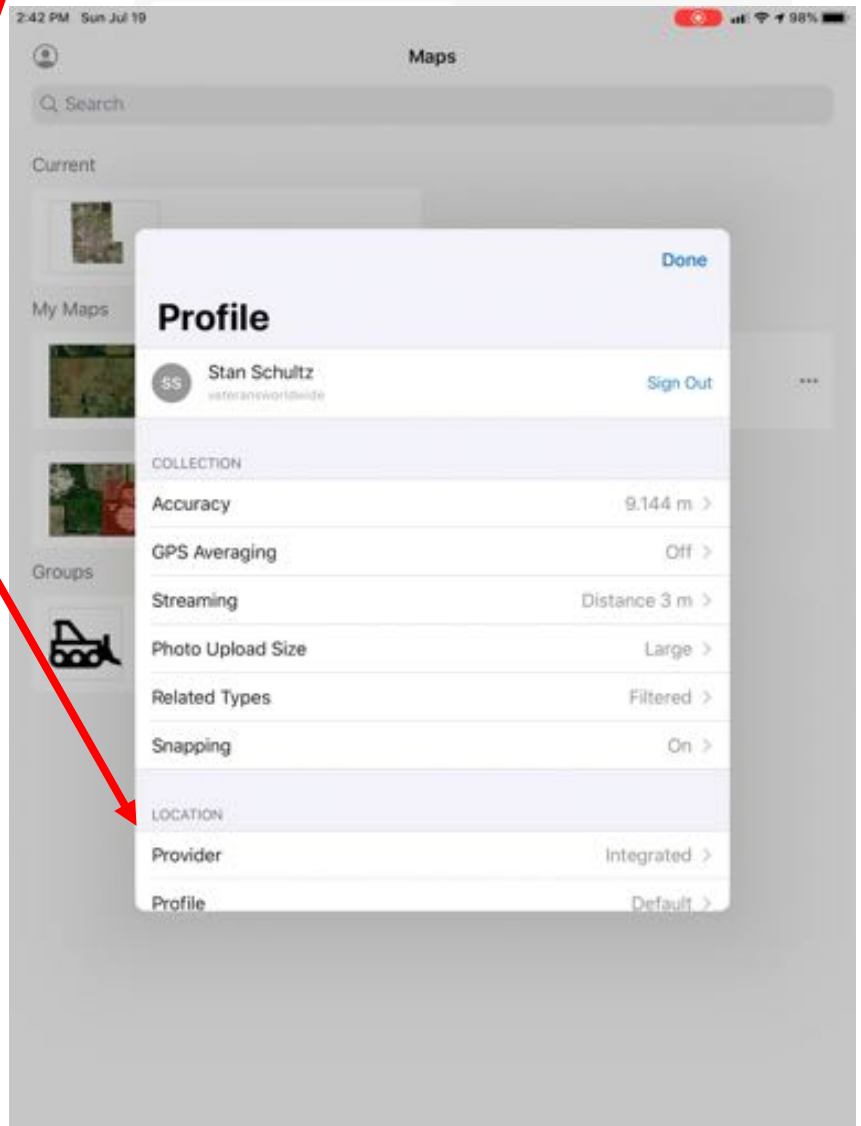

Step 2.

Select the Blue Circle Icon in the Top-Right.

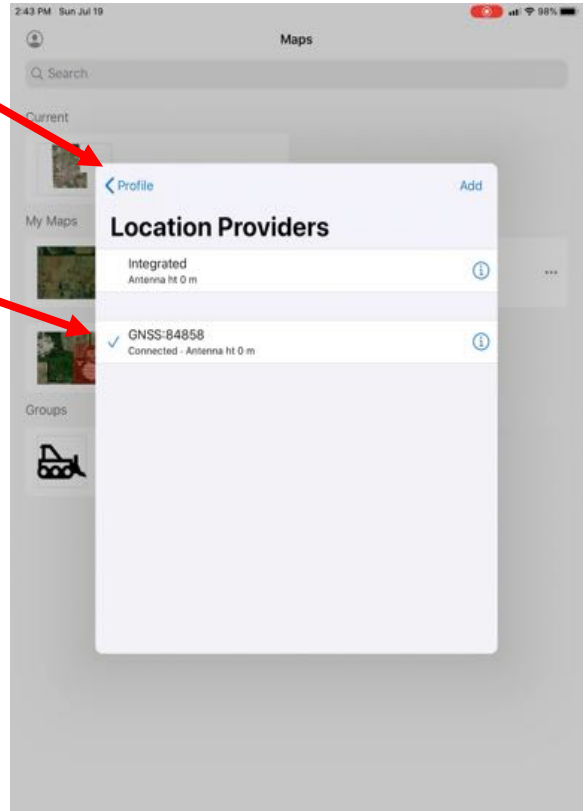

Step 3.

Tap "Provider" which is located under the Location Menu.

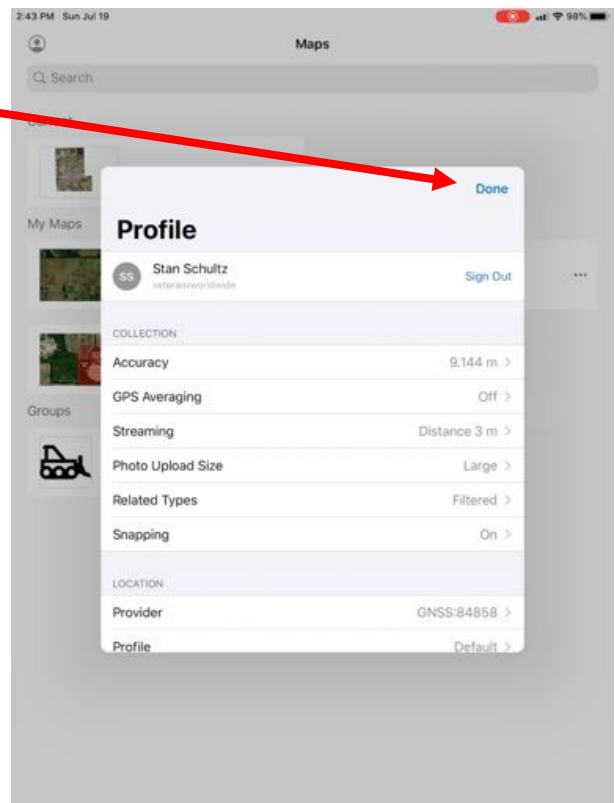

Step 4.

Select GNSS:84858 as location provider.
Once selected, tap "Profile" in the Upper-Left.

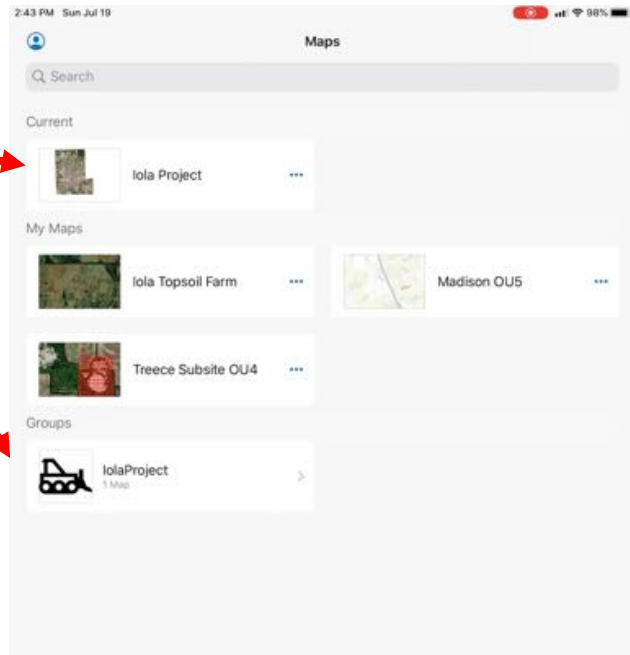

Step 5.

Tap Done in the Upper-Right.

Step 6.

Select Iola Project either in the Groups Section or the Current Section to open Iola Maps.

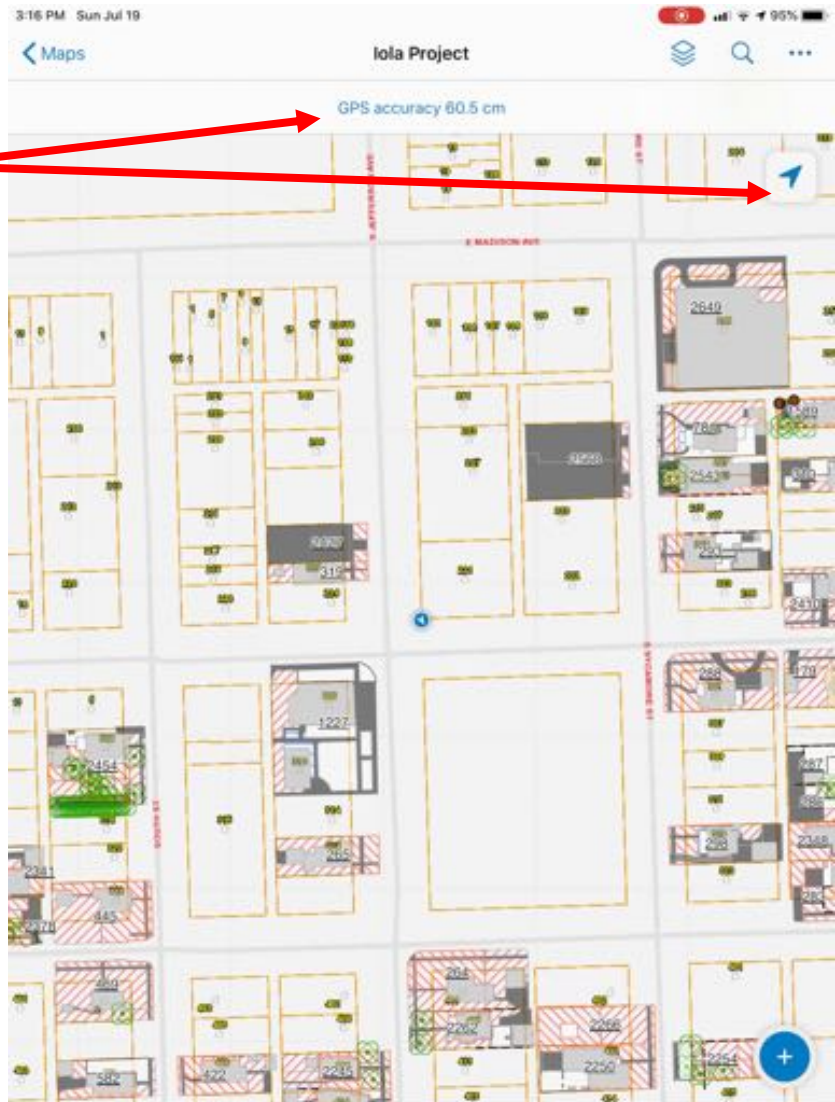

Step 7.

Tap the Location icon in the Upper-Left of the map.

Step 8.

Ensure that Location Icon is **Blue** and GPS Accuracy is **Under** 100 cm.

Step 9.

Begin using iPad and GPS for work in the field. Once work is completed, close the iPad.

To turn GPS Receiver off, Press and Hold Power button until only the Far-Right **Red** Light is showing.

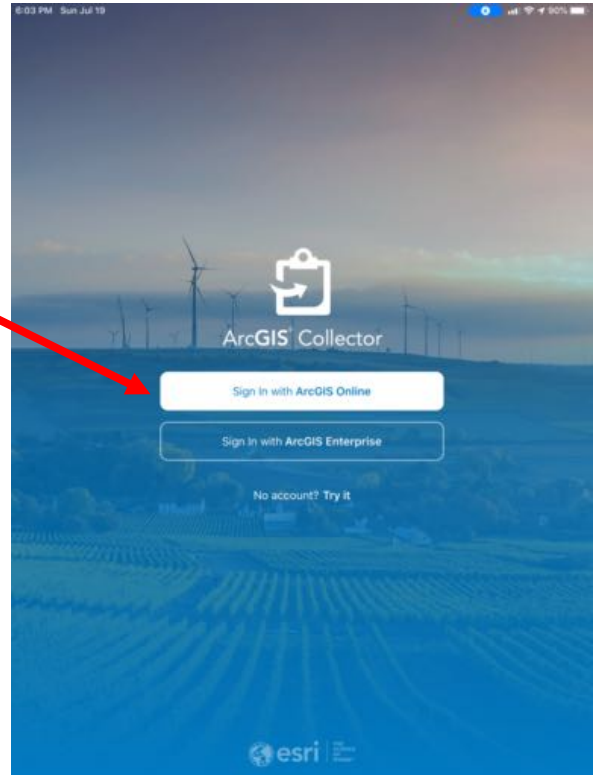

Logging into Collector

Occasionally Collector will Sign Out of the device. This is normal. Follow steps below on how to log in.

Step 1.

Tap "Sign in with ArcGIS Online"

Step 2.

Enter credentials.
