Turn-key Completion

TruVenture Solutions Inc. is a Florida-based commercial construction and construction management firm with specialized expertise in regulated cannabis facilities. We deliver compliant, secure, and high-performance construction solutions for dispensaries, cultivation (grow) facilities, processing operations, and supporting infrastructure statewide.

Licensed as a Florida Certified General Contractor (CGC1532750), we focus exclusively on the unique demands of the cannabis industry, including stringent security requirements, environmental controls, regulatory compliance, and operational efficiency. Our portfolio features successful retail dispensary build-outs and complex cultivation facilities that integrate advanced MEP systems, security zoning, and Florida-specific code adherence.

Regulated Market Experience

Cannabis projects in Florida demand meticulous coordination among owners, architects, engineers, consultants, and regulators. TruVenture Solutions Inc. excels at navigating these complexities to deliver facilities that meet performance, security, and jurisdictional standards—from front-of-house retail to high-tech back-of-house cultivation and processing.
