Rally in the Valley 2021

Veterans Festival & Party for Peace

San Luis Valley, Moffat Colorado THE HIGH DESERT RANCH

What A Feat to Bring Back a Rally in The San Luis Valley. For a small beginning it was endearing and like any good rally, had the key parts needed. Good Music Lineup, Good Food, and Good Company. Featuring Industrial Band Society Burning on Saturday Night, who brought their alter egos and Rocked out in the Shrub Brush with the dynamic Sangre De Cristo & San Juan Mountains singing in return for quite a scenic view. A Huge thank you to the Vendors that made their way out. Mandala Pizza and Shiney Side Up, for making us

look legit and being so Supportive, Glen and Wendy Rock. Plus Hathways Hide-a-room, And the other vendors that braved our day time barren. I promise we will grow.

Progressive Lineup

Day 1 Thursday September 8th We Opened at one of our Sponsors - The Mosca Pit Stop with a Ribbon Cutting for the "Pilot For Peace" program. The heart of what this series of Rally's is about. An In depth plot to secure affordable housing, and garden center with accompaniment of creating a neighborhood that can pay it's occupants to live there. What would that look like to build out and operate with full quality of living standards. Critical Thinkers B Corp believes it's possible, a main contributor of the event. A Veteran owned business with more than a dream and a plan, but an invitation to come build something that CT B Corp knows is possible to create the objective of regional Stabilization and community resources being aligned to address community needs. Could we come together and just build the infrastructure that is so desperately needed in the San Luis Valley? A Region with 1/5th of its population Veterans, and no services, let alone drug and poverty problems. "Let's Start here, and create one, and see if we can create more in other areas of need" CT B Corp extends the offer publicly and to bikers and Veterans.
