

## US CATHOLIC CHURCH

- Catholic marriages are down 55% since 1990
- Baptisms went from 986,000 to 694,000 (-30%)
- 1 in 5 children baptized do not receive 1<sup>st</sup> communion
- 2 in 5 children baptized are not confirmed
- 85% of children confirmed stop practicing their faith by age 21
- Millennials are less religious than preceding generations

## ARCHDIOCESE OF CHICAGO

- **27% Decline in Mass attendance:** 150,000+ fewer people attend Mass each Sunday compared to 20 years ago.
- **Significant population shifts:** Areas of Chicago that were once predominantly Catholic with a parish for each ethnic group now have fewer people and fewer Catholics but often the same number of facilities as in the past.
- **Fewer priests to serve our communities:** More than 160 priests will reach retirement age in the next decade with fewer priests being ordained per year (5-6 in each of the past two years) to replace them.
- **An aging infrastructure:** Many parishes are **significantly under-investing** in building repairs, leading to challenges with building upkeep that take time and resources away from ministry.
- **Insufficient resources to invest in ministry:** Over 40% of parishes in the archdiocese do not have a full-time staff member dedicated to ministry except for the priest.

## OUR PARISH GROUPING- St. Gertrude Parish, St. Ignatius Parish, St. Jerome Parish

### Local Area Demographic Notes

- In the combined areas covered by the three parish boundaries, total population declined nearly 12% between the 2000 Census and 2010 Census. Since the 2010 Census, the total population is estimated to have remained stable.
- Within St. Gertrude’s boundary area, total population declined ~8% between the 2000 and 2010 Census and is estimated to have remained stable since 2010.
- The racial / ethnic composition of our local area is estimated to reflect:

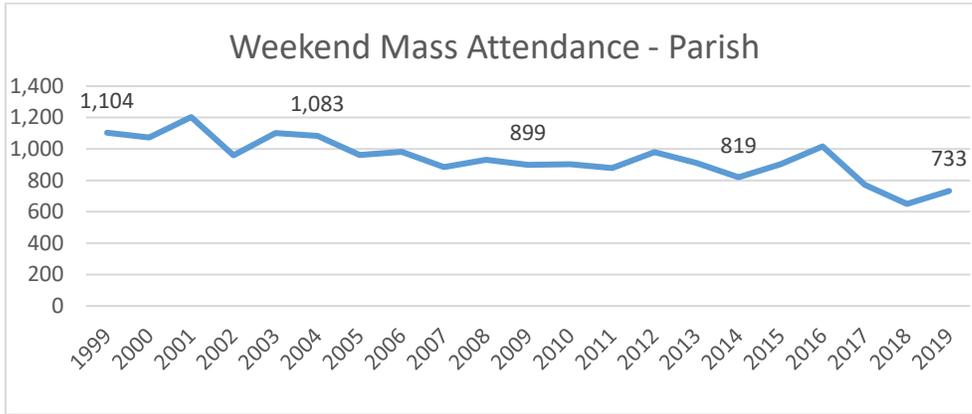

Race / ethnicity	Total Grouping Area	St. Gertrude Area
White Alone	53%	59%
Black Alone	20%	13%
Asian Alone	11%	16%
Hispanic Origin (Any race)*	24%	19%

\*Note: The way demographic data is currently collected and reported counts Hispanic origin ethnicity in addition to race. I.e., someone of Hispanic Origin may also be counted within the three racial categories noted above. This is why totals may exceed 100%.

- Current age estimates reflect a gradual aging of the local population.
  - The population age 65 and older in the local area covered by all three parishes is estimated to have increased from 8.4% in 2010 to 11.6% currently.
  - Within St. Gertrude’s territory, the population age 65 and older is estimated to have increased from 10.2% in 2010 to 13.5% currently.
