rural internet you can trust

Rural Internet Technician

CONNECT THE WORLD

Rural customers have struggled as urban centres continually upgrade Internet services and infrastructure. Swift-Net was built to provide stable, high-speed Internet connecting residential, agriculture and commercial clients to a robust infrastructure. We are expanding due to high demand within our service area. Rural Internet you can trust does not just mean technology - we also provide superior service to our clients an experience our clients will attest to. Anyone can provide Internet Swift-Net feels the true benefit of being a Swift-Net client starts after we have connected them to the technology they need. We pride ourselves on the service experience from site survey to install and as long as you are a customer. In the fast world we live in today this is what sets us apart from others, if you agree this is the most important connection, we want to hear from you.

Join the Team

- ✓ Do you share our passion for providing a reliable service to areas that have been neglected
- ✓ Do you have a dedication to a comprehensive customer experience
- ✓ Do you desire to constantly learn new technologies
- ✓ Enjoy working independently with scheduling flexibility and earning potential

We need someone to:

- Take ownership of every customer collaboration, and works to find innovative solutions never backing down from a challenge
- Demonstrate a curiosity and passion for technology, enjoys being part of a team and can work independently
- Promote and sell a positive image of Swift-Net, our products, and services
- Can perform all installation functions associated with the addition, modification and removal of all technology equipment, hardware, testing, drilling and running cabling, terminate network Indoor and Outdoor Ethernet cable into RJ-45 ends
- Mount Tri-pod and Satellite J-Arm mounting apparatus to roof and seal to ensure no leaks
- Program and provision CPE (Customer Premise Equipment)
- Assess and troubleshoot equipment on site and/or over the phone
- Ability to handle a physically demanding workload which includes heavy lifting, crawling in confined spaces and working in all weather conditions
- Comfortable working safely at heights due to extensive ladder work, manlift work, tower climbing, (up to 100 ft freestanding towers) and working on roofs

Experience / Knowledge Required:

- Mechanical ability along with demonstrated technical proficiency
- Construction background is an asset
- Ability to provide exceptional solutions based customer interactions
- Clean and valid Class 5 Driver's License, supported by a driver's abstract
- Flexibility with schedule: days, evenings, weekends, statutory holidays, to meet business needs
- Self-motivated, demonstrate effective decision-making skills and can work with limited supervision
- Ensure vehicle, test equipment and tools are maintained in excellent condition.
