Unified District Vision

- **Community Impact Vision:** *"My vision for the future of fire and EMS services in Allen County is centered on unity, strength, and service. By continuing to bring our fire and EMS agencies together through countywide unification efforts, we can build a stronger organization that delivers the highest level of emergency response, patient care, and public safety to every citizen we serve. I believe we have a responsibility to ensure our firefighters, paramedics, EMTs, and first responders are provided with the safest equipment, best training, and strongest support possible so they can return home safely to their families after every call. At the same time, we must remain fiscally responsible and accountable to our taxpayers, ensuring we provide exceptional fire and EMS services while being good stewards of the resources entrusted to us. Together, we can create a unified fire and EMS system that Allen County can be proud of for generations to come."*
