HISTORY OF CFPTF COLLEGE

PROGRAM BACKGROUND

In May 2022, our nonprofit responded to the urgent need for education and vocational training in Cité-Soleil by establishing a college on Fontaine Hospital's (CHF) premises.

This initiative came from the realization that many of the young boys in armed groups are middle school and high school dropouts without family or community support. It is nearly impossible for these at-risk youth to afford food, housing, and schools. Quick money (often from illegal activities) for food, and housing come before education

Our goal is to address the root causes specific to the unique challenges at-risk youth from Cité-Soleil and surrounding areas face pushing them towards a life of crime and deceit

Program Services:

- Vocational education dual enrollment opportunity for Ecole Mixte Petit Coeur de Jesus (EMPCJ) students
- Academic education (2-4 year degrees)
- Community development workshops
- International undergraduate studies opportunities

Through education that leads to employment, our hope is to reduce the number of at-risk youth who participate in delinquent activities to make ends meet.

Through our international education program, we seek to identify Haitian high school students with a strong track record of leadership and civic engagement with the desire

PROGRAM MISSION & VISION

- Empowering up to 200 Haitian youth, especially at-risk youth with access to affordable vocational and academic education , and assist them in successful job placements a year over the next three years.
- To make international study opportunities a reality for 21 qualified high school students with a strong desire to return home and apply what they've learned over the next three years.

Our vision is a to have contributed to the personal and professional development and recruitment of at least 500 medical professionals, educators, skilled tradesmen in and around the commune of Cité-Soleil within the next three years.

Our vision is also for the study abroad students who have returned home apply the skills learned in the public and private sector and also in the social sector serving as mentors, professors, educators, coaches, trainers, speakers, employers.

A man with a beard and mustache, wearing a dark jacket, is kneeling and using a yellow and black power saw to cut a metal beam. Sparks are flying from the saw. The background shows a red metal structure and some greenery.

EXPECTED IMPACT

- **Reduced dropout rates** among rising middle schoolers, and rising high schoolers at EMPCJ
- **Reduced delinquency** among at-risk youth ages 9-21
- **Increased adult literary rates** empowering them to support their children academically and pursue a college degree.
- **Increased college enrollment** among at-risk youth and older adults.
- **Increased cooperation / collaboration** between community members collective problem solving.
- **Increased local economic activity**
- **Increased local Workforce** in medical, trades, and education fields

We need help to convert two old building on CHF's campus into new student study spaces.

PROGRAM COMPONENTS

- Culturally and contextually relevant core classes
- Vocational Education
- Academic Education
- Adult Literacy
- Student Meals
- Internship and job placement assistance
- Mentorship and counseling

- Undergraduate Full Ride Scholarships
 - Graduate studies opportunities with successful undergraduate program completion.
- Internship Fellowship Assistance
- Job Placement Assistance

*****Students in this program must agree to return to Haiti and work for at least three years to apply.**

DUAL ENROLLMENT SERVICE SUMMARY

Dual Enrollment Programs for Middle and High Schoolers:
