

A HIGH IMPACT , LONG-
TERM SOLUTION
FOUNDATION

WHITE PAPER

C.H.F. Foundation's Strategic Solution to move C.H.F. Hospital towards sustainability.

OBJECTIVES

- Introduce C.H.F. Foundation & C.H.F. Hospital
- Present the problems facing C.H.F. Hospital
- Present long-term solution strategies
- Serve as an invitation to become a C.H.F.F strategic partner for/as:
 - Trainors, Consultants, volunteers, sponsors
 - Funding
 - Equipment, materials and supplies procurment
 - sponsors, donors

SOLUTIONS

- Partnerships
- Strategic plan development
- Strategic plan execution
- Commitment to seeing it through
- Repeat

OPPORTUNITIES

Real time problem solving for now and the future

What we are working to accomplish is to better position C.H.F. Hospital to maximize its strengths and address its weaknesses.

Build a network of problem solvers

We can strategize to find a way to do what we do best individually together. That's where the magic is.

Increase the odds for success stories

We're serious about protecting our time and resources and especially yours. We work with one medical establishment at a time that must meet our criteria.

AT A GLANCE

Challenges

- Lack of funding
- Low patient turn out
- Lack of equipment
- Lack of medications
- Low number of highly qualified staff
- Limited community outreach capabilities.

Benefits & Opportunities for :

- Real Time Problem Solving
- Strategic Partnerships
- Community development and engagement.

"What if we concentrated our efforts on making what's already going right better and support those who've weathered many storms ?

Kareen Ulysse, M. Ed

Founder/President

C.H.F. FOUNDATION

WHITE PAPER

ABOUT C.H.F. FOUNDATION

What we do

We are a not-for-profit organization whose **mission is to assist underfunded medical establishments that offer health services** to the marginalized , poorest and most underserved Haitian communities around the world **get the equipment, funding and other resources needed to better meet the needs of their patients, community and staff.**

Our overarching goal is to reduce these establishments' dependence on aid by working closely with them towards sustainability through a strong network of partners.

Our vision is that the establishments we support uphold our core values “ Partnership, accountability, fair & equitable practices, Locally & environmentally responsible , communication, professionalism ” and become the institution of choice for the communities they serve.

One medical establishment at a time we:

- assess their needs,
- Identify and reinforce institutional strengths
- Identify and work towards solving institutional weaknesses,
- create a pipeline of support between providers/partners (in Haiti and abroad) to meet patient needs.

Currently, we are working with the Centre Hospitalier de Fontaine Hospital (C.H.F.H.) (Fontaine Campus)a 30 year old non-profit Hospital located in Fontaine, Cite-Soleil, Haiti towards sustainability.

TARGETED PROBLEMS

Our focus

In order to ensure patients regardless of their socioeconomic background continue or begin to receive the level of care they deserve, **we should first ensure the places that are to take care of them have what they need** such as:

- Qualified Staff
- properly functioning equipment.
- Revenue to conduct daily operations and community outreach

Our purpose is to move the needle forward and maintain forward momentum.

www.chffoundation.com

OUR CRITERIA

The medical establishments we support must meet the following criteria:

- 15+ years in operation
- Serve marginalized groups
- Registered and in good standing with regulating agencies
- Committed to fair practices towards patients and staff
- Environmentally and locally responsible
- Capable and willing to generate show record of activities, success stories, financials over several years upon request.

DEPARTMENTS

C.H.F.H. offers health services in the following departments :

- Imaging
- Surgical
- Women and Children
- Family planning
- Dentistry
- Community health
- Lab & pharmacy
- Security
- Administration
- Structural improvement
- Ssanitation
- Transportation
- General Health
- non life threatening emergencies
-

WHY WHAT WE DO IS IMPORTANT

WWW.CHFFFOUNDATION.COM

According to the United Nations Populations Fund, more than half of the Haitian population has no access to health services due to steep costs, insufficient availability in rural areas, and limited knowledge.

What we've learned is that there are establishments and organizations who have dedicated their service to, and serve as advocates for those marginalized populations. What we realized is that they needed assistance to do more of what they do and better.

In a nutshell what we do is important because we help these establishments develop, test, adjust plans and systems to become sustainable.

Our collective experience in Haiti has taught us to acknowledge their strengths and success stories thus helping them build on them with new strategies , partners and opportunities for growth

PURPOSE

The purpose of this document is to present the promising strategies we believe can help C.H.F. Hospital meet its patient needs and request your assistance in obtaining what we need.

The purpose of these strategies is to move the C.H.F.H. towards sustainability which in turn will make it possible for C.H.F.H. to meet its patients needs, and to:

- Maintain the quality of services it offers
- Keep cost affordable
- Introduce new services
- Treat and hire people
- Develop and enrich its patients, staff, community
- Maintain a strong relationship with strategic partners
- Improve and expand practices and infrastructure

STRATEGIES

We are seeking funding and partnerships to launch new, or strengthening existing strategies :

-
- Mobile Health
- Affordable Health Ins.
- Production
- Post secondary education

POST-SECONDARY EDUCATION

Currently C.H.F. Technical School's **plumbing class** is in session.

The goal is to offer additional majors in:

- Medical Technicians
- Physician assistants
- Electricity, soldering, wood work, glass work
- Sustainable living

MOBILE HEALTH CARE

We strongly believe specialized mobile clinics to be the most effective strategy to generate revenue for C.H.F. Hospital and make affordable healthcare more accessible to its target audience.

we are most excited about is the ability to create more jobs as more motor vehicles become accessible to C.H.F. Foundation

- Dental & Vision
- Reproductive Health
- general check ups
- Dialysis

AFFORDABLE HEALTH INSURANCE

This strategy can work concurrently with mobile clinics giving people who have never been offered such opportunity for themselves, their families, students, athletes and/or staff such as

- receive care at a reduced price,
- have access to a wider network of providers,
- have access to mobile clinics.

PRODUCTION

This strategy is the most ambitious of them all. Haiti's warm climate is ideal to grow a variety of crops that can serve as raw materials to produce raw materials needed to manufacture medical supplies such as cotton balls, gauze and other medical supplies deriving from raw, organic material.

Another one of C.H.F. Foundation's core values is being locally and environmentally responsible. For that reason we have relaunched the **Egg & Honey project** whose promise is to work towards providing the 1-2 eggs and tea with honey for breakfast to students.

CONCLUSION

- We are by no means underestimating the amount of work and complexity of this plan.
 - This is why we partner with institutions at least 15 years old. By that time we feel they've demonstrated their ability to weather many storms without deviating from their core values.
 - In conclusion we believe it is time we show these institutions that hard work pays off even in Haiti too.
 - Our hope is that with consistent support C.H.F. Hospital can focus on preventative health outreach.
- Make a donation today on our website to help us obtain the resources needed to help C.H.F. Hospital, whose slogan is "Nothing above human life ; Respect all life".

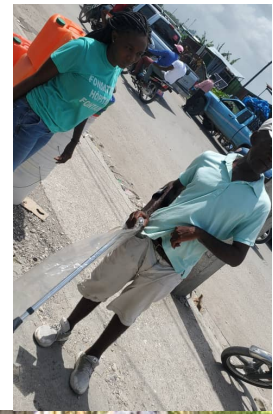

WHAT YOU CAN DONATE

Equipment | Supplies | Materials | Money | Your time | Your expertise | Your Resources | We are in great need of Diesel Motorized vehicles v8+ for security patrol, staff transportation, equipment and materials transportation, Sanitation, emergency patient transportation, XL for mobile health| energy sources.

For our Youth Program - Guiding and enriching

Soccer Gear | Board Games | Sudoku Books | Word Search | Puzzles | Exercise Bands | Swim Gear | Speed & Agility Gear | Durable athletic shoes | Protective gear - gloves, knee and elbow pads etc... Art kits, Science kits | Picture books on the environment and sustainable living.

LOUIVISION

"Oh the places we'll go".

WE JUST WANT TO LET YOU KNOW:

We wouldn't have made it this far without you. Thank you!!

Koze Jen's can't imagine the next 30 years without you.
