TYPES OF DONATIONS

Unrestricted Donations (preferred):

Normally donations through any of C.H.F. Foundation's platforms are split between the hospital AND the school. Each institution's founders reserves the right to use the funds for their highest needs. They've been at it for over 25 years each, they have a better understanding of how funds should be used. It's important to us that the institutions we support retain their autonomy.

Both C.H.F. Hospital and E.M.P.C.J School struggle with 1) payroll 2) purchasing food 3) purchasing items used the most daily.

Restricted Donations

Restricted donations are funds donated for a specific use. They normally accompany specific instructions on how the donor/sponsor/partner would like for the funds to be used.

For example if it's important to you to support the school OR Hospital, OR a specific program at each institution (Nutrition at school, or Sponsor a mom's birth).
