

DERMA SCULPT

AXICON
TECHNOLOGIES

The **Hifu 12D** technology is a revolutionary advancement in non-invasive skin lifting and tightening. Utilizing high-intensity focused ultrasound (HIFU), this cutting-edge device delivers precise energy to targeted skin layers, stimulating collagen production and promoting natural skin rejuvenation. With its 12 lines of energy output, the Hifu 12D offers a more comprehensive and efficient treatment, reducing session time while providing superior results. Ideal for contouring the face, neck, and body, this technology ensures minimal discomfort, no downtime, and long-lasting effects, making it the go-to solution for clinics seeking to offer top-tier, non-surgical aesthetic treatments.

BENEFITS OF HIFU

Face Lifting and Tightening

Stimulates collagen production, resulting in firmer, tighter skin over time.
Reducing wrinkles and sagging skin on the face and neck.

Youthful Appearance & Natural Enhancement

Helps restore a youthful look and enhances the skin's appearance naturally and other signs of aging.

Face Contour Improvement

Can be used to refine facial contours, such as lifting the cheeks, jawline, and brow.

Natural Enhancement

Enhances the skin's appearance naturally, without the need for synthetic fillers or treatments.

Body Contouring

Tightening and lifting loose skin on the body, including the abdomen, arms, and thighs.

Cellulite Reduction

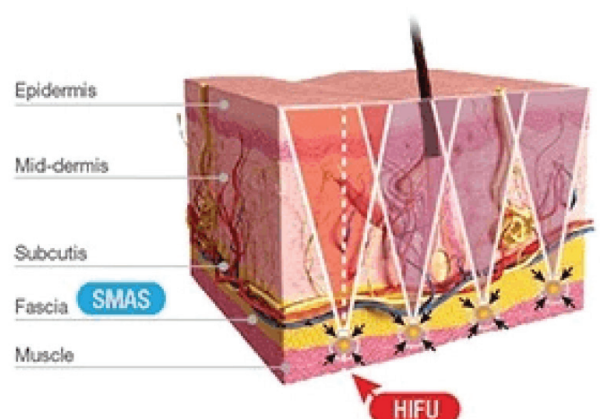

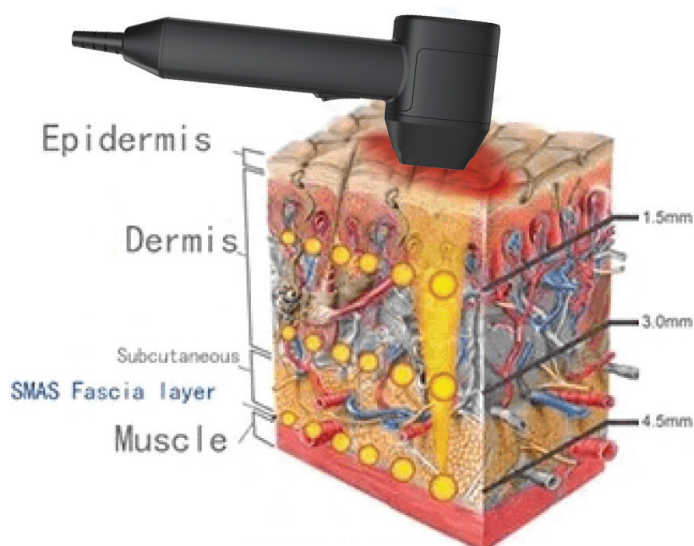

Improving the appearance of dimpled skin by breaking down fat deposits.

Saggy Skin

Addressing skin laxity and promoting a more youthful appearance, in the face, neck, and body.

High peak power ensures superior results with minimal discomfort.

Customize the energy, penetration, density, and size settings to meet the unique needs of each patient.

ADVANTAGES OF HIFU

Non-Invasive Treatment

HIFU (High-Intensity Focused Ultrasound) offers a non-surgical option for lifting and tightening skin, reducing the risks associated with invasive procedures.

Natural-Looking Results

By stimulating the body's natural collagen production, HIFU delivers gradual and natural improvements in skin firmness and elasticity.

Minimal Downtime

Patients can return to their normal activities immediately after treatment, making it a convenient option for those with busy lifestyles.

Targeted Treatment

HIFU precisely targets deeper layers of the skin, providing effective results without damaging the surface.

Long-Lasting Effects

The effects of HIFU can last up to a year or more, offering sustained improvement in skin appearance.

Versatile Applications

HIFU can be used for facial lifting, body contouring, and even treating specific medical conditions, broadening the clinic's service offerings.

Safety

HIFU has a well-established safety profile, with low risks of complications or side effects.

Increased Patient Satisfaction

With minimal discomfort and recovery time, HIFU treatments can lead to high levels of patient satisfaction and repeat business.

Convenience

A typical HIFU session lasts only 30 to 90 minutes, making it easy to fit into a patient's schedule.

HANDPIECE

Handle

12 Cartridges (20,000 Shots / Cartridge)

360 Vmax

Body Lipo

SPECIFICATIONS

TYPE	High-Intensity Focus Ultrasound
ENERGY	01-3.0J
FREQUENCY	4-7Mhz
POWER	200W
TREATMENT DEPTH	1.5mm, 2.0mm, 3.0mm,4.5mm, 6.0mm, 9.0mm, 12mm, 8.0mm, 13mm
OPERATE MODE	Auto & Manual
MOTOR	Japan Imported
WORKING HANDLES	12D technology, 3 handles for Facial + 360 Vmax + Body Lipo
CARTRIDGES	12pcs Single line cartridges: 1.5mm, 2.0mm, 3.0mm (20,000shots/cartridge) 12 lines cartridges: 3.0mm, 4.5mm, 6.0mm, 9.0mm, 12mm (20,000shots/cartridge) 360 degree Vmax handle:1.5nm and 3.0nm (40000shots/cartridge) Lipo cartridge: 8.0mm, 13mm (24 lines*600shots)
GROSS WEIGHT	45Kg
PACKING SIZE	63*63*57cm
MACHINE SIZE	40.7cm*41.9cm*35.5cm
