

## LAND ACROSS THE RIVER

RICH BARON © 2017

Over the river, I have heard of a land out of a dream  
Wish I could fly just like a bird to this land so lush and green

I hear roads are paved with gold, lined in trees with fruit so  
sweet  
Everyday rainbows fill the sky. It's made to knock you off  
your feet

Come on along and we will go there  
Nature puts on quite a show there  
And the winds of time are slow there

Here it call, here it callin', I hear it callin', here it call, here it  
calling... me (2x)

Over the river, there's a peace, no one can bring, no one can  
send.  
I hear that joy and love increase and so your life will never  
end.  
Someone is building me a home out of a tree right near a  
pond.  
I hear that smile upon your face goes on and on, and on and  
on.

Come on along and we will go there  
Nature puts on quite a show there  
And the winds of time are slow there

Here it call, here it callin', I hear it callin', here it call, here it  
calling... me (2x)

The river, the river, the river, got to go across (2x)  
Got to go across the river, go to go across that river  
Come on along and we will go there.
