

## **Jesus Help Me Through the Night**

RICH BARON © 2017

Jesus help me through the night, she left me all alone  
I was blinded by her light. Now I approach your throne on my  
own

Though I turned my back on you, following the blind  
Would you turn your face my way one more time

Lift me up, be my light, Jesus help me sleep tonight  
Fill my cup, give me sight, Jesus help me sleep  
Let me enter your rest

Like the Jew I was content to live in Babylon  
Living on the hopes of men, my sin went on and on  
So you shook my empty world, with your tender heart  
And your purpose soon unveiled, giving me a part

Lift me up, be my light, Jesus help me sleep tonight  
fill my cup, be my sight, Jesus help me sleep tonight  
Let me enter your rest
