

## Song of Songs

Hey, are you listening  
I can't share... this thing... with just... anyone  
It's a date, a place to go to  
where we can throw our cares right up to the wind

It's time, we're all invited  
Let's get excited, His light it will start to show  
So shine, too bright to hide it  
Let's get inside it, His love it will overflow

ooh now I want to, make this life a song..., only sung to  
you..., let it be true, with the song of songs, in my heart of hearts...  
..... let it... bless you

Like a lover who longs for his love  
with eyes full of pure adoration  
and you keep holding on till I'm out of  
every troubling situation

Your peace... is here  
it's like nothing I've ever known  
you cease... my fears  
every evil against me has been, overthrown

ooh now I want to, make my life a song... only sung to  
you... let it be true, with the song of songs, in my heart of hearts...  
ooh now I want to, make my life a song... only sung to  
you... let it be true, with the song of songs, from my heart of hearts...  
..... ooh, let it... always bless you

song of... song of songs      song of... song of songs
