

Learning update 7th February 2021

Over the last couple of weeks, we have been doing lots of activities relating to The Very Hungry Caterpillar book and healthy eating.

The children have had the opportunity to explore lots of fruits - mango, pomegranate, passion fruit, coconut, pineapples and many more. They have talked about the textures and how they smell, put them in size order, weighed them on scales, measured how long they are and predicted the heaviest and lightest. Some of the fruit has been cut open so we could look inside and lots of the children have enjoyed tasting them.

We also had lots of vegetables to explore - aubergine, cauliflower, parsnips, potatoes, and corn on the cob, to name a few. We have looked at where food grows and what potatoes and tomatoes can be made into. We also talked about milk, where it comes from and that it can be made into butter, cheese and yogurt. We have painted and printed with the fruit and vegetables and sewn wool patterns onto leaves.

The children have really enjoyed this learning experience and have been extremely enthusiastic in preschool.

Click below to visit our resources page where you find to a PDF sheet with information about what we have been doing which may also give you some ideas of activities you could try at home.
