

Learning update 9th May 2021

Many of our children have shown lots of interest in dinosaurs so this is being run as a theme in Preschool for the next couple of weeks.

We have Dino ice eggs, Dino counting, Ammonite fossils, Dino bones, a Dino world interest table and Dino arts and crafts. Anything Dinosaur related - we've got it! We hope everyone enjoys learning about dinosaurs, fossils and periods in time.

The children are continuing to observe the tadpoles, and over the weekend we have welcomed our first butterfly - I am sure of all the children will be excited to see this!

In Preschool we promote positive behaviour and encourage all children to learn and follow our rules and routines. Our main rules in Preschool are:

- Kind hands
- Kind Feet
- Kind Words

We also remind children about manners - saying please and thank you, waiting for turns and sharing.

Please click the link below and visit our resources page to access a helpful PDF document promoting positive behaviour. We hope this will give you some ideas on reacting to situations and that you find it useful.
