You will receive great beauty tips for your Big Day!

Airbrush VS Traditional Make-Up

Comparison Questions	Traditional Make-up	Airbrush Make-up
Will I Need to touch up?	Possibly, it depends on your skin type. If you're prone to oily skin, then yes!	NO
How does it work with oily skin?	Blotting tissue will help	No need to blot
Will it Streak?	Possibly with tears and water	NO, water-resistant
Does it look flawless?	YES	YES
Does it look Natural?	You'll be able to tell you have make-up on, but it will not be caked on	YES
Does it clog pores?	Possibly	NO
How does it get applied?	Sponge/Brush	Airbrush Gun & Compressor
How long does it last?	Depends on your skin condition	Until you take it off

We use airbrush for the foundation! Which is great for sensitive skin because it sits on top of your skin and does not clog your pores, leaving your skin flawless. We mainly use MAC cosmetics for everything else. Once everyone's hair and makeup is completed, it will last all day and night! When the Artists are finish, they will make sure everyone is happy and do a final touchup on everyone prior to them leaving so everyone will feel fresh and beautiful no matter how early they had to start.
