

A background graphic consisting of several grey footprints of varying sizes, scattered across the page. Some footprints are large and prominent, while others are smaller and more subtle. They appear to be walking from the top left towards the bottom right.

**When You Have
As Many Feet As
We Do, There's
Only One Thing
To Do.**

Get Moving.

Our Linwood Avenue clinic has a slight problem. Too many feet for our square footage. So we've moved. To a new, modern facility at 2121 Main Street in the Seton Building, on the Sisters Hospital campus. More leg room. More convenient parking. Handicap accessibility. A real improvement all the way around for you. Two things remain the same, though. Our people. And our commitment to providing the best podiatric care anywhere.
