# ALL NEW WAVE EXCEED TOUR 6 TECHNOLOGY

## DuRubber

Improved outsole design which strikes proper balance between stability and lateral sliding, while maintaining professional-level durability. 6-Month Outsole Warranty.

## D-Flex Groove

Enhanced diagonal groove in the mid-foot area enabling greater stability for quick pivots and turns without sacrificing flexibility.

## DYNA-EYELET WRAP

Eyelet structure wrapping the entire foot, providing a secure fit even in the most explosive movements.

## VAICX

Light, evolutionary insole board delivers a more comfortable and cushioned ride with higher rebound, delivering the most energized experience underfoot.

## 3D-SOLID

Unique upper material redesigned to provide the highest level of softness and flexibility while maintaining durability and breathability.

## Mizuno Energy<sup>nxt</sup>

Next generation of Mizuno Energy midsole material, designed to maximize energy return and cushioning for optimum performance.

## MIZUNO WAVE

MIZUNO WAVE® Technology provides added ankle stability and shock re-distribution for quick, explosive movements on court.

## PowerC

An exceedingly lightweight midsole material with excellent comfort and resilience properties.

# WAVE ENFORCE TOUR TECHNOLOGY

## DuRubber

Improved outsole design which strikes proper balance between stability and lateral sliding, while maintaining professional-level durability. 6-Month Outsole Warranty.

## Dyna-Heel Lock

Proprietary technology that improves ankle/heel/shoe alignment during movement. Works with the lacing system to provide a secure fit and premium stability.

## Mizuno Energy core

## 3D-SOLID

Unique upper material redesigned to provide the highest level of softness and flexibility while maintaining durability and breathability.

## Mizuno Energy

High rebound midsole material that is designed to improve athletes' energy return ratio to deliver highest rebound for optimum performance.

## MIZUNO WAVE

MIZUNO WAVE® Technology provides added ankle stability and shock re-distribution for quick, explosive movements on court.

## PowinC

An exceedingly lightweight midsole material with excellent comfort and resilience properties.

# WAVE EXCEED LIGHT 2 TECHNOLOGY

## X10

Targeted and lightweight outsole designed to provide durability specifically where it is needed.

## Uaiaix

Light, evolutionary insole board delivers a more comfortable and cushioned ride with higher rebound, delivering the most energized experience underfoot.

## ENGINEERED MESH

A unique upper material providing the highest level of softness and durability, while maintaining breathability.

## MizunoEnergy

High rebound midsole material that is designed to improve athletes' energy return ratio to deliver highest rebound for optimum performance.

## MIZUNO WAVE

MIZUNO WAVE® Technology provides added ankle stability and shock re-distribution for quick, explosive movements on court.

## PowerC

An exceedingly lightweight midsole material with excellent comfort and resilience properties.

# TF-11 TRAINING SHOE MIZUNO COB

M: 520019 MSRP: \$125.00 / WEIGHT: 10.4 oz. / SIZE: 7-13,14,15  
 W: 520020 MSRP: \$125.00 / WEIGHT: 8.3 oz. / SIZE: 6-12

**FEATURES:** Mizuno's newest iteration of training shoe, the TF-11 utilizes full-length Mizuno COB technology, which helps improve balance and body awareness. The TF-11 features a sharper bottomed outsole geared towards speed and agility, as well as general fitness workouts. A lightweight design with a woven mesh upper combined with a half-bootie construction provides an enhanced, soft feel that helps with increased stability. Internal media and lateral support wings give extra lockdown to the forefoot. A heel counter delivers an excellent foothold with optimum weight efficiency, making the TF-11 a "go-to" shoe for all-around training.

# MIZUNO COB

## C.O.B. - CENTER OF BALANCE

MIZUNO COB technology is designed to improve reaction speed and balancing capabilities as part of a consistent training routine. Training shoes featuring MIZUNO COB can increase foot sensitivity and may contribute to improved balance and reaction time in athletes. This proprietary technology accurately transmits information to the sole of the foot via activation bumps molded into the surface of the midsole, which is linked with the outsole.

## BALANCE IS STRENGTH
