INFORMATION STATEMENT

A. GENERAL INFORMATION

Item 1. Date, time and place of meeting of Stockholders

- a) The 2025 Annual Meeting of Stockholders (the “Meeting”) of East Coast Vulcan Mining Corporation (the “Company”) will be held on June 25, 2025, at [Time] at [Venue]. The complete mailing address of the Company is 15th Floor, High Rise Pacific Star Building, Sen. Gil Puyat Avenue, Makati City, Metro Manila, 1226.
- b) The approximate date when this Information Statement, Notice and Agenda with the accompanying Proxy Form will be published through alternative mode of distribution through the Corporation’s website and PSE Edge will be on or before June 3, 2025.

Item 2. Dissenter’s Right of Appraisal

A stockholder has the right to dissent and demand payment of the fair market value of his shares in case: (i) any amendment to the Company’s Article of Incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preference over the outstanding shares, or of extending or shortening the term of corporate existence; (ii) of any sale, lease, mortgage or disposition of all or substantially all of the corporate property or assets; and (iii) of merger or consolidation.

At any time after this Information Statement has been sent out, any stockholder who votes against a proposed action and wishes to exercise his right of appraisal must make a written demand, within thirty (30) days after the date of the Meeting or when the vote was taken, for the payment of the fair market value of his shares. Upon payment, he must surrender his stock certificates. No payment shall be made to any stockholder unless the Company has unrestricted retained earnings in its books to cover such payment.

Item 3. Interest or Opposition of Certain Persons in Matters to be Acted Upon

No director or officer, nominee for election as director, or associate of such director, officer or nominee, of the Company has any substantial interest, direct or indirect, by security holdings or otherwise, in any of the matters to be acted upon in the Meeting, other than election to office. Likewise, no director has informed the Company in writing of his opposition to any matter to be acted upon at the Meeting.

B. CONTROL AND COMPENSATION INFORMATION

Item 4. Voting Securities and Principal Holders Thereof

The Company’s capital stock is composed of only Common Shares, which are voting shares.

- a) **Record date.** The Record Date with respect to this Meeting is May 31, 2025. Only stockholders of record as of May 31, 2025 are entitled to notice of, and vote at, the Meeting.
- b) **Outstanding Shares.** As of Record Date, the Company's outstanding capital stock is 6,630,000,000 common shares with each share entitled to one (1) vote.

As of May 31, 2025, 19,981,902 common shares or 30% of the outstanding shares are foreign-owned.

- c) **Cumulative Voting.** A stockholder entitled to vote at the Meeting shall have the right to vote in person or by proxy the number of shares registered in his name in the stock transfer book of the Company for as many persons as there are directors to be elected. Each stockholder shall have the right to cumulate said shares and give one nominee as many votes as the number of directors to be elected multiplied by the number of his shares shall equal, or he may distribute them on the same cumulative voting principle among as many nominees as he shall see fit, provided, that the number of votes cast by a stockholder shall not exceed the number of his shares multiplied by the number of directors to be elected.

Stockholders may participate in the meeting by proxy. All stockholders who will participate in the meeting may vote through the Chairman of the Meeting (as Proxy) and/or submit duly accomplished proxies to the office of the Corporate Secretary at for inspection, validation, and recording at least five (5) days before the opening of the annual stockholders' meeting, or on/before June 20, 2025. The Proxy Validation Committee will inspect, examine, and validate the sufficiency of the proxy forms received. Unless otherwise provided in the proxy, it shall be valid only for the meeting for which it is intended. No proxy shall be valid and effective for a period longer than five (5) years at one time. No broker or dealer shall give any proxy, consent or authorization, in respect of any security carried for the account of a customer, to a person other than the customer, without the express written authorization of such customer. Any stockholder may revoke or cancel his proxy and attend the annual stockholders' meeting.

- d) **Stock Ownership of Certain Record and Beneficial Owners.** The following persons are known to the Company to be directly or indirectly the owner of more than 5% of the Company's voting securities as of May 31, 2025:

Class	Name and Address of Record Owner / Relationship to Issuer	Name of Beneficial Owner / Relationship with Record Owner	Citizenship	Number of Shares Held	% of Ownership
Common	Hilario G. Pagautan	Hilario G. Pagautan	Filipino	4,931,878,000 (direct)	74.39%
Common	PCD Nominee Corporation - Philippine Stock Exchange Bldg., Ayala Ave., Makati City	Various Clients / Stockholder (See Note A)	Filipino/Non-Filipino	903,996,387*	13.63%

Common	Techno-Asia Construction and Dev't Incorporated	Techno-Asia Construction and Dev't Incorporated	Filipino	486,055,662**	7.33%
--------	---	---	----------	---------------	-------

Note:

Note A. Of the total 903,996,387 (13.63%) lodged shares under the name of PCD Nominee Corp., 200,000,000 shares (3.02%) are under the name of Alakor Securities Corporation (ASC) FAO National Bookstore.

Among the participants under PCD, NO account owns more than 5% of the voting stock.

Note B. Beneficial Ownership Report by Security (List of PCD Participants) as of December 31, 2023. 486,055,662 of the Issued and Outstanding Common Shares, which are not yet fully-paid, represented spouses Hilario G. Pagautan and Sofia G. Pagautan's share subscription, which were assigned to Techno-Asia Construction and Development Incorporated, pursuant to a Deed of Assignment dated September 11, 2023.

As a matter of practice, PCD itself does not vote the number of shares registered in its name; instead, PCD issues a general proxy constituting and appointing each of its participants as PCD's proxy to vote for the number of shares owned by such participant in PCD's books as of Record Date.

- e) **Voting Trust Holders of 5% or More.** To the extent known to the Company, there is NO PERSON holding more than 5% of the Company's voting stock under a voting trust or similar agreement.
- f) **Stock Ownership of Management.** The Company's directors (D), Chief Executive Officer (CEO), other officers (O) own the following number of shares as of May 31, 2025:

Item 7. Independent Public Accountants

The accounting firm of Sycip Gorres Velayo & Co. (SGV) with address at 6760 Ayala Avenue, Makati City was appointed external auditors of the Company in the 2024 Annual Stockholders' Meeting on July 12, 2024. The fees of the external auditor in the past two (2) years are as follows:

Year	Audit & Audit Related Fees	Tax Fees	Other Fees
2024	672,000	-0-	-0-
2023	600,000	-0-	-0-

For the past two (2) years, the Company has not engaged the services of SGV except for the audit and review of the annual financial statements in connection with statutory and regulatory filings for the years 2024 and 2023. The amounts under the caption "Audit and Audit Related Fees", for

the years 2024 and 2023 pertain to these services. The audit committee has an existing policy prohibiting the Company from engaging the external auditors to provide services that may adversely impact its independence, including those expressly prohibited by regulations of the Securities & Exchange Commission (SEC).

In compliance with SRC Rule 68(3)(b)(iv), the accounting firm of SGV sees to it that the certifying partner assigned to our Company is being rotated as required. Ms. Veronica R. Pore was certifying partner in 2011 to 2015. Thereafter, Mr. Jose Raoul J. Balisalisa was certifying partner for the fiscal years 2016 to 2017. Subsequently, Mr. Alvin Pinpin was certifying partner beginning fiscal year 2018. The current certifying partner of the Company is Ms. Eleanore A. Layug.

There have been NO changes in and disagreements with accountants on any matter of accounting principles or practices, financial statement disclosures or auditing scope or procedure.

NO independent accountant engaged by the Company as principal accountant or an independent accountant on whom the principal accountant expressed reliance in its report regarding a significant subsidiary, has resigned, or has declined to stand for re-election after completion of the current audit, or was dismissed.

The auditor's representatives are expected to be present at the Meeting and they will have the opportunity to make a statement and respond to appropriate questions.

The Company's Audit and Risk Oversight Committee is currently headed by Mr. Roberto A. Baquiran (Independent Director), as Chairman, with Atty. Jose Ngaw as Vice-Chairman, and Ms. Ma. Hilarnie Parada as member. The Audit and Risk Oversight Committee reviews and recommends to the Board and the stockholders the appointment of the external auditor and the fixing of the audit fees for the Company. For fiscal year 2025, SGV is recommended to stockholders for appointment as independent external auditor of the Company.

Item 8. Compensation Plans

No action is to be taken with respect to any plan pursuant to which cash or non-cash compensation may be paid or distributed, except for the compensation and benefits under existing labor laws and company policy that may be due to employees on the ground of their separation from employment as a consequence of the Company's reorganization.

Item 9. Financial and other Information

Please refer to the accompanying Management Report (which includes a discussion, among others, of Management's Discussion and Analysis of Financial Condition and Result of the Operations) and the 2024 Audited Financial Statements.

The Company has not made any changes in and has not had any disagreements with its external auditor on accounting and financial disclosures.

Item 10. Ratification of the Previous Stockholders' Approval of the Proposed Amendment of the Articles of Incorporation to: (a) Decrease the Par Value of Common Shares from Php 1.00 per Share, to Php 0.10 per Share; and (b) Increase the Authorized Number of Shares from 12,000,000,000 to 120,000,000,000 Shares

Management is proposing to ratify the previous approval of the stockholders on the amendment of the Seventh Article of the Company's Amended Articles of Incorporation to: (a) decrease the par

value of common shares from Php 1.00 per Share to Php 0.10 per Share; and (b) increase the authorized number of shares from 12,000,000,000 to 120,000,000,000 shares.

Such proposal to amend the Seventh Article of the Company's Amended Articles of Incorporation was approved by the stockholders during the annual stockholders' meeting on September 11, 2023, and subsequently ratified during the last annual stockholders' meeting on July 12, 2024.

Following the proposed amendment, the affected portion of Article Seventh of the Amended Articles of Incorporation shall state as follows:

SEVENTH. That the amount of capital stock of the Corporation is Twelve Billion Pesos (Php 12,000,000,000) Philippine currency, and the said capital is divided into **One Hundred Twenty Billion (120,000,000,000) common shares** at the par value of **Ten Centavos (Php 0.10) per share**.

The number of shares subscribed by and issued to each stockholder shall be adjusted accordingly, but there shall be no change to the aggregate par value of such shares.

The proposed amendment to the Seventh Article is part of the Company's shareholder equity restructuring and capital raising activities for its operations.

The capital structure of the Company, before and after the approval of the proposed amendment of Article Seventh of the Company's Articles of Incorporation are as follows:

	Before Amendment	After Amendment
Authorized capital stock:	₱12,000,000,000.00 divided into 12,000,000,000 common shares	₱12,000,000,000.00 divided into 120,000,000,000 common shares
Par value per share:	₱1.00	₱0.10
Subscribed capital stock:	₱6,630,000,000.00	₱6,630,000,000.00
Paid-up capital stock:	₱6,172,497,120.00	₱6,172,497,120.00

With the proposed amendment, there will be no issuance of shares out of the unissued capital stock of the company.

Item 11. Restatement of Accounts

There is no restatement of any account has been made from the time the Company's financial statements were last audited (31 December 2024) up to the date of this Information Statement.

No action is to be taken with respect to the restatement of any asset, capital or surplus account of the Company.

C. OTHER MATTERS

10) Appraisals and performance report for the board and the criteria and procedure for assessment.

The company recognizes that in order to sustain good corporate governance within the organization, the same sound culture must be upheld and cultivated from the top. It is therefore of paramount importance to monitor the governance structure and performance of the Board of Directors (the Board) and top management according to their roles, responsibilities and accountabilities.

It has been the policy and practice of the Company for its Board to conduct an Annual Self-Assessment exercise through a questionnaire given to each Director at the last regular meeting for the year, for the purpose of evaluating the performance of the Board that year and the effectiveness of the Company's governance processes, and seeking ways to improve such performance.

The Company continually review this assessment process to take into consideration leading practices in corporate governance. The self-rating form had been revised to cover appraisal of the Board as a governing unit, of individual directors, of the different Board Committees, and of management including the President.

The assessment criteria include the structure, efficiency, and effectiveness of the Board, participation and engagement of each director, contribution of each member director to their respective Committees, and the performance of management. The criteria also reflects the specific duties, responsibilities, accountabilities of each party assessed as provided in the Company's By-Laws, Manual on Corporate Governance, Board Committee Charters and government policies.

Moreover, the questionnaire allows the Director to provide the comments and suggestions to further enrich the assessment process. In case clarification is needed on this policy and the performance assessment exercise, the Board addresses their queries to the Compliance Officer.

Facilitated by the Corporate Secretary, the annual self-rating form is required to be accomplished and signed by each individual director, the submitted to the Office of the Corporate Secretary within 30 days from receipt of the form.

The Corporate Secretary collates the results of the assessment and reports the same to the Board at a subsequent regular meeting prior to the annual stockholders' meeting. The self-rating form may be further amended by the Office of the Corporate Secretary as deemed

necessary, provided that the form remains compliant with the sound corporate governance standards and practices applicable law.

11) Directors' disclosures on self-dealing and related party transactions.

There were no transactions with Directors, Officers or any principal stockholders (owning at least 10% outstanding shares of the Company) that are not in the ordinary course of business of the Company. No related party transactions were entered into by any Director in 2024 that required review by the Audit Committee (acting as RPT Committee) and further approval by the Board in accordance with the RPT Policy of the Company. There have been no complaints, disputes or problems regarding related party transactions of the Company. The Company observes an arm's length policy in its dealings with related parties.

PURSUANT TO SRC RULE 20(4)**

I. Audited Financial Statements

The Audited Financial Statements of East Coast Vulcan Mining Corporation (the “Company”) for the fiscal year ended December 31, 2024 is attached hereto.

The Quarterly Report on SEC Form 17-Q and Financial Statements for the interim period ended March 31, 2025 are likewise attached hereto.

II. Business and General Information

Business

East Coast Vulcan Mining Corporation (the Company or ECVMC) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on January 13, 1953 under the name “Vulcan Manufacturing Corporation” and was listed in the Philippine Stock Exchange (PSE) on August 31, 1970. On June 15, 1977, the Company first amended its articles of incorporation and changed its name to “Vulcan Industrial & Mining Corporation”. Thereafter, the Company again amended its articles of incorporation and changed its name to “East Coast Vulcan Corporation” on May 29, 2023, and to “East Coast Vulcan Mining Corporation” on April 19, 2024. The Company’s corporate life was extended for another 50 years on January 13, 2003. The Company’s registered address is at the 15th Floor, High Rise Pacific Star Building, Sen. Gil Puyat Avenue, Makati City, Metro Manila, Philippines.

The Company is involved in finding, developing and producing oil and gas reserves and other mineral properties. The Company is a participant in several Service Contracts (SCs), Mineral Production Sharing Agreements (MPSAs) and Geophysical Survey and Exploration Contracts (GSECs) entered with the Philippine Government, through the Department of Energy (DOE).

On July 1, 2021, the Company entered into a Memorandum of Agreement (MOA) with the majority stockholders of East Coast Mineral Resources Company Incorporated (ECMRCI) represented by Hilario G. Pagautan and Sofia G. Pagautan (the HGP Group) for the latter’s subscription to up to 5,180,000,000 shares of ECVMC arising from an increase in authorized capital stock.

At the shareholders’ meeting held on November 8, 2021, the shareholders approved the said increase of the authorized capital stock of the corporation from 4 Billion Pesos (P4,000,000,000.00) to 12 Billion Pesos, or an increase in the amount of 8 Billion Pesos (P8,000,000,000.00), for subscription by, among others, the group led by Hilario G. Pagautan and Sofia G. Pagautan (hereinafter referred to as “the HGP Group”). The subscription to the increase of capital stock will be paid by the HGP Group through the fold-in of 99.99% ownership of East Coast Mineral Resources Company Inc. (ECMRCI) into the Company, based on an approved value of Php 5.18 billion.

The fold-in of ECMRCI is notable considering that ECMRCI earns royalties and marketing fees from its operating agreements with its existing contractors in connection with the following MPSAs:

- a. MPSA-233-2007-XIII (SMR) covers an area of 4,226.27 hectares located in Libjo, Dinagat Islands; and
- b. MPSA-078-97-XIII (SMR) covers an area of 697.05 hectares located in Barangay Valencia, Cagdianao, Dinagat Islands.

In view of the fold-in of ECMRCI in the Company, the Company now owns a consistently profitable going concern and cashflow-generating mining business, which will allow the Company to immediately recognize income. The fold-in is also expected to provide the Company the capability to embark on further value-enhancing and growth-oriented expansion initiatives.

On May 29, 2023, the SEC approved the Company's application for the amendment of its Articles of Incorporation for the (i) change of its corporate name to "East Coast Vulcan Corporation," (ii) change of number of directors to thirteen, and (iii) change of principal office address to the 4th floor, Pacific Star Building, Low Rise Tower, Makati Avenue corner Senator Gil Puyat Avenue, Makati City, Philippines, 1209. The SEC likewise approved the Company's application to increase its authorized capital stock from 4 Billion Pesos (P4,000,000,000.00) to 12 Billion Pesos (P12,000,000,000.00) on the same date.

The 5.18 billion (5,180,000,000) common shares were issued in exchange for 100% ownership of ECMRCI, a corporation engaged in mining operations. Currently, the application for the Certificate Authorizing Registration ("CAR") out of the said exchange is still being processed with the Bureau of Internal Revenue.

Further, upon the approval of the Securities and Exchange Commission of the capital increase, the Company filed an application for the listing of the attendant shares with the Philippine Stock Exchange. The contemplated approval of the said business combination transaction will result in ECMRCI becoming a wholly owned subsidiary of the Company and thus will allow the Company to consolidate ECMRCI's operations into its books.

The Company is all set with its plans to revitalize its operations and structure to create a more efficient and profitable mining company. In line with its plans and future developments, the management is in discussion with both foreign and local partners and investors, given the prospects of more opportunities for the Company and its stockholders. With the successful acquisition of 100% of ECMRCI and the approved increase in capital stock of the Company, the Company holds the operation of two profitable mining areas in the Province of Dinagat Island.

At its annual meeting in September 2023, the stockholders approved the amendment to the Company's Articles of Incorporation to increase the authorized number of ECVMC shares from 12,000,000,000 to 120,000,000,000 shares, while simultaneously decreasing the share par value from PhP1.00 to PhP0.10, and thus, maintaining the stockholders' position. This move to amend the par value vis-à-vis the number of shares is more beneficial to the Company stockholders as it will increase liquidity and trading in the shares, and at the same time places a milestone on the Company's direction as a significant and determined mining company with the aim of declaring dividends in the coming periods. The stockholders reconfirmed said proposed amendments to the Company's Articles of Incorporation during the Annual Stockholders' Meeting held on July 12, 2024.

On April 19, 2024, the Securities and Exchange Commission approved the Company's application for the amendment of its Articles of Incorporation for the (i) change of its corporate name to "East Coast Vulcan Mining Corporation," and (ii) change of principal office address to the 15th Floor, High Rise Pacific Star Building, Sen. Gil Puyat Avenue, Makati City, Metro Manila, Philippines.

Sources and Availability of Raw Materials

Since the Company has not had any commercial operations, it does not depend on any one or a limited number of suppliers for essential raw materials, energy or other items.

Status of Any Publicly-announced New Product or Services – NONE

Competition

Significant and increasing competition exists for petroleum and mineral acquisition opportunities throughout the Philippines. As a result of this competition, the Company may be unable to acquire rights to exploit additional attractive petroleum and mining properties on terms the Company considers acceptable.

The Company had accumulated mineral and petroleum concessions during the time that the industry was at its lowest and, consequently, had a good chance of developing these resources into mineral and petroleum finds. As of December 31, 2018, the Company has written off or assigned all its mineral and petroleum assets in line with its decision to cease to engage in the business of mining, oil, petroleum, industrial development, mineral processing and other related activities.

Mining

As the Company was still in the stages of exploration before the assignment of its mineral assets, it cannot consider any other Company as competitor.

Dependence on One or a Few Major Customers – Not applicable

The Company is not dependent on single or few customers. It has no major existing sales contracts with its current customers.

Transactions with and/or Dependence on Related Parties – Not applicable

Patents, trademarks, Licenses, Franchises, Concessions, Royalty Agreements, or Labor Contracts –

The Company has no patents, trademarks or labor contracts relating to intellectual property matters.

Government Approval of principal products or services- Not applicable.

Effect of existing or probable government regulations on the business

The present existing and probable government regulations will not have so much effect on the current business of the Company because the Company is compliant with the existing laws on mining operations.

Amount Spent on development cost activities, and its percentage to revenues during each of the last three fiscal years – Not applicable.

Cost and effects of compliance with environmental laws

The Company has an outstanding strict policy of adherence to the environmental laws according to the Environmental Clearance Certificate (ECC) granted by the Department of Environment and Natural Resources and the Environmental Protection and Enhancement Program (EPEP).

Compliance with all government and non-government requirements such as MPSA, ECC, environmental programs, etc. have made the Company a recognized entity in the aggregate industry through its subsidiary.

Employees

Due to the reorganization of the Company that commenced in the fourth quarter of 2012 and the intended listing of National Book Store, Inc., the Company had retired all of its employees during the first semester of 2013. There are no employees who are subject to any Collective Bargaining Agreement (CBA). The Company was not threatened by any strike in the past three years.

Financial Risk Management

The main risk arising from the Company's financial instruments are credit risk, liquidity risk, equity price risk and interest rate risk. The Board reviews and agrees on policies for managing each of these risks and they are summarized below:

Credit Risk

Credit Risk is the risk the Company will incur losses if its counterparties fail to discharge their contractual obligations.

The Company manages and control credit risk by doing business mostly only with recognized, creditworthy third parties. It is the Company's policy that all customers who wish to trade on credit terms are subject to credit procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Company's exposure to bad debts to a minimum level.

Since the Company trades only with recognized third parties, there is no requirement for collateral.

Liquidity Risk

Liquidity risk is defined as the risk that the Company would not be able to settle or meet its obligations on time or at a reasonable price. Management is responsible for liquidity, funding as well as settlement management. The Company's objective is to maintain a balance between continuity of funding and flexibility by availing of credit facilities from various suppliers. The Company mainly sources its funds through the use of bank loans and advances from related parties.

Equity Price Risk

Equity price risk is the risk that the value of a financial instrument will fluctuate because of changes in market price. The Company is exposed to equity securities price risk because of financial assets held by the Company, which are classified on the parent Company balance sheets as AFS financial assets. The possible changes in the fair value of AFS financial assets could be brought by changes in the equity indices.

MINING CLAIMS

Shown below are the Company's current mining contracts in the form of Mineral Production Sharing Agreements (MPSA) with the Philippine Government, which were acquired by the Company from ECMRCI pursuant to the share-swap transaction that was approved by the SEC last May 29, 2023, which were the following:

<i>Mining Claim Number</i>	<i>Location</i>

Management's Discussion and Analysis or Plan of Operation

ECVC and ECMRCI Share-for-Share Swap Transaction

On July 1, 2021, the Company entered into a Memorandum of Agreement (MOA) with the majority stockholders (HGP Group) of ECMRCI for the latter's subscription to up to 5,180,000,000 shares of ECVMC arising from an increase in authorized capital stock.

Amendment of Articles of Incorporation

At the shareholders' meeting held on November 8, 2021, the shareholders and Board of Directors of the Company approved the following amendments to the Company's Articles of Incorporation

- Change in corporate name to "East Coast Vulcan Corporation";
- Change in principal office address to 4th Floor, Low Rise, Pacific Star Building, 1226 Sen. Gil J. Puyat Ave., Makati City, Metro Manila; and,
- Increase in authorized capital stock from 4 billion shares to 12 billion shares, or the subscription by, among others, the group led by the HGP Group.

The subscription to the increase of capital stock will be paid by the HGP Group through the fold-in of 99.99% ownership of East Coast Mineral Resources Company Inc. (ECMRCI) into the Company, based on an approved value of Php 5.18 billion.

In 2022, the Company submitted its application for the amendment of Articles of Incorporation as discussed above to the SEC. On May 29, 2023, the SEC approved the Company's application for the amendment of its Articles of Incorporation.

Upon approval of the SEC on May 29, 2023, the Company issued 5,180,000,000 common shares with par value of One Peso (Php1.00) per share to the HGP Group in exchange for the 100% outstanding shares of ECMRCI ("the Share Swap transaction") which resulted in ECVC obtaining 100% interest in and control over ECMRCI. The Company likewise filed an application for the listing of the attendant shares with the Philippine Stock Exchange.

Currently, the Company is now in the process of cleaning up a deficit which existed prior to the acquisition of ECVMC by the East Coast Group. At its annual meeting in September 11, 2023, the shareholders and Board of Directors of the Company approved the following amendment in the Company's Articles of Incorporation:

- Change in corporate name to "East Coast Vulcan Mining Corporation";
- Change in principal office address to Unit 1502, Pacific Star Building, Sen. Gil J. Puyat Ave., Makati City, Metro Manila 1209; and
- Increase in the authorized number of ECVMC shares from 12,000,000,000 to 120,000,000,000 shares, while simultaneously decreasing the share par value from Php1.00 to Php0.10, and thus, maintaining the stockholders' position

Thus, in 2023, the Company submitted its application for the amendment of Articles of Incorporation to the SEC for the (i) change in the Company's corporate name to "East Coast Vulcan Mining Corporation"; and (ii) change in principal office address to Unit 1502, Pacific Star Building, Sen. Gil J. Puyat Ave., Makati City, Metro Manila 1209. On April 19, 2024, the SEC approved the Company's application for the amendment of its Articles of Incorporation for the purposes stated above.

The Company is also processing the full payment of the 486,055,662 partially-paid ECVMC shares that were assigned and transferred by Hilario G. Pagautan and Sofia G. Pagautan (hereinafter, "Sps. Pagautan") to Techno-Asia Development Corporation ("TACD") as part of its quasi-restructuring plan, pursuant to a Memorandum of Agreement dated June 22, 2023 ("MOA"). Among others, the MOA provides that TACD shall assume the obligation to pay to the Company the unpaid subscription balance for the Shares in either cash, shares, and/or assets acceptable to the Company's Board of Directors. Pursuant to the MOA, Spouses Pagautan and TACD executed a Deed of Assignment of Partially-Paid Shares dated September 11, 2023, for the assignment of the 486,055,662 partially-paid shares of East Coast Vulcan Corporation (the "Company") to TACD. The 486,055,662 partially-paid shares currently represent 7.33% of the outstanding capital stock of 6,630,000,000 common shares of the Company.

At present, the Company and TACD are currently collating the necessary documents required to finalize the transaction. Thus, the payment of the subscription price for the 486,055,662 partially-paid ECVMC shares is still in process.

Plan of Operation

Upon finalizing the full payment of the 486,055,662 partially-paid ECVMC shares, the Company, as part of its quasi-restructuring plan, likewise intends to proceed applying for the decrease of the par value of ECVMC shares with the SEC, thereby amending Article Seventh of the Corporation's Articles of Incorporation, to state that the amount of capital stock of the Company is Twelve Billion Pesos (Php 12,000,000,000.00) Philippine currency, and the said capital is divided into One Hundred Twenty Billion (120,000,000,000) common shares at the par value of Ten centavos (Php 0.10) per share.

This move to amend the par value vis-à-vis the number of shares is more beneficial to the Company stockholders as it will increase liquidity and trading in the shares, and at the same time places a milestone on the Company's direction as a significant and determined mining company with the aim of declaring dividends in the coming periods. Accordingly, the proposed quasi-restructuring and decrease in the par value of common shares of the Company will allow further business development, additional floating of shares, and fund raising to invite potential investors and partners, all with the ultimate aim declaring dividends in the coming periods.

There are NO known trends, demands, commitments, events or uncertainties that have or are reasonably likely to have material impact on the Company's liquidity. Should the Company's cash position be not sufficient to meet current requirements, the Company may consider borrowing from its subsidiary.

The Company has NO material commitments for capital expenditures EXCEPT for the Company's exploration and development costs in mineral projects.

Results of Operations

Comparative financial highlights for the quarter ended March 31, 2025 and March 31, 2024 are presented below:

	<u>Consolidated Unaudited</u> <u>31 March 2025</u>	<u>Consolidated Unaudited</u> <u>31 March 2024</u>

The Company has revenue from rental of equipment amounting to ₱10.9 million for the period March 31, 2025 and has no revenue for the period March 31, 2024 and incurred a net loss of ₱20.8 million and ₱20.0 million, respectively. The net loss pertains mainly to finance cost, depreciation expenses and professional fees.

The Company has total assets of ₱2.1 Billion and ₱2.2 Billion as of the period ended March 31, 2025 and March 31, 2024, respectively. The decrease of assets is due to depreciation.

The Company's total liabilities decreased to ₱841.38 million as of March 31, 2025 as compared to ₱913.45 million as of March 31, 2024 due to decrease in related parties.

The Company's net worth decreased to P1.25 Billion as of March 31, 2025 compared to P1.32 Billion as of March 31, 2024. The decrease was due to the net losses incurred by the Company during the period and previous period.

The following discussion is based on the unaudited interim consolidated financial statements for the 1st quarter period ended March 31, 2025, with comparative figures for the corresponding periods in 2024 and audited consolidated financial statements as of December 31, 2024, prepared in conformity with Philippine Accounting Standards 34, Interim Financial Reporting and included herein, and should be read in conjunction with those unaudited interim consolidated financial statements.

Status of Operations

As of May 20, 2025, the Group is a holder of three Mineral Product and Sharing Agreements (MPSA):

- MPSA-078-97-XIII-SMR issued on November 19, 1997 covering an area of 697.05 hectares in the Municipality of Cagdianao, Dinagat Islands. On March 22, 2022, the Mines and Geosciences Bureau (MGB) ordered the renewal of the MPSA between the Government and the Group for another twenty-five years. Exploration is done by and with Cagdianao Mining Corporation under a Memorandum of Agreement to explore and to operate for a period of 25 years which were renewed until 2047.
- MPSA-233-2007-XIII-SMR issued in 2007 covering an area of 4,226.27 hectares in the Municipality of Libjo, Dinagat Islands. As an outcome of exploration works conducted,

the area has a positive Nickel Ore Reserve of 30 million wet metric ton (WMT). Exploration is done by and with various operators, Libjo Mining Corporation, Westernshore Nickel Corporation and Norte Este Corporation, under a Memorandum of Agreement to explore and to operate during the lifetime of the MPSA.

- MPSA-232-2007-XIII-SMR covering an area of 248 hectares in the Municipality of Surigao del Norte, Hibuson Island. The area is now being explored by and with Oriental Vision Mining Philippines Corporation (OVMP).

Statement of Financial Position

Assets

The consolidated total assets of the Company increased by ₱86.8 thousand from ₱2.091 billion as of December 31, 2024 to ₱2.091 billion as of March 31, 2025. The minimal increase was mainly due to the following:

- **Trade and other receivable** decrease by ₱309 thousand or 0.26% from ₱118.4 million to ₱118.1 million in 2025 mainly due to the collection of trade receivable.
- **Advance to related parties** increase by ₱8.44 million in 2025 mainly due to advances.
- **Property and equipment** decrease by ₱7.7 million or 4.91% from ₱143.9 million to ₱136.8 million in 2025 due to depreciation and amortization

Liabilities

The consolidated total liabilities of the Company increased by ₱20.9 million from ₱820.46 million as of December 31, 2024 to ₱841.38 million as of March 31, 2025. The 2.55% increase was mainly due to the following:

- **Trade and other payable** increased by ₱17.3 million or 11.04% from ₱156.67 million to ₱173.97 million in 2025 mainly due to the increase of accounts payable account.
- **Advances from related party** increased by ₱5.9 million or 12.90% from ₱45.76 million to ₱51.67 million in 2025 mainly due to advances from Stockholders.

Equity

The stockholders' equity of the Company decreased by ₱20.83 million or 1.64% from ₱1.27 billion in 2024 to ₱1.25 billion as of March 31, 2025. This was due to the net loss incurred during the period.

Revenues

The revenue of the Company decreased by ₱236.94 million or 38.69% from ₱612.38 million in 2022 to ₱375.45 million in 2023. This was due to decrease of shipments of Operators in 2023.

Operating expenses

Operation expenses increased by 32.20% or ₱43.85 million from ₱136.17 million to ₱180.01 million in 2023. The increase was mainly due to the following:

- **Amortization of mining rights** increased by ₱11.25 million or 20.82% from ₱54.05 to ₱65.30 million in 2023 due to computed amortization
- **Depreciation** increased by ₱21.79 million or 415.97% from ₱5.24 to ₱27.02 million in 2023 due to additional mining and heavy equipment.
- **Management fee** decreased by ₱11.80 million or 38.59% from ₱30.57 to ₱18.77 million in 2023 due to decrease in revenue
- **Professional fees** increased by ₱5.06 million or 95.16% from ₱6.26 to ₱12.22 million in 2023 due to additional hiring of professional.
- **Transportation and travel** increased by ₱6.0 million or 321.63% from ₱1.86 million to ₱7.86 million in 2023 due to more business trip.
- **Taxes and licenses** increased by ₱4.47 million or 541.42% from ₱825 thousand to ₱5.29 million in 2023 due to payment of documentary stamp tax.
- **Repairs and maintenance** increased by ₱2.41 million or 135.58% from ₱1.78 million to ₱4.18 million in 2023 due to repairs of the additional equipment purchased.

Finance cost decreased by ₱5.41 million or 30.44% from ₱17.77 million to ₱23.17 million in 2023 due to additional loans availed in 2023.

Unrealized foreign exchange loss – net decrease by ₱1.40 million or 70.55% from ₱1.98 million to ₱582.59 thousand in 2023 due to less forex transaction.

Final income tax decreased by ₱54.70 million or 62.84% from ₱87.04 million to ₱32.34 million in 2023 due to less royalty tax payment.

Liquidity Risk

Liquidity risk is defined as the risk that the Company would not be able to settle or meet its obligations on time or at a reasonable price. Management is responsible for liquidity, funding as well as settlement management. The Company's objective is to maintain a balance between continuity of funding and flexibility by availing of credit facilities from various suppliers. The Company mainly sources its funds through the use of bank loans and advances from related parties.

The company manages liquidity risk by maintaining balance between continuity of funding and flexibility. As part of its liquidity risk management, the Company regularly evaluates its projected cash flows.

The financial assets held by the Company for liquidity purposes consist of cash, all of the Company's financial liabilities are either due and demandable or payable within the year.

Equity Price Risk

Equity price risk is the risk that the value of a financial instrument will fluctuate because of changes in market price. The Company is exposed to equity securities price risk because of financial assets held by the Company, which are classified on the parent Company balance sheets as AFS financial assets. The possible changes in the fair value of AFS financial assets could be brought by changes in the equity indices.

Financial instruments

The Company's financial instruments consist of cash. The main purpose of the financial instruments is to fund the Company's operations. The Company has various other financial instruments such as accrued expenses and other payables that arise directly from its operations.

Financial instruments are recognized initially at fair value, which is the fair value of the consideration given (in case of asset) or received (in case of a liability). The initial measurement of financial instruments, except for those financial assets and financial liabilities at fair value through profit or loss (FVPL), includes transaction cost.

On initial recognition, the Company classifies its financial assets in the following categories: Held-for-Maturity (HTM) investments, AFS financial assets, and loans and receivables. The classification depends on the purpose for which the investments were acquired and whether they are quoted in an active market. Management determines the classification of its financial assets at initial recognition and, where allowed and appropriate, re-evaluates such designation at every financial reporting date.

Under PAS 39, all financial liabilities are recognized initially at fair value and in case of loans and borrowings, plus directly attributable transaction costs. Financial liabilities are classified as FVPL, loans and borrowings and derivatives designated as hedging instruments in an effective hedge, as appropriate.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual agreement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity net of any related income tax benefits.

The Company's financial assets consist of loans and receivables and AFS investments. The Company's financial liabilities are classified as loans and borrowings. The Company has no financial assets and liabilities at FVPL and HTM investment.

The fair value of financial instruments that are actively traded in organized financial markets is determined by reference to quoted market bid prices at the close of business on the reporting date. For investments and all other financial instruments where there is no active market, fair value is determined by using generally accepted valuation techniques. Such techniques include using arm's length market transactions; reference to the current market value of another instrument, which are substantially the same; discounted cash flow analysis and other valuation models.

**MINUTES OF THE ANNUAL MEETING
OF THE STOCKHOLDERS
OF
EAST COAST VULCAN MINING CORPORATION**

Held at Ballroom A, The Metropolitan Club,
Estrella corner Amapola Streets, Guadalupe Viejo, 1209 Makati City
On July 12, 2024 at 2:00 p.m.

The 2024 Annual Stockholders' Meeting of East Coast Vulcan Mining Corporation ("ECVC" or the "**Company**") was conducted on July 12, 2024 at 2:00 p.m. at the Ballroom A, The Metropolitan Club, Estrella corner Amapola Streets, Guadalupe Viejo, 1209 Makati City.

The presence at the meeting of the members of the Board of Directors and Management was acknowledged.¹

CALL TO ORDER

Mr. Hilario G. Pagautan, Chairman of the Board, acted as Chairman of the meeting and called the same to order.

PROOF OF NOTICE AND CERTIFICATION OF QUORUM

The Corporate Secretary, Atty. Gaspar R. Andres, Jr., reported that pursuant to Section 49 of the Revised Corporation Code, notices (or "**Notice**") of the meeting were sent to all stockholders via courier beginning on June 21, 2024 or at least 21 days before the meeting, based on the Certification dated July 9, 2024 issued by SureMail Courier Services, Inc. A copy of the Notice, together with the Definitive Information Statement, minutes of the previous meeting, and other documents related to this meeting were also made accessible through the Company's website and the Philippine Stock Exchange (or "**PSE**") Edge website.

Qualified stockholders who submitted their proxies within the prescribed period were included in the determination of quorum. Stockholders who were represented by their respective proxies were deemed present for purposes of determining quorum.

Based on this, the Corporate Secretary certified that there were present at the meeting, stockholders owning at least 5,220,057,910 shares representing

¹ See Annex "A" for the list of directors and officers who attended the annual stockholders' meeting.

at least 78.73% of the outstanding capital stock of the Company. Therefore, a quorum existed for the transaction of business.

With the permission of the Corporation Secretary, the Assistant Corporate Secretary, Atty. Ana Maria A. Katigbak-Lim, discussed the voting procedures adopted for the meeting.

Under the Company's By-Laws, every stockholder with voting privilege shall be entitled to one vote for each share of stock standing in his name in the books of the Company. For the election of directors, each stockholder may cumulate his/her votes. Stockholders who successfully registered for the meeting were given the opportunity to cast their votes by submitting their proxy forms or ballots. For items other than the election of directors, the stockholders had the option to either vote in favor of or against a matter for approval, or to abstain. For the election of directors, the stockholders had the option to vote their shares for each of the nominees, not vote for any nominee, or vote for one or some nominees only, in such number of shares as the stockholders prefer; provided that the total number of votes cast did not exceed the number of shares owned by them multiplied by the number of directors to be elected. The thirteen (13) nominees receiving the highest number of votes would be declared the duly elected members of the Board of Directors for the current term.

Finally, stockholders, once successfully registered, were also given an opportunity to raise questions or express comments limited to the agenda items by submitting the same through e-mail. Management will endeavor to reply to these questions or address these comments after the Management Report. If, for lack of material time, the Company is unable to answer a relevant and material question timely submitted by a stockholder, the Company will reply to such questions by email.

APPROVAL OF MINUTES OF ANNUAL STOCKHOLDERS' MEETING

The next item of business was the approval of the minutes of the annual meeting of the stockholders held on September 11, 2023, an electronic copy of which was made available on the Company's website.

Upon motion made and seconded, the following resolution was approved:

"RESOLVED, that the minutes of the Annual Stockholders' Meeting of East Coast Vulcan Mining Corporation

(the "Corporation") held on September 11, 2023 be, as it is hereby, approved."

Thereafter, the Corporate Secretary announced that stockholders owning at least 5,211,414,501 shares representing at least 78.60% of the outstanding capital stock voted to approve the resolution while zero shares voted against, and zero shares abstained on the motion. It was noted that the affirmative votes were sufficient to approve the resolution.²

APPROVAL OF THE ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2023

Chairman/President's Report

The next matter on the agenda was the Chairman/President's Report. The Chairman reported on the approval of the Securities and Exchange Commission ("SEC") on April 19, 2024, of the Company's change in corporate name from "East Coast Vulcan Corporation" to "East Coast Vulcan Mining Corporation" and the change in principal office from "4th Floor, Pacific Star Building, Low Rise Tower, Makati Avenue corner Senator Gil Puyat Avenue, Makati City" to "15th Floor, High Rise, Pacific Star Building, Sen. Gil Puyat Avenue, Makati City, Metro Manila."

The Chairman provided an update regarding the lifting of the suspension by the Philippine Stock Exchange ("PSE") of the trading of the Company's shares, as the Company had attained 21.80% public ownership of its shares, meeting the PSE's minimum requirement of at least 20% public float. The Chairman likewise assured the Company's stockholders that the Company already had a plan of action to further increase the percentage of the Company's public ownership by engaging in additional investment opportunities such as, but not limited to, mining-related projects.

The Chairman also reported on the current active mining operations of the Company which were both located in Dinagat Island, Surigao del Norte covering 697 hectares, and 4,226 hectares of land respectively.

Lastly, the Chairman discussed proposals for the Libjo Nickel Project and prospective exploration activities for the Kiamba Copper Gold Project, as well as other proposed projects still under study.

² See Annex "B" for the voting results.

Operations and Financial Report

The next matter on the agenda was the approval of the management report and audited financial statements, copies of which were made available on the Company's website. The Senior Vice President for Finance and Admin, Mr. Jose T. Nacorda, Jr., reported on the Company's operational highlights and financial results, and the audited financial statements for the year ended December 31, 2023.

After the report, no questions were raised by the stockholders during the meeting.

Upon motion made and seconded, the following resolution was approved:

"RESOLVED, that the Annual Report as presented by the Chairman and President, and the Senior Vice President for Finance and Admin, and the Corporation's audited financial statements for year the ended December 31, 2023 be, as it is hereby, approved."

Thereafter, the Corporate Secretary announced that stockholders owning at least 5,211,414,501 shares representing at least 78.60% of the outstanding capital stock voted to approve the resolution while zero shares voted against and zero shares abstained on the motion. It was noted that the affirmative votes were sufficient to approve the resolution.³

RATIFICATION OF PREVIOUS CORPORATE ACTS

The next item was the ratification and approval of corporate acts from the date of the last annual stockholders' meeting to date. The Chairman stated that a summary of the acts for ratification was included in the Definitive Information Statement.

Upon motion made and seconded, the following resolution was approved:

"RESOLVED, that all acts, proceedings, transactions, contracts, agreements, resolutions and deeds, authorized and entered into by the Board of Directors, Management, and/or Officers of East Coast Vulcan Mining Corporation from the date

³ See Annex "B" for the voting results.

of the last annual stockholders' meeting up to the present be, as they are hereby, approved, ratified and confirmed."

Thereafter, the Corporate Secretary announced that stockholders owning at least 5,211,414,501 shares representing at least 78.60% of the outstanding capital stock voted to approve the resolution, while zero shares voted against, and zero shares abstained on the motion. It was noted that the affirmative votes were sufficient to approve the resolution.⁴

UPDATED APPROVAL ON THE AMENDMENT OF THE ARTICLES OF INCORPORATION (INCREASE IN AUTHORIZED NUMBER OF SHARES AND DECREASE IN SHARE PAR VALUE)

The next matter on the agenda was the reconfirmation by the stockholders of the proposed amendments to the Company's Amended Articles of Incorporation for the change in authorized number of shares and share par value. The Chairman explained that the proposed amendments were originally approved by the stockholders in the 2023 Annual Stockholders' Meeting, and the stockholders are being requested to refresh and reconfirm such approvals.

The Assistant Corporate Secretary presented Management's request to approve the proposed amendments to the Company's Amended Articles of Incorporation, consisting of (i) the increase in the authorized number of shares from 12,000,000,000 to 120,000,000,000 shares; (ii) the decrease in par value of common shares from Php 1.00 per share to Php 0.10 per share, thereby amending the Seventh Article of the Amended Articles of Incorporation accordingly. As explained in the Definitive Information Statement, the proposed amendments to the Seventh Article of the Amended Articles of Incorporation is part of the Company's shareholder equity restructuring and capital raising activities for its operations.

Upon motion made and seconded, the following resolution was approved:

"RESOLVED, that the Stockholders of East Coast Vulcan Mining Corporation (the "Corporation") hereby approve and reconfirm the increase in the authorized number of shares of the Corporation from 12,000,000,000 to 120,000,000,000 shares and the decrease in the par value of common shares of the Corporation from Php 1.00 to Php 0.10, thereby amending the

⁴ See Annex "B" for the voting results.

Seventh Article of the Amended Articles of Incorporation as follows:

SEVENTH. That the amount of capital stock of the Corporation is Twelve Billion Pesos (Php 12,000,000,000.00) Philippine currency, and the said capital is divided into One Hundred Twenty Billion (120,000,000,000) common shares at the par value of Ten centavos (Php 0.10) per share...;

RESOLVED FURTHER, that the Board of Directors be authorized to determine when the change in authorized number of shares and share par value shall be implemented in relation to the proposed equity restructuring and capital raising activities of the Corporation;

RESOLVED, FINALLY, that the directors and officers of the Corporation be hereby authorized to sign, execute, and file with the Securities and Exchange Commission the application for amendment of the Amended Articles of Incorporation of the Corporation, and such other documents which may be required to give effect to the foregoing resolution."

Thereafter, the Corporate Secretary announced that stockholders owning at least 5,211,414,501 shares representing at least 78.60% of the outstanding capital stock voted to approve the resolution while zero shares voted against and zero shares abstained on the motion. It was noted that the affirmative votes were sufficient to approve the resolution.⁵

ELECTION OF DIRECTORS

The next matter on the agenda was the election of the members of the Board of Directors of the Company.

The Assistant Corporate Secretary stated that under the Sixth Article of the Amended Articles of Incorporation, there were thirteen (13) seats in the Board of Directors and the Company was required to have at least two (2) independent directors. She explained that under the SEC rules, all nominations for director shall be submitted to and evaluated by the Nominations Committee, and that nominations for Independent Directors shall appear in the

⁵ See Annex "B" for the voting results.

Final List of Candidates set forth in the Definitive Information Statement. No other nominations shall be entertained from the floor.

The Assistant Corporate Secretary informed the stockholders that the Company received a total of eleven (11) nominations for Regular Directors, and two (2) for Independent Directors. She explained that nominees receiving the highest number of votes for the eleven (11) available seats for Regular Director, and for the two (2) available seats for Independent Director, would be declared as the duly elected members of the Board of Directors for 2024-2025.

The names of the following nominees for regular and independent directors were announced and it was noted that full details of the background and qualifications of the nominees were disclosed in the Company's Definitive Information Statement:

For Regular Directors:

Hilario G. Pagautan
Sofia G. Pagautan
Isaac Hilario G. Pagautan II
Michael Abraham G. Pagautan
Ma. Hilarnie Mercurie P. Parada
Ramon C. Lee
Edgardo V. Caringal
Adrian Paulino S. Ramos
Orlando S. Mercado
Sofia Anne Clare G. Pagautan
Joshua B. Parada

For Independent Directors:

Roberto A. Baquiran
Jose Ngaw

At the Chairman's request, the Corporate Secretary announced that based on the tabulation and validation by the Company's stock and transfer agent, stockholders owning at least 5,211,414,501 shares representing at least 78.60% of the outstanding capital stock voted to elect all the thirteen (13) candidates to the Board of Directors, while zero shares voted against, and zero shares abstained on the motion. It was noted that the affirmative votes were sufficient to approve the resolution.⁶

⁶ See Annex "B" for the voting results.

Thus, there being no other nominees, the Chairman declared all thirteen (13) nominees as the duly elected members of the Board of Directors of the Company for the term 2024-2025, and to act as such until their successors are duly elected and qualified.

APPOINTMENT OF SYCIP GORRES VELAYO & CO. AS EXTERNAL AUDITOR

The next matter on the agenda was the appointment of the Company's external auditor. The Chairman stated that the Company's Audit Committee reviewed the performance of the current auditor and recommended its reappointment. Upon motion made and seconded, the following resolution was approved:

"RESOLVED, that the Stockholders of East Coast Vulcan Mining Corporation (the "Corporation") hereby appoint Sycip Gorres Velayo & Co. as the external auditor of the Corporation for the year 2024."

Thereafter, the Corporate Secretary announced that stockholders owning at least 5,211,414,501 shares representing at least 78.60% of the outstanding capital stock voted to approve the resolution while zero shares voted against and zero shares abstained on the motion. It was noted that the affirmative votes were sufficient to approve the resolution.⁷

OTHER MATTERS

The Chairman inquired whether there were any other matters to be taken up. The Corporate Secretary responded that there were no other matters on the agenda.

ADJOURNMENT

There being no other matters on the agenda, the Chairman adjourned the meeting and thanked the shareholders for joining the same.

PART I - BUSINESS AND GENERAL INFORMATION

Item 1. Business

East Coast Vulcan Mining Corporation (the Company or ECVMC) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on January 13, 1953 under the name “Vulcan Manufacturing Corporation” and was listed in the Philippine Stock Exchange (PSE) on August 31, 1970. On June 15, 1977, the Company first amended its articles of incorporation and changed its name to “Vulcan Industrial & Mining Corporation”. Thereafter, the Company again amended its articles of incorporation and changed its name to “East Coast Vulcan Corporation” on May 29, 2023, and to “East Coast Vulcan Mining Corporation” on April 19, 2024. The Company’s corporate life was extended for another 50 years on January 13, 2003. The Company’s registered address is at the 15th Floor, High Rise Pacific Star Building, Sen. Gil Puyat Avenue, Makati City, Metro Manila, Philippines.

The Company is involved in finding, developing and producing oil and gas reserves and other mineral properties. The Company is a participant in several Service Contracts (SCs), Mineral Production Sharing Agreements (MPSAs) and Geophysical Survey and Exploration Contracts (GSECs) entered with the Philippine Government, through the Department of Energy (DOE).

On July 1, 2021, the Company entered into a Memorandum of Agreement (MOA) with the majority stockholders of East Coast Mineral Resources Company Incorporated (ECMRCI) represented by Hilario G. Pagautan and Sofia G. Pagautan (the HGP Group) for the latter’s subscription to up to 5,180,000,000 shares of ECVMC arising from an increase in authorized capital stock.

At the shareholders’ meeting held on November 8, 2021, the shareholders approved the said increase of the authorized capital stock of the corporation from 4 Billion Pesos (P4,000,000,000.00) to 12 Billion Pesos, or an increase in the amount of 8 Billion Pesos (P8,000,000,000.00), for subscription by, among others, the group led by Hilario G. Pagautan and Sofia G. Pagautan (hereinafter referred to as “the HGP Group”). The subscription to the increase of capital stock will be paid by the HGP Group through the fold-in of 99.99% ownership of East Coast Mineral Resources Company Inc. (ECMRCI) into the Company, based on an approved value of Php 5.18 billion.

On May 29, 2023, the SEC approved the Company’s application for the amendment of its Articles of Incorporation for the (i) change of its corporate name to “East Coast Vulcan Corporation,” (ii) change of number of directors to thirteen, and (iii) change of principal office address to the 4th floor, Pacific Star Building, Low Rise Tower, Makati Avenue corner Senator Gil Puyat Avenue, Makati City, Philippines, 1209. The SEC likewise approved the Company’s application to increase its authorized capital stock from 4 Billion Pesos (P4,000,000,000.00) to 12 Billion Pesos (P12,000,000,000.00) on the same date.

The 5.18 billion (5,180,000,000) common shares were issued in exchange for 100% ownership of ECMRCI, a corporation engaged in mining operations. Currently, the application for the Certificate Authorizing Registration (“CAR”) out of the said exchange is still being processed with the Bureau of Internal Revenue.

Further, upon the approval of the Securities and Exchange Commission of the capital increase, the Company filed an application for the listing of the attendant shares with the Philippine Stock Exchange. The contemplated approval of the said business combination transaction will result in ECMRCI becoming a wholly owned subsidiary of the Company and thus will allow the Company to consolidate ECMRCI’s operations into its books.

The Company is all set with its plans to revitalize its operations and structure to create a more efficient and profitable mining company. In line with its plans and future developments, the management is in discussion with both foreign and local partners and investors, given the prospects of more opportunities for the Company and its stockholders. With the successful acquisition of 100% of ECMRCI and the approved increase in capital stock of the Company, the Company holds the operation of two profitable mining areas in the Province of Dinagat Island.

At its annual meeting in September 2023, the stockholders approved the amendment to the Company's Articles of Incorporation to increase the authorized number of ECVMC shares from 12,000,000,000 to 120,000,000,000 shares, while simultaneously decreasing the share par value from PhP1.00 to PhP0.10, and thus, maintaining the stockholders' position. This move to amend the par value vis-à-vis the number of shares is more beneficial to the Company stockholders as it will increase liquidity and trading in the shares, and at the same time places a milestone on the Company's direction as a significant and determined mining company with the aim of declaring dividends in the coming periods.

On April 19, 2024, the Securities and Exchange Commission approved the Company's application for the amendment of its Articles of Incorporation for the (i) change of its corporate name to "East Coast Vulcan Mining Corporation," and (ii) change of principal office address to the 15th Floor, High Rise Pacific Star Building, Sen. Gil Puyat Avenue, Makati City, Metro Manila, Philippines.

Sources and Availability of Raw Materials -

Since the Company has not had any commercial operations, it does not depend on any one or a limited number of suppliers for essential raw materials, energy or other items.

Status of Any Publicly-announced New Product or Services – NONE

Competition

Significant and increasing competition exists for petroleum and mineral acquisition opportunities throughout the Philippines. As a result of this competition, the Company may be unable to acquire rights to exploit additional attractive petroleum and mining properties on terms the Company considers acceptable.

The Company had accumulated mineral and petroleum concessions during the time that the industry was at its lowest and, consequently, had a good chance of developing these resources into mineral and petroleum finds. As of December 31, 2018, the Company has written off or assigned all its mineral and petroleum assets in line with its decision to cease to engage in the business of mining, oil, petroleum, industrial development, mineral processing and other related activities.

Mining

As the Company was still in the stages of exploration before the assignment of its mineral assets, it cannot consider any other Company as competitor.

Dependence on One or a Few Major Customers – Not applicable

The Company is not dependent on single or few customers. It has no major existing sales contracts with its current customers.

Transactions with and/or Dependence on Related Parties – Not applicable

Patents, trademarks, Licenses, Franchises, Concessions, Royalty Agreements, or Labor Contracts –

The Company has no patents, trademarks or labor contracts relating to intellectual property matters.

Government Approval of principal products or services- Not applicable.

Effect of existing or probable government regulations on the business

The present existing and probable government regulations will not have so much effect on the current business of the Company because the Company is compliant with the existing laws on mining operations.

Amount Spent on development cost activities, and its percentage to revenues during each of the last three fiscal years – Not applicable.

Cost and effects of compliance with environmental laws

The Company has an outstanding strict policy of adherence to the environmental laws according to the Environmental Clearance Certificate (ECC) granted by the Department of Environment and Natural Resources and the Environmental Protection and Enhancement Program (EPEP).

Compliance with all government and non-government requirements such as MPSA, ECC, environmental programs, etc. have made the Company a recognized entity in the aggregate industry through its subsidiary.

Employees

Due to the reorganization of the Company that commenced in the fourth quarter of 2012 and the intended listing of National Book Store, Inc., the Company had retired all of its employees during the first semester of 2013. There are no employees who are subject to any Collective Bargaining Agreement (CBA). The Company was not threatened by any strike in the past three years.

Financial Risk Management

The main risk arising from the Company's financial instruments are credit risk, liquidity risk, equity price risk and interest rate risk. The Board reviews and agrees on policies for managing each of these risks and they are summarized below:

Credit Risk

Credit Risk is the risk the Company will incur losses if its counterparties fail to discharge their contractual obligations.

The Company manages and control credit risk by doing business mostly only with recognized, creditworthy third parties. It is the Company's policy that all customers who wish to trade on credit terms are subject to credit procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Company's exposure to bad debts to a minimum level.

Since the Company trades only with recognized third parties, there is no requirement for collateral.

Liquidity Risk

Liquidity risk is defined as the risk that the Company would not be able to settle or meet its obligations on time or at a reasonable price. Management is responsible for liquidity, funding as well as settlement management. The Company's objective is to maintain a balance between continuity of funding and flexibility by availing of credit facilities from various suppliers. The Company mainly sources its funds through the use of bank loans and advances from related parties.

Equity Price Risk

Equity price risk is the risk that the value of a financial instrument will fluctuate because of changes in market price. The Company is exposed to equity securities price risk because of financial assets held by the Company, which are classified on the parent Company balance sheets as AFS financial assets. The possible changes in the fair value of AFS financial assets could be brought by changes in the equity indices.

MINING CLAIMS

Shown below are the Company's current mining contracts in the form of Mineral Production Sharing Agreements (MPSA) with the Philippine Government, which were acquired by the Company from ECMRCI pursuant to the share-swap transaction that was approved by the SEC last May 29, 2023 *which were the following:*

<i>Mining Claim Number</i>	<i>Location</i>
MPSA 078-97-XIII (SMR)	Brgy. Valencia, Caganao, Surigao Del Norte
MPSA 232-2007-XIII (SMR)	Libjo, Surigao Del Norte

Item 6. Management's Discussion and Analysis or Plan of Operation

ECVC and ECMRCI Share-for-Share Swap Transaction

On July 1, 2021, the Company entered into a Memorandum of Agreement (MOA) with the majority stockholders (HGP Group) of East Coast Mineral Resources Company Incorporated (ECMRCI) for the latter's subscription to up to 5,180,000,000 shares of ECVMC arising from an increase in authorized capital stock.

Amendment of Articles of Incorporation

At the shareholders' meeting held on November 8, 2021, the shareholders and Board of Directors of the Company approved the following amendments to the Company's Articles of Incorporation

- Change in corporate name to "East Coast Vulcan Corporation";
- Change in principal office address to 4th Floor, Low Rise, Pacific Star Building, 1226 Sen. Gil J. Puyat Ave., Makati City, Metro Manila; and,
- Increase in authorized capital stock from 4 billion shares to 12 billion shares, or the subscription by, among others, the group led by the HGP Group.

The subscription to the increase of capital stock will be paid by the HGP Group through the fold-in of 99.99% ownership of East Coast Mineral Resources Company Inc. (ECMRCI) into the Company, based on an approved value of Php 5.18 billion.

In 2022, the Company submitted its application for the amendment of Articles of Incorporation as discussed above to the SEC. On May 29, 2023, the SEC approved the Company's application for the amendment of its Articles of Incorporation.

Upon approval of the SEC on May 29, 2023, the Company issued 5,100,000,000 common shares with par value of One Peso (Php1.00) per share to the HGP Group in exchange for the 100% outstanding shares of ECMRCI ("the Share Swap transaction") which resulted in ECVC obtaining 100% interest in and control over ECMRCI. The Company likewise filed an application for the listing of the attendant shares with the Philippine Stock Exchange.

Currently, the Company is now in the process of cleaning up a deficit which existed prior to the acquisition of ECVMC by the East Coast Group. At its annual meeting in September 11, 2023, the shareholders and Board of Directors of the Company approved the following amendment in the Company's Articles of Incorporation:

- Change in corporate name to "East Coast Vulcan Mining Corporation";
- Change in principal office address to Unit 1502, Pacific Star Building, Sen. Gil J. Puyat Ave., Makati City, Metro Manila 1209; and
- Increase in the authorized number of ECVMC shares from 12,000,000,000 to 120,000,000,000 shares, while simultaneously decreasing the share par value from PhP1.00 to PhP0.10, and thus, maintaining the stockholders' position

Thus, in 2023, the Company submitted its application for the amendment of Articles of Incorporation to the SEC for the (i) change in the Company's corporate name to "East Coast Vulcan Mining Corporation"; and (ii) change in principal office address to Unit 1502, Pacific Star Building, Sen. Gil J. Puyat Ave., Makati City, Metro Manila 1209. On April 19, 2024, the SEC approved the Company's application for the amendment of its Articles of Incorporation for the purposes stated above.

The Company is also processing the full payment of the 486,055,662 partially-paid ECVMC shares that were assigned and transferred by Hilario G. Pagautan and Sofia G. Pagautan (hereinafter, "Sps. Pagautan") to Techno-Asia Development Corporation ("TACD") as part of its quasi-restructuring plan, pursuant to a Memorandum of Agreement dated June 22, 2023 ("MOA"). Among others, the MOA provides that TACD shall assume the obligation to pay to the Company the unpaid subscription balance for the Shares in either cash, shares, and/or assets acceptable to the Company's Board of Directors. Pursuant to the MOA, Spouses Pagautan and TACD executed a Deed of Assignment of Partially-Paid Shares dated September 11, 2023, for the assignment of the 486,055,662 partially-paid shares of East Coast Vulcan Corporation (the "Company") to TACD. The 486,055,662 partially-paid shares currently represent 7.33% of the outstanding capital stock of 6,630,000,000 common shares of the Company.

At present, the Company and TACD are currently collating the necessary documents required to finalize the transaction. Thus, the payment of the subscription price for the 486,055,662 partially-paid ECVMC shares is still in process.

Upon finalizing the full payment of the 486,055,662 partially-paid ECVMC shares, the Company, as part of its quasi-restructuring plan, likewise intends to proceed applying for the decrease of the par value of ECVMC shares with the SEC, thereby amending Article Seventh of the Corporation's Articles of Incorporation, to state that the amount of capital stock of the Company is Twelve Billion Pesos (Php 12,000,000,000.00) Philippine currency, and the said capital is divided into One Hundred Twenty Billion (120,000,000,000) common shares at the par value of Ten centavos (Php 0.10) per share.

This move to amend the par value vis-à-vis the number of shares is more beneficial to the Company stockholders as it will increase liquidity and trading in the shares, and at the same time places a milestone on the Company's direction as a significant and determined mining company with the aim of declaring dividends in the coming periods. Accordingly, the proposed quasi-restructuring and decrease in the par value of common shares of the Company will allow further business development, additional floating of shares, and fund raising to invite potential investors and partners, all with the ultimate aim declaring dividends in the coming periods.

There are NO known trends, demands, commitments, events or uncertainties that have or are reasonably likely to have material impact on the Company's liquidity. Should the Company's cash position be not sufficient to meet current requirements, the Company may consider borrowing from its subsidiary.

The Company has NO material commitments for capital expenditures EXCEPT for the Company's exploration and development costs in mineral projects.

Results of Operations

2024 compared to 2023 and 2022

For the year 2024, the Company incurred net loss amounting to ₱79.45 million which was mainly due to the increase of amortization and finance costs during the year. The loss came from the operations of its subsidiary, ECMRCI. This was in contrast to the Company's financial results in 2023, where the Company incurred a net income of ₱134.41 million and the Company incurred a net income of ₱360.97 million in 2022.

Total costs and expenses for years 2024, 2023 and 2022 amounts to ₱266.79 million, ₱180.01 million, ₱136.67 million, respectively. Expenses incurred in 2024, 2023, and 2022 was mostly for amortization, depreciation, commission fees, and salaries and wages.

Financial Position

On May 29, 2023, the SEC approved the Company's application to increase its authorized capital stock from 4 Billion Pesos (₱4,000,000,000.00) to 12 Billion Pesos (₱12,000,000,000.00).

The 5.18 billion (5,180,000,000) common shares were issued in exchange for 100% ownership of ECMRCI, a corporation engaged in mining operations.

Further, the approval of the SEC of the capital increase and the said business combination transaction resulted to ECMRCI becoming a wholly owned subsidiary of the Company and thus allowed the Company to consolidate ECMRCI's operations into its books.

As of December 31, 2024, the Company's consolidated total equity is ₱1.27 Billion and in 2023, the Company has incurred cumulative income amounting to ₱350.86.

As an outcome of exploration works conducted, the area has a positive Nickel Ore Reserve of 30 million wet metric ton (WMT). Exploration is done by and with various operators, Libjo Mining Corporation, Westernshore Nickel Corporation and Norte Este Corporation, under a Memorandum of Agreement to explore and to operate during the lifetime of the MPSA.
- MPSA-232-2007-XIII-SMR covering an area of 248 hectares in the Municipality of Surigao del Norte, Hibuson Island. The area is now being explored by and with Oriental Vision Mining Philippines Corporation (OVMPC).

Item 7. Financial Statements

The Audited Financial Statements as of December 2024 are filed as part of this Form 17 – A.

Item 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

The accounting firm of Sycip Gorres Velayo (SGV) with address at 6760 Ayala Avenue, Makati City was appointed external auditor of the Company in 2024 Annual Stockholders Meeting. The fees of the external auditor in the past two (2) years are as follows:

Year	Audit & audit related fees	Tax Fees	Other Fees
2024	672,000	-0-	-0-
2023	672,000	-0-	-0-

For the past two (2) years, the Company has not engaged the services of SGV except for the statements in connection with statutory and regulatory filings for the year 2024 and 2023. The amounts under the caption of “Audit and audit related fees” for the years 2024 and 2023 pertain to these services. The Audit Committee prohibits the Company from engaging the external auditor to provide services that may adversely affect its independence, including those expressly prohibited by regulations of the Securities and Exchange Commission (SEC).

SGV representatives are expected to be present at the Meeting and they will have the opportunity to make statement and respond to appropriate questions.

The Audit Committee reviews and recommends to the Board the appointment of SGV to the stockholders for appointment as external auditor of the Company.

Report on the Audit of the Consolidated and Parent Company Financial Statements

Opinion

We have audited the consolidated financial statements of East Coast Vulcan Mining Corporation (formerly East Coast Vulcan Corporation, the Parent Company, ECVMC) and its subsidiary (the Group) and the parent company financial statements of the Parent Company, which comprise the consolidated and parent company statements of financial position as at December 31, 2024 and 2023 and the consolidated and parent company statements of income, consolidated and parent company statements of comprehensive income, consolidated and parent company statements of changes in equity (capital deficiency) and consolidated and parent company statements of cash flows for each of the three years in the period ended December 31, 2024, and notes to the consolidated and parent company financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated and parent company financial statements present fairly, in all material respects, the financial position of the Group and the Parent Company as at December 31, 2024 and 2023, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2024, in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report. We are independent of the Group and the Parent Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and parent company financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and parent company financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated and parent company financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated and parent company financial statements.

Recoverability of Deferred Exploration Costs

As at December 31, 2024, the carrying value of the Group's deferred exploration costs amounted to ₱147.91 million. The deferred exploration costs pertain to the expenditures incurred by the Group for its ongoing exploration project. Under PFRS 6, *Exploration for and Evaluation of Mineral Resources*, these deferred exploration costs shall be assessed for impairment when facts and circumstances suggest that the carrying amounts exceed the recoverable amounts. The ability of the Group to recover its deferred exploration costs would depend on the commercial viability of the exploration projects. We considered this as a key audit matter because of the materiality of the amounts involved, and the significant judgment required in assessing whether there is any indication of impairment.

The Group's disclosures about deferred exploration costs are included in Notes 3 and 10 to the consolidated and parent company financial statements.

Audit Response

We obtained management's assessment on whether there is any indication that deferred exploration costs may be impaired. We inspected the summary of the status of the exploration project as at December 31, 2024, as certified by the Group's technical group head, the type of expenses incurred, and assessed whether ongoing exploration activities exist to support the continued capitalization of these assets under the Group's accounting policies, and compared it with the disclosures submitted to regulatory agencies. We inspected contracts and agreements, inquired with management whether further evaluation is required in advance of a development decision and that such exploration is continuing, made reference with existing drilling results and inspected the approved budget for continuing the exploration and development costs. We inspected the licenses/permits of each exploration project to determine that the period for which the Group has the right in the specific area has not expired, will not expire in the near future, and will be renewed (or have been applied for renewal) accordingly. We also inquired about the existing concession areas that are expected to be abandoned or any exploration activities that are planned to be discontinued in those areas.

We also reviewed the presentation and disclosures related to the deferred exploration costs in the consolidated and parent company financial statements.

Accounting for Capitalization, Impairment Review and Depletion of Mining Rights

As at December 31, 2024, the carrying value of the Group's mining rights amounted to ₱1,597.68 million net of accumulated amortization amounting to ₱266.12 million. Mining rights pertain to the right of the Group as the holder of the MPSA-078-97-XIII-SMR located in Cagdianao, Dinagat Islands, MPSA-233-2007-XIII-SMR located in Libjo, Dinagat Islands and MPSA-232-2007-XIII-SMR located in Surigao del Norte, Hibuson Island. This mining rights are amortized using the units-of-production method. Under this method, management is required to estimate the volume of mineable ore reserves for the remaining life of the mine which is a key input to the amortization of the mining rights. We considered this as a key audit matter because of the materiality of the amounts involved, including the level of additions during the year, the significant judgment required when performing an impairment review.

The Group's disclosures about mining rights are included in Notes 3 and 9 to the consolidated and parent company financial statements.

Audit Response

We obtained an understanding of the Group's capitalization policy and tested whether the policy has been applied consistently. On a sampling basis, we performed test of additions including an examination of management's assessment as to whether it met the recognition criteria as set forth in Philippine Financial Reporting Standards 6, *Exploration for and Evaluation of Mineral Resources*. In relation to the impairment review, we obtained and reviewed management's assessment on whether there is any indication that the mining rights may be impaired in accordance with Philippine Accounting Standards 36, *Impairment of Assets*. And in relation to depletion, we reviewed the internal specialists' report and obtained an understanding of the nature, scope and objectives of their work and basis of estimates, including the changes in the reserves during the year and we also tested the application of the estimated ore reserves in the amortization of mining rights.

We also reviewed the presentation and disclosures related to the mining rights in the consolidated and parent company financial statements.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2023, but does not include the consolidated and parent company financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2024 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated and parent company financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated and parent company financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and parent company financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and parent company financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and parent company financial statements, management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless

management either intends to liquidate the Group and the Parent Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Parent Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and parent company financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and parent financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and parent company financial statements, including the disclosures, and whether the consolidated and parent company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and parent company financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Supplementary Information Required Under Revenue Regulations 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Revenue Regulations 15-2010 in Note 23 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of the management of East Coast Vulcan Mining Corporation (formerly East Coast Vulcan Corporation). The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The partner in charge of the audit resulting in this independent auditor's report is Eleanore A. Layug.

EAST COAST VULCAN MINING CORPORATION AND SUBSIDIARY
(Formerly East Coast Vulcan Corporation)

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information and Status of Operations

Corporate Information

East Coast Vulcan Mining Corporation (formerly, Vulcan Industrial & Mining Corporation, ECVMC, the Parent Company) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on January 13, 1953 and was listed in the Philippine Stock Exchange (PSE) on August 31, 1970. The primary and secondary purpose of ECVMC is as a holding company and such other purposes as management deems fit and in the best interest of the Parent Company.

Amendment of Articles of Incorporation

In 2021, the BOD and Stockholders have approved the following amendment in the Parent Company's Articles of Incorporation

- Change in corporate name to East Coast Vulcan Corporation;
- Change in principal office address to 15th Floor, High Rise, Pacific Star Building, 1226 Sen. Gil J. Puyat Ave., Makati City, Metro Manila; and,
- Increase in authorized capital stock from 4 billion shares to 12 billion shares.

In 2022, the Parent Company submitted its application for the amendment of Articles of Incorporation to the Philippine SEC. On May 29, 2023, the SEC approved the Parent Company's application for the amendment of its Articles of Incorporation.

ECVMC and ECMRCI Share-for-Share Swap Transaction

On July 1, 2021, the Parent Company entered into a Memorandum of Agreement (MOA) with the majority stockholders (HGP Group) of East Coast Mineral Resources Company Incorporated (ECMRCI) for the latter's subscription up to 5,180.00 million shares of ECVMC arising from the increase in authorized capital stock. Upon approval of the SEC on May 29, 2023, the Parent Company issued 5,180,000,000 common shares with par value of ₱1 per share to HGP Group in exchange for the 100% outstanding shares of ECMRCI ("the Share Swap transaction") which resulted in ECVMC obtaining 100% interest in and control over ECMRCI. ECVMC and its subsidiary, ECMRCI, are referred to as "the Group".

Status of Operations

As of April 29, 2025, the Group is a holder of three Mineral Product and Sharing Agreements (MPSA):

- MPSA-078-97-XIII-SMR issued on November 19, 1997 covering an area of 697.05 hectares in the Municipality of Cagdianao, Dinagat Islands. On March 22, 2022, the Mines and Geosciences Bureau (MGB) ordered the renewal of the MPSA between the Government and the Group for another twenty-five years. Exploration is done by and with Cagdianao Mining Corporation under a Memorandum of Agreement to explore and to operate for a period of 25 years which were renewed until 2047 (see Note 22).
- MPSA-233-2007-XIII-SMR issued in 2007 covering an area of 4,226.27 hectares in the Municipality of Libjo, Dinagat Islands. As an outcome of exploration works conducted, the area has a positive Nickel Ore Reserve of 30 million wet metric ton (WMT). Exploration is done by and with various operators, Libjo Mining Corporation, Westernshore Nickel Corporation and Norte Este Corporation, under a Memorandum of Agreement to explore and to operate during the lifetime of the MPSA (see Note 22).

- MPSA-232-2007-XIII-SMR covering an area of 248 hectares in the Municipality of Surigao del Norte, Hibuson Island. The area is now being explored by and with Oriental Vision Mining Philippines Corporation (OVMPC) (see Note 22).

In 2023, the BOD and Stockholders have approved the following amendment in the Parent Company's Articles of Incorporation

- Change in corporate name to East Coast Vulcan Mining Corporation;
- Change in principal office address to Unit 1502, Pacific Star Building, Sen. Gil J. Puyat Ave., Makati City, Metro Manila 1209; and
- The amount of capital stock of the Corporation is Twelve Billion Pesos (₱12,000,000,000.00), Philippine currency, and the said capital is divided into One Hundred Twenty Billion (120,000,000,000) common shares at the par value of Ten Centavos (₱0.10) per share.

In 2023, the Parent Company submitted its application for the amendment of Articles of Incorporation to the Philippine SEC. On April 19, 2024, the SEC approved the Parent Company's application for the amendment of its Articles of Incorporation.

The Company's registered office address is at Unit 1502, Pacific Star Building, Sen. Gil J. Puyat Ave., Makati City, Metro Manila 1209.

The Group's Ability to Continue as a Going Concern

The Group incurred net loss of ₱79,446,223 in 2023 and the Group's current liabilities exceeded its current assets by ₱598,152,624 as of December 31, 2024. In response to these matters, the Group came up with the following actions:

- Continuously coordinate with the respective operators of its MPSA to continue confirmatory and exploration activities to further enhance Ore Reserves/Resources
- manage expenditures for its day-to-day activities
- enter into loan restructuring agreements to negotiate deferral of payments of third-party loans
- proceed with the necessary actions to complete the requirements on its permit renewal
- improve efficiency and production level of operations through strategic operational changes and capital developments to increase cash inflows generated

Management has determined that the actions above are sufficient to raise financial resources for at least the next twelve months from December 31, 2024 and has therefore prepared the financial reporting on a going concern basis.

Authorization for Issue of the Parent and Consolidated Financial Statements

The consolidated and parent company financial statements as of December 31, 2024 and 2023 and for each of the three years in the period ended December 31, 2024 were approved and authorized for issue by the BOD on April 29, 2025.

2. Basis of Preparation, Statement of Compliance, Changes in Accounting Policies and Disclosures and Material Accounting Policy Information

Basis of Preparation

The Group's and Parent Company's consolidated and parent company financial statements have been prepared under the historical cost basis. The consolidated and parent company financial statements are presented in Philippine peso (₱), which is the Group's and Parent Company's functional currency. All amounts are rounded to the nearest Philippine Peso, except as otherwise stated.

Acquisition of ECMRCI

As discussed in Note 1, ECVMC and HGP Group entered into a Share Swap transaction that resulted in ECVMC owning 100% of ECMRCI.

The Share Swap transaction is an asset acquisition because ECMRCI was deemed to be the accounting acquirer for accounting purposes accounted for under the reverse acquisition method following the guidance provided by the standard. In a reverse acquisition, the legal parent, ECVMC is identified as the acquiree for accounting purposes because based on the substance of the transaction, the legal subsidiary ECMRCI is adjudged to be the entity that gained control over the legal parent. Accordingly, the consolidated financial statements of ECVMC have been prepared as a continuation of the financial statements of ECMRCI. ECMRCI has accounted for the acquisition of ECMRCI on May 29, 2023, which was the date when ECMRCI acquired or gained control over ECVMC.

The Group determined that ECMRCI obtained control over ECVMC upon issuance of shares on May 29, 2023. As allowed under PFRS 3, *Business Combinations*, an entity may designate an acquisition date of the end or the beginning of a month (convenience date), the date on which it closes its books, rather than the actual acquisition date. The Group determined that the date of acquisition is on May 29, 2023 (convenience date) rather than the actual date of issuance of shares there are no material transactions that occurred from May 29, 2023 to May 31, 2023.

The Share Swap transaction was a transaction between entities under common control since at acquisition date on May 31, 2023, ECVMC and ECMRCI are under the common control of HGP Group.

The comparative December 31, 2022 and January 1, 2022 information presented in the consolidated statements of changes in equity is that of ECMRCI, not originally presented in the previous financial statements of the legal parent (the Parent Company - accounting acquiree) and is also retroactively adjusted to reflect the legal capital (i.e., the number and type of capital stock issued) of ECVMC. The adjustment, which is the difference between the capital structure of ECVMC and ECMRCI, is recognized as part of the equity reserve in the consolidated statements of financial position as at December 31, 2024 and 2023.

Because the accompanying consolidated financial statements represent a continuation of the financial statements of ECMRCI, except for its capital structure, the consolidation reflects:

- a. The consolidated assets and liabilities of ECMRCI (legal subsidiary/accounting acquirer) recognized and measured at their pre-combination carrying amounts and not at fair value, and the assets and liabilities of ECVMC (legal parent/accounting acquiree), consisting of cash, prepayments, office equipment, trade and other payables and due to related parties, recognized and measured at acquisition cost;
- b. The retained earnings of ECMRCI for the full period together with the post-combination results of ECVMC from May 31, 2023, the date when ECVMC was acquired by ECMRCI;
- c. The total equity that shows the combined equity of ECVMC and ECMRCI with the legal capital of ECMRCI eliminated as the legal capital reflected would be that of ECVMC (legal parent);
- d. Any difference between the consideration transferred by ECVMC and the legal capital of ECMRCI that is eliminated is reflected as "Equity reserve".
- e. The consolidated statements of comprehensive income for the year ended December 31, 2022 and 2021 reflect that of ECMRCI for the full period.

Reverse acquisition applies only to the consolidated financial statements. The Parent Company financial statements will continue to represent ECVMC as a stand-alone entity as at December 31, 2024 and 2023 and for each of the three years in the period ended December 31, 2024.

Statement of Compliance

The consolidated and parent company financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Group as at December 31, 2024 and 2023 and for each of the three years in the period ended December 31, 2024. The financial statements of the subsidiary are prepared for the same reporting year as the Parent Company using uniform accounting policies. When necessary, adjustments are made to the separate financial statements of the subsidiary to bring its accounting policies in line with the Parent Company's accounting policies.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the non-controlling interests (NCI), even if this results in the NCI having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, NCI and other components of equity while any resulting gain or loss is recognized in the consolidated statement of income. Any investment retained is recognized at fair value.

NCI represents the interests in the subsidiaries not held by the Parent Company and are presented separately in the consolidated statement of income and within equity in the consolidated statement of financial position, separately from equity attributable to holders of the Parent Company. NCI shares in losses even if the losses exceed the NCI in the subsidiary.

Changes in Accounting Policies and Disclosures

Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of amendments effective as at January 1, 2024. Unless otherwise indicated, adoption of the new standard did not have an impact on the consolidated financial statements of the Group.

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*
The amendments clarify:
 - That only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
 - That classification is unaffected by the likelihood that an entity will exercise its deferral right.
 - That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.
- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*
The amendments specify how a seller-lessee measures the lease liability arising in a sale and leaseback transaction in a way that it does not recognize any amount of the gain or loss that relates to the right of use retained.
- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*
The amendments specify disclosure requirements to enhance the current requirements, which are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. The Group intends to adopt the following pronouncements when they become effective. The adoption of future accounting standards is not expected to have a material impact on the Group's consolidated financial statements and parent company's financial statements.

Effective beginning on or after January 1, 2025

- PFRS 17, *Insurance Contracts*
- Amendments to PAS 21, *Lack of exchangeability*

Effective beginning on or after January 1, 2026

- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*
- Annual Improvements to PFRS Accounting Standards—Volume 11
 - Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
 - Amendments to PFRS 7, *Gain or Loss on Derecognition*
 - Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities and Transaction Price*
 - Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
 - Amendments to PAS 7, *Cost Method*

Effective beginning on or after January 1, 2027

- PFRS 18, *Presentation and Disclosure in Financial Statements*
- PFRS 19, *Subsidiaries without Public Accountability*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

Summary of Material Accounting Policies

The accounting policies set out below have been applied consistently to all periods presented in the Group's consolidated and parent company's financial statements, unless otherwise indicated.

Presentation of Financial Statements

The Group has elected to present all items of recognized income and expense in two statements: a statement displaying components of profit or loss (consolidated and parent company statement of income) and a second statement beginning with profit or loss and displaying components of OCI (consolidated and parent company statement of comprehensive income).

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated and parent company financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets: Initial Recognition and Measurement

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. The Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVTPL), transaction costs.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Contractual Cash Flows Characteristics

If the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, the Group assesses whether the cash flows from the financial asset represent 'solely payments of principal and interest' (SPPI) on the principal amount outstanding.

In making this assessment, the Group determines whether the contractual cash flows are consistent with a basic lending arrangement, i.e., interest includes consideration only for the time value of money, credit risk and other basic lending risks and costs associated with holding the financial asset for a particular period of time. In addition, interest can include a profit margin that is consistent with a basic lending arrangement. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual terms that introduce exposure to risks or volatility in the contractual cash flows that is unrelated to a basic lending arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI on the principal amount outstanding.

Financial Assets: Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments);
- Financial assets at FVTPL;
- Financial assets at fair value through other comprehensive income (FVOCI), where cumulative gains or losses previously recognized are reclassified to profit or loss (debt instruments); and
- Financial assets at FVOCI, where cumulative gains or losses previously recognized are not reclassified to profit or loss (equity instruments).

The Group's financial assets are all classified and measured at amortized cost.

Financial Assets at Amortized Cost

This category is most relevant to the Group. The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

These financial assets are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at amortized cost using the effective interest (EIR) method, less any impairment in value. Amortized cost is calculated by taking into account any discount or premium on

acquisition and fees and costs that are an integral part of the EIR. The amortization is included in “Interest income” in the statements of comprehensive income and is calculated by applying the EIR to the gross carrying amount of the financial asset, except for (i) purchased or originated credit-impaired financial assets and (ii) financial assets that have subsequently become credit-impaired, where, in both cases, the EIR is applied to the amortized cost of the financial asset.

The Group’s financial asset at amortized cost includes cash in bank.

Impairment of Financial Assets

The Group recognizes expected credit losses (ECLs) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are measured in a way that reflects the following:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Financial assets migrate through the following three stages based on the change in credit quality since initial recognition:

Stage 1: 12-month ECL

For credit exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit-impaired upon origination, the portion of lifetime ECLs that represent the ECLs that result from default events that are possible within the 12 months after the reporting date are recognized.

Stage 2: Lifetime ECL - not credit-impaired

For credit exposures where there has been a significant increase in credit risk since initial recognition on an individual or collective basis but are not credit-impaired, lifetime ECLs representing the ECLs that result from all possible default events over the expected life of the financial asset are recognized.

Stage 3: Lifetime ECL - credit-impaired

Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of those financial assets have occurred. For these credit exposures, lifetime ECLs are recognized and interest revenue is calculated by applying the credit-adjusted EIR to the amortized cost of the financial asset.

For cash in bank, the Group applies the low credit risk simplification. The probability of default and loss given defaults are publicly available. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group uses the rating from external credit agencies to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial Liabilities: Initial Recognition and Measurement

Financial liabilities are classified, at initial recognition, as FVTPL, at amortized cost or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of financial liabilities at amortized cost, net of directly attributable transaction costs.

The Group's financial liabilities are all classified and measured at amortized cost.

Subsequent Measurement – Financial Liabilities at Amortized Cost

This is the category most relevant to the Group. After initial recognition, interest-bearing financial liabilities are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in the statements of comprehensive income when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as "Interest expense" in the statements of comprehensive income.

The Group's financial liabilities at amortized cost consist of trade and other payables, due to related parties, loans payable and installment payable.

Reclassifications of Financial Instruments

The Group reclassifies its financial assets when, and only when, there is a change in the business model for managing the financial assets. Reclassifications shall be applied prospectively by the Group and any previously recognized gains, losses or interest shall not be restated. The Group does not reclassify its financial liabilities.

Derecognition of Financial Assets and Liabilities

Financial Assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

1. the rights to receive cash flows from the asset have expired;
2. the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
3. the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statements of comprehensive income.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statements of financial position if there is a currently enforceable legal right to set off the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Group assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Group and all of the counterparties.

Prepayments and Other Current Assets

Prepayments and other current assets are composed of prepaid expenses, creditable withholding taxes (CWTs), advances to suppliers and contractors, and input value-added tax (VAT). These are classified as current when these are probable to be realized within one year from the end of the reporting period. Otherwise, these are classified as noncurrent assets.

Property and Equipment

Property and equipment are carried at cost, excluding the cost of day-to-day servicing, less accumulated depreciation and any accumulated impairment in value. The initial cost of an item of property and equipment consists of its purchase price including import duties, taxes, and any directly attributable costs of bringing the asset to its working condition and location of its intended use. Such costs include the cost of replacing part of such property and equipment when that cost is incurred, only if the recognition criteria are met. Expenditures incurred after the asset has been put into operation, such as repairs and maintenance, are normally charged to statement of comprehensive income in the period in which the costs are incurred.

In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment. Major maintenance cost that are capitalized as part of property and equipment are depreciated on straight-line basis over the shorter of their estimated useful life, typically the period until the next major maintenance or inspection.

Depreciation of property and equipment is computed using the straight-line basis, net of any estimated residual value, over their estimated useful lives as follows:

Category	Number of Years
Building and other structures	5
Furniture and fixtures	5
Office equipment	5
Tools and Equipment	5
Communications Equipment	5
Transportation equipment	7
Other equipment	5

Depreciation of property and equipment begins when it becomes available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Depreciation do not cease when the asset becomes idle or is retired from active use unless the asset is fully depreciated and amortized. Depreciation of an asset ceases when the asset is derecognized.

Each part of an item of property and equipment with a cost that is significant in relation to the total cost of an item shall be depreciated and amortized separately.

The useful lives and depreciation method are reviewed at each reporting date to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the property and equipment (calculated as the difference between the net disposal proceeds and the carrying amount of the property and equipment) is recognized in the statements of comprehensive income in the year the property and equipment is derecognized.

When items of property and equipment are retired or otherwise disposed of, their cost and related accumulated depreciation and amortization and any impairment in value are eliminated from the accounts and any resulting gain or loss on disposal is included in the statements of comprehensive income.

Fully depreciated and amortized assets are retained in the accounts until they are no longer in use and no further depreciation is recorded.

Intangible Asset

Intangible assets are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization in the case of intangible assets with finite useful lives, and any accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortized over the asset's useful or economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Amortization shall begin when the asset is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

The amortization period and method for an intangible asset with a finite useful life is reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates. The amortization on intangible assets with finite lives is recognized in the statements of comprehensive income consistent with the function of the intangible asset.

The Group's intangible asset pertains to the acquired computer software, which is estimated to have a useful life of five (5) years.

Intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in the statement of comprehensive income.

Mining Rights

Mining rights are identifiable intangible assets acquired by the entity to explore, extract, and retain, at least, a portion of the benefits from mineral deposits. Mining rights shall be recognized if it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably.

Mining rights pertain to the right of the Group as the holder of the MPSA-078-97-XIII-SMR located in Cagdianao, Dinagat Islands, MPSA-233-2007-XIII-SMR located in Libjo, Dinagat Islands and MPSA-232-2007-XIII-SMR located in Surigao del Norte, Hibuson Island. The mining rights is acquired through the assignment of MPSA from CMC, LMC, Norte Este and WNC.

Mining rights with finite useful life is stated at cost less amortization and accumulated impairment in value. Impairment assessments are made if events or changes in circumstances indicate that a carrying value of the assets may not be recoverable.

The net carrying amount of mining rights of the Group is amortized using the units of production method based on the estimated economically recoverable reserves to which they relate or are written off if the properties covered by the mining rights are abandoned.

Deferred Exploration Costs

Costs incurred during the start-up phase of a mine are expensed as incurred. Ongoing mining expenditures on producing properties are charged against earnings as incurred.

Expenditures for mine exploration work prior to drilling are charged to operations. When it has been established that a mineral deposit is commercially mineable and a decision has been made to formulate a mining plan (which occurs upon completion of a positive economic analysis of the mineral deposit), the costs subsequently incurred to develop a mine on the property prior to the start of mining operations are capitalized. Upon the start of commercial operations, such costs are transferred to mine and mining properties under "Property and equipment". Capitalized amounts may be written down if future cash flows, including potential sales proceeds related to the property, are projected to be less than the carrying value of the property. If no mineable ore body is discovered, capitalized acquisition costs are expensed in the period in which it is determined that the mineral property has no future economic value.

Major development expenditures incurred to expose the ore, increase production or extend the life of an existing mine are capitalized.

Impairment of Nonfinancial Assets

Nonfinancial prepayments and other current and noncurrent assets

The Group assesses at each financial reporting date, its prepayments and other current assets and deposits and other noncurrent assets to determine whether there is any indication that the assets may be impaired. If there is an indication of possible impairment, the recoverable amount of prepayments and other current assets and deposits and other noncurrent assets is estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognized immediately in the statements of comprehensive income.

The Group provides allowance for impairment losses on nonfinancial prepayments and other current assets and deposits and other noncurrent assets when they can no longer be realized. The amounts and timing of recorded expenses for any period would differ if the Group made different judgments or utilized different estimates. An increase in allowance for impairment losses would increase recorded expenses and decrease prepayments and other current assets and deposits and other noncurrent assets.

Property and equipment, intangible assets and mining rights

The Group assesses at each financial reporting date whether there is an indication that property and equipment may be impaired. If any such indication exists, or when the annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell (FVLCS) and its value-in-use (VIU) and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing VIU, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining FVLCS, an appropriate valuation model is used, with the calculations corroborated by other available fair value indicators. Any impairment loss is recognized in the statements of comprehensive income in those expense categories consistent with the function of the impaired asset.

Recovery of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the asset no longer exist or have decreased. The recovery is recorded in the statements of comprehensive income. However, the increased carrying amount of an asset due to a recovery of an impairment loss is recognized to the extent that it does not exceed the carrying amount that would have been determined (net of depreciation and amortization) had no impairment loss been recognized for that asset in prior years.

Deferred exploration costs

An impairment review is performed, either individually or at the CGU level, when there are indicators that the carrying amount of the assets may exceed their recoverable amounts. To the extent that this occurs, the excess is fully provided against, at the end of the reporting period in which this is determined.

Deferred exploration costs are reassessed on a regular basis. Facts and circumstances that would require an impairment assessment as set forth in PFRS 6, *Exploration for and Evaluation of Mineral Resources*, are as follows:

- The period for which the Group has the right to explore in the specific area has expired or will expire in the near future, and is not expected to be renewed
- Substantive expenditure on further exploration and evaluation of mineral resources in the specific area is neither budgeted nor planned
- Exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the Group has decided to discontinue such activities in the specific area
- When a service contract where the Group has participating interest in is permanently abandoned, and
- Sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

Retirement Benefits Costs

The Group has a non-funded, non-contributory defined retirement benefit plan covering substantially all its employees. The retirement benefits costs are actuarially determined using the projected unit credit method and incorporates assumptions concerning employees' projected salaries.

Retirement benefits costs comprise of the following:

- Service cost
- Net interest on the net retirement benefit liability or asset
- Remeasurements of net retirement benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in statements of comprehensive income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest cost on the retirement benefit liability or asset is the change during the period in the net retirement liability that arises from the passage of time which is determined by applying the discount rate in government bonds to the net retirement benefit liability, determined at the start of the period, after considering any payments to the net retirement benefit liability during the period. Interest on the retirement benefit liability is recognized as finance expense in the statements of comprehensive income.

Remeasurements comprising actuarial gains and losses were previously recognized immediately in statements of comprehensive income in the period in which they arise.

Capital Stock

The Parent Company has issued capital stock that is classified as equity and recorded at par. Incremental costs incurred directly attributable to the issuance of new shares are deducted from additional paid-in capital (APIC). If APIC is not sufficient, the excess is charged against retained earnings (deficit).

Subscription Receivable

Subscription receivable pertains to the amount of subscribed capital stock less the amount paid-up. Subscription receivable is presented as deduction from capital stock.

Basic/Diluted Earnings/Losses Per Share

Basic earnings/losses per share is computed by dividing net loss attributable to equity holders of the Group for the year by the weighted average number of common shares outstanding during the year after giving retroactive effect to stock dividends declared and stock rights exercised during the year, if any. The Group currently does not have potential dilutive common shares.

Retained earnings (deficit)

Retained earnings (deficit) includes accumulated profits and losses attributable to the Group's stockholders. Retained earnings (deficit) may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Equity Reserve

Equity reserve represents the residual amount recognized in the consolidated financial statements to reflect the equity of the legal subsidiary (accounting acquirer) before the business combination, which was accounted for as a reverse acquisition. However, the equity structure (i.e., the number and type of equity instruments issued) still reflects the equity structure of the legal parent (accounting acquiree), including the equity instruments issued by the legal parent to effect the combination.

Reverse Acquisitions

Consolidated financial statements prepared following a reverse acquisition are issued under the name of the legal parent (accounting acquiree) but described in the notes as a continuation of the financial

statements of the legal subsidiary (accounting acquirer), with one adjustment, which is to adjust retroactively the accounting acquirer's legal capital to reflect the legal capital of the accounting acquiree. That adjustment is required to reflect the capital of the legal parent (the accounting acquiree). Comparative information presented in those consolidated financial statements also is retroactively adjusted to reflect the legal capital of the legal parent (accounting acquiree).

Combination of Entities under Common Control

Combination of entities under common control are accounted for by applying the pooling-of-interest method. The pooling-of-interests method generally involved the following:

- The assets and liabilities of the combining entities are reflected in the consolidated financial statements at their carrying amounts. No adjustments are made to reflect fair value or recognize any new assets or liabilities at the date of combination. The only adjustments that are made are those adjustments to harmonize the accounting policies.
- No new goodwill is recognized as a result of the combination. The only goodwill that is recognized is any existing goodwill relating to either of the combining entities. Any difference between the consideration paid or transferred and the entity acquired is reflected within equity.
- The consolidated statement of income, comprehensive income and cash flows reflect the result of the combining entities in full, irrespective of when the combination takes place.
- Comparative financial information are presented as if the entities had always been combined, or on the date the common control existed on the combining entities, whichever comes earlier.
- The effects of any intercompany transactions are eliminated to the extent possible.

OCI

OCI includes items of income and expenses (including items previously presented under statement of changes in equity) that are not recognized in the statement of comprehensive income for the year in accordance with PFRSs.

Revenue from Contracts with Customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent.

The following specific recognition criteria must also be met before revenue is recognized:

Royalty income

Royalty income is main source of revenue and is recognized from the share of sale of export of raw minerals by the Operators which rate is equivalent to certain percentage of gross receipts as stated in the agreements with various Operators.

Commission and marketing income

Commission income is recognized either based on the ore price per WMT at the date of loading and also equivalent to certain percentage of gross receipts depending on the agreement with various operators.

Other income

Other income is recognized as they are earned.

Expense Recognition

Costs and expenses are decreases in economic benefits during the accounting period in the form of outflows or decreases of assets or incurrence of liabilities that result in decreases in equity other than

those relating to distributions to equity participants. Costs and expenses are recognized when the services are used, or the expense arises.

General and administrative expenses

General and administrative expenses consist of costs associated with the development and execution of day-to-day operations of the Group. These are generally recognized when the service is incurred or the related expense arises.

Other charges

Other charges are recognized as they are incurred.

Income Taxes

Current Income Tax

Current income tax assets and liabilities for the current and prior year periods are measured at the amount expected to be recovered from, or paid to, the tax authority. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as at the reporting date.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions when appropriate.

Deferred Income Tax

Deferred income tax is provided, using the liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax assets are recognized for all deductible temporary differences, carryforward of unused tax credits and unused net operating loss carry-over (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward benefits of unused tax credits and unused NOLCO can be utilized.

Deferred income tax liabilities are recognized for all taxable temporary differences.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax assets to be utilized. Unrecognized deferred income tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred income tax assets to be recovered.

Deferred income tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

OCI

OCI comprises items of income and expense (including items previously presented under the consolidated statement of changes in equity) that are not recognized in profit or loss for the year in accordance with PFRSs.

Segment Reporting

An operating segment is a component of an entity that: (a) engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity); (b) whose operating results are regularly reviewed by the

entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; and (c) for which discrete financial information is available.

The Group has only one business and geographical segment.

Related Party Transactions

Transactions with related parties accounted for based on the nature and substance of the agreement, and financial effects are included in the appropriate asset, liabilities, income and expense accounts.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statements of comprehensive income, net of any reimbursement.

Contingencies

Contingent liabilities are not recognized in the financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent asset are not recognized in the financial statements but disclosed in the notes to financial statements when an inflow of economic benefits is probable.

Events After the Reporting Date

Post year-end events that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are non-adjusting events are disclosed in the notes to the financial statements when material.

3. Significant Accounting Judgments, Estimates and Assumptions

The Group's financial statements prepared in accordance with PFRSs require management to make judgment, estimates and assumptions that affect the amounts reported in the financial statements and related notes. The estimates and assumptions used in the financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the Group's financial statements. Actual results could differ from such estimates.

Judgments, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Group's accounting policies, management has made the following significant judgments, apart from those including estimations and assumptions, which have the most significant effect on the amounts recognized in the financial statements.

Assessing Going Concern

The use of going concern assumption requires management to make judgments at a particular point in time about the future outcome of events and conditions that are inherently uncertain. The underlying assumption in the preparation of financial statements is that the Group has neither the intention nor the need to liquidate the business.

Note 1 to the consolidated financial statements discusses the matters considered by management in concluding the appropriateness of the use of going concern assumption in the preparation of the financial statements. These matters include continuously coordinate with the respective operators of its MPSA to continue confirmatory and exploration activities to further enhance Ore Reserves/Resources, confirmatory and exploration activities to further enhance Ore Reserves/Resources, management of expenditure for its day-to-day activities, enter into loan restructuring agreements to negotiate deferral of payments of third-party loans, proceed with the necessary actions to complete the requirements on its permit renewal and improvement of the efficiency of the production level of operations through strategic operational changes and capital developments to increase cash inflows. As such, the financial statements have been prepared on a going concern basis of accounting.

Accounting for the reverse acquisition of ECVMC and ECMRCI

As discussed in Notes 1 and 2, as at May 31, 2023, the equity share swap transaction between ECVMC and ECMRCI became effective.

Management judgment was required to determine that ECVMC did not meet the definition of a “business” and should not be accounted for as a business combination.

Combination of Entities under Common Control

A combination involving entities or business under common control is a combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the acquisition, and that is control is not transitory.

The Share Swap transaction was a transaction between entities under common control since at acquisition date on May 31, 2023, ECVMC and ECMRCI are under the common control of HGP Group.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Estimating Allowance for ECL on Trade and Other Receivables and Due from Related Parties

The Group uses a provision matrix to calculate ECLs for trade and other receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns. The provision matrix is initially based on the Group’s historical observed default rates. The Group calibrates the matrix to adjust the historical credit loss experience with forward-looking information. At every end of the reporting period, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed. The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group’s historical credit loss experience and forecast of economic conditions may also not be representative of customers’ actual default in the future. The information about the ECLs on the Group’s trade and other receivables is disclosed in Note 5.

For the Group's advances to related parties, the ECL is based on the 12-month ECL. The 12-month ECL is the proportion of lifetime ECL that results from default events on a financial instrument that are possible within twelve (12) months after the end of the reporting period. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment including forward looking information. Significant management's judgment and estimate is also required to determine the realizable amount of the financial asset based on cashflow forecast, which requires the use of significant assumptions.

As at December 31, 2024 and 2023, the carrying values of the Group's trade receivables amounted to ₱118,410,662 and ₱51,750,865, respectively, and the carrying values of the Group's due from related parties amounted to nil and ₱948,319,068. No allowance for expected credit losses were recognized as of December 31, 2024 and 2023 (see Notes 5 and 18).

Assessing Recoverability of Mining Rights

The application of the Group's accounting policy for mining rights requires judgements in determining whether it is likely that future economic benefits are certain. Mining rights shall be assessed for impairment when facts and circumstances suggest that the carrying amounts exceed the recoverable amounts. Estimates and assumptions made may change if new information becomes available. If, after mining rights are capitalized, information become available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written-off in the statements of comprehensive income in the period when the new information becomes available. An impairment loss is recognized when the carrying value of these assets do not exceed their fair value.

As at December 31, 2024 and 2023, mining rights amounted to ₱1,597,677,797 and ₱860,367,776, respectively. No allowance for impairment loss on mining rights were recognized as of December 31, 2024 and 2023, (see Note 9).

Assessing Unit-of-Production Depletion

Estimated recoverable mineral reserves are key inputs in determining the depletion of mining rights. This results in a depletion charge proportional to the depletion of the anticipated remaining mine life. Estimated recoverable mineral reserves for development projects is, to a large extent, based on the interpretation of geological data obtained from drill holes and other sampling techniques and feasibility studies, which derive estimates of costs based upon anticipated tonnage and grades of ores to be mined and processed, the configuration of the ore body, expected recovery rates from the ore, estimated operating costs, estimated climatic conditions and other factors.

Estimated recoverable reserves are used in determining the depletion of mining rights. This results in a depletion charge proportional to the depletion of the anticipated remaining mine life. Each item's life, which is assessed annually, has regard to both physical life limitations and to present assessments of economically recoverable reserves of the mine property at which the asset is located. The calculations require the use of estimates of future capital expenditure. The Group use the tons of ore produced as the basis for depletion. Any change in estimates is accounted for prospectively in accordance with PAS 8. Average depletion rates used by the Group in 2024, 2023 and 2022 are 8.41%, 7.05% and 5.52% in 2024, 2023 and 2022, respectively.

Assessing Recoverability of Deferred Exploration Costs

The application of the Group's accounting policy for deferred exploration costs requires judgment and estimates in determining whether it is likely that the future economic benefits are certain, which

may be based on assumptions about future events or circumstances. Estimates and assumptions may change if new information becomes available. If, after mine exploration costs are capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off and is recognized in the statement of comprehensive income in the period when the new information becomes available.

The Group reviews the carrying values of its mineral property interests whenever events or changes in circumstances indicate that their carrying values may exceed their estimated net recoverable amounts. An impairment loss is recognized when the carrying values of these assets are not recoverable and exceeds their fair value. There were no impairment losses recognized on the Group's deferred exploration costs in 2024 and 2023. No allowance for impairment loss was provided for deferred exploration costs as at December 31, 2024 and 2023. Deferred exploration costs amounted to ₱147,909,653 as at December 31, 2024 and 2023 (see Note 10).

Estimating Realizability of Deferred Tax Assets

The Group reviews the carrying amounts of deferred tax assets at each reporting date and reduces the amounts to the extent that it is no longer probable that sufficient future taxable income will be available to allow all or part of the deferred income tax assets to be utilized in the future. Significant management judgment is required to determine the amount of deferred income tax assets that can be recognized, based upon the likely timing and level of future taxable income together with future planning strategies.

The Group recognized deferred tax assets amounting to ₱6,520,171 and ₱6,047,671 million as of December 31, 2024 and 2023, respectively (see Note 17).

The Group did not recognize deferred tax assets on carryforward benefits of unused NOLCO and MCIT amounting to ₱268,763,028 and ₱93,310,511 as of December 31, 2024 and 2023, respectively and the Parent Company did not recognize deferred tax assets on carryforward benefits of unused NOLCO amounting to ₱100,271,959 and ₱93,310,511 as of December 31, 2024 and 2023, respectively, as management assessed that it is not probable that sufficient future taxable income will be available to allow all or part of deferred income tax assets to be utilized in the future (see Note 17).

Loan with SBC

Facility Loan

The Group and SBC executed a Loan Agreement wherein SBC granted the Group a loan facility amounting to ₱500 million with a prevailing SBC average lending rate of 8.75%, 7.75, and 6.875% in 2024, 2023, 2022. Total interest expense incurred amounted to ₱54,184,323, ₱13,660,411 and ₱9,060,000 in 2024, 2023 and 2022, respectively.

In 2024, the Group entered into a loan restructuring agreement with SBC, which included an additional loan of ₱40,000,000 and adding the unpaid interest amounting to ₱24,152,468 as part of the carrying amount of the loan.

Loan to shareholder

The Group availed a loan from its shareholder for a transportation equipment amounting to ₱2.69 million with an interest rate of 9.73% per annum. Total interest expense incurred amounted to ₱6,895, ₱83,938, and ₱171,962 in 2024, 2023 and 2022, respectively.

Loan with CMC

The Group and CMC executed a Loan Agreement wherein CMC granted the Group a loan facility amounting to ₱1,000 million with an interest rate of 3% per annum. The loan was issued in two tranches of ₱150 million in October 2015 and ₱850.0 million in December 2015.

As payment for the loan, CMC shall deduct 50% of the commission and royalties, net of withholding tax and interest, each time a commission, royalty or additional royalty is paid by CMC to the Group. The loan is secured by a Pledge Agreement between the CMC and ECMRCI

covering the latter's rights, interests, receivables, obligations, and liabilities over the Mineral Production Sharing Agreements (MPSAs) on the Cagdianao property owned by ECMRCI.

On March 28, 2019, the ECMRCI and CMC amended the Loan Agreement executed in 2015. The Company obtained an additional ₱280 million loan from CMC. The outstanding balance due to CMC under the original and amended Loan Agreements shall be paid by deducting 60% of the commission and royalties, net of withholding tax and interest payments, each time a commission, royalty or additional royalty is paid by CMC to ECMRCI.

Total interest expense incurred amounted to nil, ₱91,322 and ₱5,240,844 in 2024, 2023 and 2022, respectively.

b. Installment Payable

Equipment Financing

Starting 2020, the Group acquired various units of transportation equipment through a three-year financing agreement with SBC terms of (a) down payment of an average 30% and (b) the remaining balance payable in installments and will mature in accordance with terms and conditions of the agreements. The related nonfinancial assets were recognized since the lease term is for the major part of the economic life of the transportation equipment (see Note 7).

The future minimum lease payments for the obligations under finance lease on transportation equipment are as follows:

	Consolidated		Parent Company	
	2024	2023	2024	2023
Within one (1) year	₱118,639,920	₱59,925,655	₱-	₱-

Total interest expense incurred amounted to ₱17,740,255, ₱8,207,522 and ₱739,298 in 2024, 2023, and 2022, respectively.

13. Retirement Benefits Liability

The Group has an unfunded, noncontributory defined benefit plan covering all regular employees. Benefits are based on the employee's years of service and final plan salary. Under the existing regulatory framework, Republic Act 7641 requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

Retirement cost recognized in the statements of income follows:

The costs of defined benefit pension plan as well as the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. The principal assumptions used in determining pension for defined benefit plans are as follows:

	2024	2023
Discount rate	6.09%	6.13%
Future salary increase rate	11.00%	11.00%

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined retirement benefits obligation as at the end of the reporting period, assuming all other assumptions were held constant:

	Increase (decrease)	2024	2023
Discount rate	+100 basis points (bps)	(₱1,298,467)	(₱1,300,168)
	-100 bps	1,553,526	1,564,456
Future salary increase	+100 bps	₱1,464,298	₱1,474,968
	-100 bps	(1,256,136)	(1,258,329)

Shown below is the maturity analysis of the Group's undiscounted benefit payments as at December 31, 2024 and 2023:

	2024	2023
One year	₱9,556,843	₱9,459,042
More than one (1) year to five (5) years	1,214,571	990,872
More than five (5) years to ten (10) years	1,380,632	1,413,480

The average duration of the defined benefit obligation is 7.8 years and 8.1 years as at December 31, 2024 and 2023, respectively.

		₱2,895,535	₱—	₱—	₱2,895,535

The Group did not recognize deferred income tax asset on the carryforward benefits of unused NOLCO and MCIT, since management assessed that it is not probable that sufficient taxable income will be available to allow all or part of the deferred income tax asset to be utilized in the future.

18. Related Party Disclosures

Related party relationship exists when one party has the ability to control, directly or indirectly through one or more intermediaries, the other party or exercises significant influence over the other party in making financial and operating decisions. Such relationship also exists between and/or among entities, which are under the common control with the reporting enterprises and its key management personnel, directors, or its shareholders. In considering each related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

In the normal course of business, the Group has transactions with its affiliates and stockholders. Transactions pertain to advances from related parties to meet the Group's working capital requirements.

20. Segment Information

The Group is engaged in the business of mine exploration. Accordingly, the Group operates mainly in one reportable business and geographical segment which is the Philippines. No entity-wide disclosures pertaining to revenues are provided as the Parent Company has not earned revenue and is only a holding company. Noncurrent assets of the Group are located in the Philippines.

21. Financial Risk Management Objectives and Policies

The Group has risk management policies that systematically view the risks that could prevent the Group from achieving its objectives. These policies are intended to manage risks identified in such a way that opportunities to deliver the Group's objectives are achieved. The Group's risk management takes place in the context of day-to-day operations and normal business processes such as strategic and business planning. Management has identified each risk and is responsible for coordinating and continuously improving risk strategies, processes and measures in accordance with the Group's established business objectives.

The Group's principal financial instruments consist of cash in banks, trade and other receivables and due to/from related parties, trade and other payables, loan payables and installment payable. The main purpose of these financial instruments is to finance the Group's operations.

The main risks arising from the Group's or financial instruments are credit risk and liquidity risk. The BOD reviews and agrees policies for managing each of these risks and are summarized below:

Credit Risk

Credit risk refers to the potential loss arising from any failure by counterparties to fulfill their obligations as and when they fall due. The Group trades only with recognized, creditworthy parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis with the result that the Group's exposure to bad debts is not significant.

Since the Group trades only with recognized parties, there is no requirement for collateral.

The credit risk arising from these financial assets arises from default of the counterparty, with maximum exposure equal to the carrying amount of these instruments.

The table below shows the maximum exposure to credit risk of the Group's financial assets as at December 31, 2024 and 2023:

	Consolidated		Parent Company	
	2024	2023	2024	2023
Cash in banks	₱7,011,125	₱8,079,437	₱166,402	₱63,377
Trade and other receivables	114,035,099	47,197,489	—	—
Due from related parties	78,719,812	948,319,068	—	—
	₱199,766,036	₱1,003,595,994	₱166,402	₱63,377

For cash in banks, the Group has established probability of default (PD) rates based on available credit ratings published by third-party credit rating agencies. The credit ratings already consider forward-looking information. When a counterparty does not have published credit ratings, the Group benchmarks the credit ratings of comparable companies, adjusted to account for the difference in size and other relevant metrics.

While cash with banks are also subject to the impairment requirements of PFRS 9, the identified impairment loss was immaterial.

Trade and other receivables

The Group applies the PFRS 9 simplified approach in measuring ECL which uses a 12-month expected loss allowance for all trade receivables. The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

Below is the information about the credit risk exposure on the Group's trade and other receivables using a provision matrix:

ECL	₱—	₱—	₱—	₱—	₱—	₱—

Due from related parties

ECL on due from related parties are assessed based on either 12-month or lifetime ECL. The Group considers reasonable and supportable information such as historical experience and forward-looking information available at each reporting period to determine whether there has been a significant increase in credit risk since initial recognition. The Group determines the realizable amount of due from related parties based on cashflow forecast. The allowance for ECL on due from related parties is nil since the Group's expected cash flows to be received exceeds the contractual cash flows due. Some of the due from related parties are also secured with financial guarantee contract.

Liquidity Risk

Liquidity risk is the risk that the Group may be unable to meet its payment obligations when they fall due under normal and stress circumstances. To manage this risk, the Group maintains a balance between continuity of funding and flexibility of cash flows through cash planning.

As part of its overall liquidity management, the Group maintains sufficient levels of cash to meet working capital requirements. The Group avails of funds from related parties when needed.

The table below summarizes the maturity profile of the Group's financial liabilities and financial assets based on contractual undiscounted payments.

The Group has determined that the carrying amounts of cash in banks, trade receivables, trade and other payables (except government payables), advances from/to related parties and loans and installment payable, reasonably approximate their fair values because these are mostly short-term in nature.

There were no transfers between Level 1 and 2 fair value measurements and no transfers into and out of Level 3 fair value measurement as at December 31, 2024 and 2023.

22. Significant Contracts

Memorandum of Agreement with CMC

On November 19, 1997, the Group entered into a Memorandum of Agreement (MOA) with CMC which allows CMC to explore, develop and mine nickel ore and obliges it to comply with the terms of the MPSA.

Under the MPSA, CMC pays the Government an excise tax of 4%, and a 5% royalty, as the contract area is within the Surigao Mineral Reservation.

On December 18, 2015, the Group and CMC executed a Supplemental Agreement to provide for the automatic renewal of the term of the MOA for another twenty-five (25) years, or from 2022 to 2047. In consideration of the new term as well as the other conditions contained in the Supplemental Agreement, CMC granted a loan of P1,000.0 million to the Group.

Thereafter, CMC shall pay ECMRCI commission and royalties as follows:

- Commission equivalent to 3.5% on the gross sales amount of all nickel ore;
- Royalties equivalent to either 7% or 8.75% on the gross sales amount of all nickel ore depending on the monthly average LME nickel settlement price; and
- Additional royalty ranging from P10.0 million to P50.0 million depending on CMC's audited net income after tax less the additional royalty amount.

On March 28, 2019, the Group and CMC entered into a supplemental agreement amending the memorandum of agreement stating that after the full payment of ECMRCI's loan to CMC, royalty percentage rates will range from 2.50% to 4.50% depending on the monthly average LME nickel settlement price. In 2023, ECMRCI settled the loan to CMC, hence, the new royalty percentage rates became effective.

As at December 31, 2024, the survey plan for the MPSA renewal is already approved by the MGB and is awaiting for the approval of the DENR. On March 2, 2022, MGB ordered the renewal of the MPSA between the Government and Group for another twenty-five (25) years.

Operating Agreement with LMC

On April 26, 2012, the Group entered into an Operating Agreement with LMC which allows LMC to explore, develop, exploit and operate the mineral property located in Libjo, Dinagat Islands and to extract, mine, process, market, sell, dispose or convey any and all minerals and ores found therein during the lifetime of this Operating Agreement.

For and in consideration of the rights granted, LMC shall pay the Group a royalty equivalent to 3% on the gross sales amount of nickel sold.

Thereafter, the Group and LMC executed a Supplemental Agreement to provide for the following:

- Goodwill bonus amounting to ₱200.0 million, net of tax, to be paid within 15 days from the date of signing;
- Additional royalty equivalent to 4.0% on the gross sales amount of all nickel ore, net of tax; and Marketing share of one USD per WMT for all ores shipped out, net of tax.

Memorandum of Agreement with OVMPC

The Group has an existing MOA with OVMPC which allows OVMPC to explore, develop, exploit, operate and utilize the mineral property covered by this MOA subject to the provisions of MPSA granted by the Philippine Government. OVMPC shall carry on and conduct immediate exploration, commence development and utilization works within two years from the signing of MOA.

For and in consideration of the rights granted, OVMPC shall pay the Group a commission equivalent to 5% on the gross sales amount of nickel sold.

Memorandum of Agreement with Norte Este Corporation (Norte Este)

In 2021, the Group entered into an Operating Agreement with Norte Este which allows Norte Este to explore, develop, extract, operate and market the minerals in the Phase 3 Mineral Property located in Libjo, Dinagat Islands. Norte Este has also the right to construct and maintain roads, bridges, causeway, buildings, plants, and other improvements of all kinds as may be deemed necessary and convenient to its mining operations.

Thereafter, Norte Este shall pay the Group royalties and marketing as follows:

- Royalties ranging from 7% to 15% on the gross sales amount of all nickel ore depending on the monthly average LME nickel settlement price; and
- Marketing ranging from \$0.75 to \$3.50 on the gross sales amount of all nickel ore depending on the monthly average LME nickel settlement price; and

Memorandum of Agreement with Westernshore Nickel Corporation

In 2023, the Group entered into an Operating Agreement with Westernshore Nickel Corporation (WNC) which allows WNC to explore, develop, extract, operate and market the minerals in the Phase 2 Mineral Property located in Libjo, Dinagat Islands.

Thereafter, WNC shall pay the Group mining lease of 3% on the gross sales amount of all nickel ore depending on the monthly average LME nickel settlement price.

As at April 29, 2025, the Group's respective agreements with CMC, LMC, OVMPC and Norte Este have not been terminated and continue to be in full force and effect, subject to the supplemental terms agreed by the Group each with CMC, LMC, OVMPC and Norte Este.

In 2024, 2023 and 2022, the Group earned royalty income amounting to ₱112,330,287, ₱161,685,814 and ₱435,183,065, respectively, and commission and marketing income amounting to ₱103,839,957, ₱125,482,671 and ₱168,204,287, respectively from CMC, LMC and Norte Este. (Note 15).

No royalty and commission earned yet from OVMPC as the current MPSA is still under exploration phase.

Key Products and Services	Societal Value / Contribution to UN SDGs	Potential Negative Impact of Contribution	Management Approach to Negative Impact
Since the company has no operations and no employees in the past year, it has not produced any product or offered any services.	In the event that the company conducts business activities and realizes income, ECVC would be able to make significant contributions to local communities.	Until the company begins operations, it cannot make any significant contributions to help alleviate poverty in the local communities.	The company will find ways to help the poor and the marginalized in the barangay communities and consider social amelioration programs in its future business activities.

Issued and Outstanding Capital	6,630,000,000	6,630,000,000

The Company has revenue from rental of equipment amounting to ₱10.9 million for the period March 31, 2025 and has no revenue for the period March 31, 2024 and incurred a net loss of ₱20.8 million and ₱20.0 million, respectively. The net loss pertains mainly to finance cost, depreciation expenses and professional fees.

The Company has total assets of ₱2.1 Billion and ₱2.2 Billion as of the period ended March 31, 2025 and March 31, 2024, respectively. The decreased of assets is due to depreciation.

The Company's total liabilities decreased to ₱841.38 million as of March 31, 2025 as compared to ₱913.45 million as of March 31, 2024 due to decrease in related parties.

The Company's net worth decreased to P1.25 Billion as of March 31, 2025 compared to P1.32 Billion as of March 31, 2024. The decrease was due to the net losses incurred by the Company during the period and previous period.

The following discussion is based on the unaudited interim consolidated financial statements for the 1st quarter period ended March 31, 2025, with comparative figures for the corresponding periods in 2024 and audited consolidated financial statements as of December 31, 2024, prepared in conformity with Philippine Accounting Standards 34, Interim Financial Reporting and included herein, and should be read in conjunction with those unaudited interim consolidated financial statements.

Revenues

For the three-month period ended March 31, 2025, East Coast Mineral Resources Company Inc. , the subsidiary, holder of MPSA of Cagdianao Mining Corporation (CMC) and Libjo Mining Corporation (LMC), has no shipment during the period. The companies CMC and LMC has been doing the preparatory activities consisting primarily of restoration of mine pit, waste dump site, and settling pond, road widening, repair of haul roads and causeway improvement and expects to make shipments for the second and third quarter of 2025, which will increase the Company's income. The revenue earned from the leased of equipment to LMC.

General and admin exp.

General and admin expenses increase by 28.75% or ₱6.6 million from ₱22.96 million for the 1st quarter period last year to ₱16.36 million this year. The decrease was due to decrease in other and miscellaneous expenses.

Statement of Financial Position

Assets

The consolidated total assets of the Company increase by ₱86.8 thousand from ₱2.091 billion as of December 31, 2024 to ₱2.091 billion as of March 31, 2025. The minimal increase was mainly due to the following:

- **Trade and other receivable** decrease by ₱309 thousand or 0.26% from ₱118.4 million to ₱118.1 million in 2025 mainly due to the collection of trade receivable.
- **Advance to related parties** increase by ₱8.44 million in 2025 mainly due to advances.
- **Property and equipment** decrease by ₱7.7 million or 4.91% from ₱143.9 million to ₱136.8 million in 2025 due to depreciation and amortization

Liabilities

The consolidated total liabilities of the Company increase by ₱20.9 million from ₱820.46 million as of December 31, 2024 to ₱841.38 million as of March 31, 2025. The 2.55% increase was mainly due to the following:

- **Trade and other payable** increase by ₱17.3 million or 11.04% from ₱156.67 million to ₱173.97 million in 2025 mainly due to the increase of accounts payable account.
- **Advances from related party** increase by ₱5.9 million or 12.90% from ₱45.76 million to ₱51.67 million in 2025 mainly due to advances from Stockholders.

Equity

The stockholders' equity of the Company decreased by ₱20.83 million or 1.64% from ₱1.27 billion in 2024 to ₱1.25 billion as of March 31, 2025. This was due to the net loss incurred during the period.

Statement of Cash Flows

As of March 31, 2025, the net cash used in operating activities amounting to ₱1.02 million was mainly due to the increase in trade payable and decrease of advances to related parties. Net cash used for investing

activities amounting to ₱132.99 thousand was mainly due to increase in property equipment and other noncurrent asset. Net cash used for financing activities amounting to ₱671.65 thousand was primarily for payment of loan payable. The net effect of the foregoing operating, investing, and financing activities is a decrease of ₱1.82 million thousand in cash, leaving a balance of ₱5.29 million in cash during the period.

Item 2. Financial Statements

Liquidity Risk

Liquidity risk is the risk the Company will not be able to meet its financial obligations as they fall due. The Company's objective to managing liquidity risk is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking adverse effect to the Company's credit standing.

The company manages liquidity risk by maintaining balance between continuity of funding and flexibility. As part of its liquidity risk management, the Company regularly evaluates its projected cash flows.

The financial assets held by the Company for liquidity purposes consist of cash, all of the Company's financial liabilities are either due and demandable or payable within the year.

Equity Price Risk

Equity price risk is the risk that the value of a financial instrument will fluctuate because of changes in market prices. The Company is exposed to equity price risk because of quoted financial assets held by the Company, which are classified on the financial statements of consolidated balance sheets as AFS financial assets.

Financial instruments

The Company's financial instruments consist of cash. The main purpose of the financial instruments is to fund the Company's operations. The Company has various other financial instruments such as accrued expenses and other payables that arise directly from its operations.

Financial instruments are recognized initially at fair value, which is the fair value of the consideration given (in case of asset) or received (in case of a liability). The initial measurement of financial instruments, except for those financial assets and financial liabilities at fair value through profit or loss (FVPL), includes transaction cost.

On initial recognition, the Company classifies its financial assets in the following categories: Held-for-Maturity (HTM) investments, AFS financial assets, and loans and receivables. The classification depends on the purpose for which the investments were acquired and whether they are quoted in an active market. Management determines the classification of its financial assets at initial recognition and, where allowed and appropriate, re-evaluates such designation at every financial reporting date.

Under PAS 39, all financial liabilities are recognized initially at fair value and in case of loans and borrowings, plus directly attributable transaction costs. Financial liabilities are classified as FVPL, loans and borrowings and derivatives designated as hedging instruments in an effective hedge, as appropriate.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual agreement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity net of any related income tax benefits.

The Company's financial assets consist of loans and receivables and AFS investments. The Company's financial liabilities are classified as loans and borrowings. The Company has no financial assets and liabilities at FVPL and HTM investment.

The fair value of financial instruments that are actively traded in organized financial markets is determined by reference to quoted market bid prices at the close of business on the reporting date. For investments and all other financial instruments where there is no active market, fair value is determined by using generally accepted valuation techniques. Such techniques include using arm's length market transactions; reference to the current market value of another instrument, which are substantially the same; discounted cash flow analysis and other valuation models.

EAST COAST VULCAN MINING CORPORATION AND SUBSIDIARY

(Formerly East Coast Vulcan Corporation)

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information and Status of Operations

Corporate Information

East Coast Vulcan Mining Corporation (formerly, Vulcan Industrial & Mining Corporation, ECVMC, the Parent Company) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on January 13, 1953 and was listed in the Philippine Stock Exchange (PSE) on August 31, 1970. The primary and secondary purpose of ECVMC is as a holding company and such other purposes as management deems fit and in the best interest of the Parent Company.

Amendment of Articles of Incorporation

In 2021, the BOD and Stockholders have approved the following amendment in the Parent Company's Articles of Incorporation

- Change in corporate name to East Coast Vulcan Corporation;
- Change in principal office address to 15th Floor, High Rise, Pacific Star Building, 1226 Sen. Gil J. Puyat Ave., Makati City, Metro Manila; and,
- Increase in authorized capital stock from 4 billion shares to 12 billion shares.

In 2022, the Parent Company submitted its application for the amendment of Articles of Incorporation to the Philippine SEC. On May 29, 2023, the SEC approved the Parent Company's application for the amendment of its Articles of Incorporation.

ECVMC and ECMRCI Share-for-Share Swap Transaction

On July 1, 2021, the Parent Company entered into a Memorandum of Agreement (MOA) with the majority stockholders (HGP Group) of East Coast Mineral Resources Company Incorporated (ECMRCI) for the latter's subscription up to 5,180.00 million shares of ECVMC arising from the increase in authorized capital stock. Upon approval of the SEC on May 29, 2023, the Parent Company issued 5,180,000,000 common shares with par value of ₱ 1 per share to HGP Group in exchange for the 100% outstanding shares of ECMRCI ("the Share Swap transaction") which resulted in ECVMC obtaining 100% interest in and control over ECMRCI. ECVMC and its subsidiary, ECMRCI, are referred to as "the Group".

Status of Operations

As of April 29, 2025, the Group is a holder of three Mineral Product and Sharing Agreements (MPSA):

- MPSA-078-97-XIII-SMR issued on November 19, 1997 covering an area of 697.05 hectares in the Municipality of Cagdianao, Dinagat Islands. On March 22, 2022, the Mines and Geosciences Bureau (MGB) ordered the renewal of the MPSA between the Government and the Group for another twenty-five years. Exploration is done by and with Cagdianao Mining Corporation under a Memorandum of Agreement to explore and to operate for a period of 25 years which were renewed until 2047 (see Note 22).
- MPSA-233-2007-XIII-SMR issued in 2007 covering an area of 4,226.27 hectares in the Municipality of Libjo, Dinagat Islands. As an outcome of exploration works conducted, the area has a positive Nickel Ore Reserve of 30 million wet metric ton (WMT). Exploration is done by and with various operators, Libjo Mining Corporation, Westernshore Nickel Corporation and Norte Este Corporation, under a Memorandum of Agreement to explore and to operate during the lifetime of the MPSA (see Note 22).

- MPSA-232-2007-XIII-SMR covering an area of 248 hectares in the Municipality of Surigao del Norte, Hibuson Island. The area is now being explored by and with Oriental Vision Mining Philippines Corporation (OVMPC) (see Note 22).

In 2023, the BOD and Stockholders have approved the following amendment in the Parent Company's Articles of Incorporation

- Change in corporate name to East Coast Vulcan Mining Corporation;
- Change in principal office address to Unit 1502, Pacific Star Building, Sen. Gil J. Puyat Ave., Makati City, Metro Manila 1209; and
- The amount of capital stock of the Corporation is Twelve Billion Pesos (₱12,000,000,000.00), Philippine currency, and the said capital is divided into One Hundred Twenty Billion (120,000,000,000) common shares at the par value of Ten Centavos (₱0.10) per share.

In 2023, the Parent Company submitted its application for the amendment of Articles of Incorporation to the Philippine SEC. On April 19, 2024, the SEC approved the Parent Company's application for the amendment of its Articles of Incorporation.

The Company's registered office address is at Unit 1502, Pacific Star Building, Sen. Gil J. Puyat Ave., Makati City, Metro Manila 1209.

The Group's Ability to Continue as a Going Concern

The Group incurred net loss of ₱79,446,223 in 2023 and the Group's current liabilities exceeded its current assets by ₱598,152,624 as of December 31, 2024. In response to these matters, the Group came up with the following actions:

- Continuously coordinate with the respective operators of its MPSA to continue confirmatory and exploration activities to further enhance Ore Reserves/Resources
- manage expenditures for its day-to-day activities
- enter into loan restructuring agreements to negotiate deferral of payments of third-party loans
- proceed with the necessary actions to complete the requirements on its permit renewal
- improve efficiency and production level of operations through strategic operational changes and capital developments to increase cash inflows generated

Management has determined that the actions above are sufficient to raise financial resources for at least the next twelve months from December 31, 2024 and has therefore prepared the financial reporting on a going concern basis.

2. **Basis of Preparation, Statement of Compliance, Changes in Accounting Policies and Disclosures and Material Accounting Policy Information**

Basis of Preparation

The Group's and Parent Company's consolidated and parent company financial statements have been prepared under the historical cost basis. The consolidated and parent company financial statements are presented in Philippine peso (₱), which is the Group's and Parent Company's functional currency. All amounts are rounded to the nearest Philippine Peso, except as otherwise stated.

Acquisition of ECMRCI

As discussed in Note 1, ECVMC and HGP Group entered into a Share Swap transaction that resulted in ECVMC owning 100% of ECMRCI.

The Share Swap transaction is an asset acquisition because ECMRCI was deemed to be the accounting acquirer for accounting purposes accounted for under the reverse acquisition method following the guidance provided by the standard. In a reverse acquisition, the legal parent, ECVMC is identified as the acquiree for accounting purposes because based on the substance of the transaction, the legal subsidiary ECMRCI is adjudged to be the entity that gained control over the legal parent. Accordingly, the consolidated financial statements of ECVMC have been prepared as a continuation of the financial statements of ECMRCI. ECMRCI has accounted for the acquisition of ECMRCI on May 29, 2023, which was the date when ECMRCI acquired or gained control over ECVMC.

The Group determined that ECMRCI obtained control over ECVMC upon issuance of shares on

May 29, 2023. As allowed under PFRS 3, *Business Combinations*, an entity may designate an acquisition date of the end or the beginning of a month (convenience date), the date on which it closes its books, rather than the actual acquisition date. The Group determined that the date of acquisition is on May 29, 2023 (convenience date) rather than the actual date of issuance of shares there are no material transactions that occurred from May 29, 2023 to May 31, 2023.

The Share Swap transaction was a transaction between entities under common control since at acquisition date on May 31, 2023, ECVMC and ECMRCI are under the common control of HGP Group.

The comparative December 31, 2022 and January 1, 2022 information presented in the consolidated statements of changes in equity is that of ECMRCI, not originally presented in the previous financial statements of the legal parent (the Parent Company - accounting acquiree) and is also retroactively adjusted to reflect the legal capital (i.e., the number and type of capital stock issued) of ECVMC. The adjustment, which is the difference between the capital structure of ECVMC and ECMRCI, is recognized as part of the equity reserve in the consolidated statements of financial position as at December 31, 2024 and 2023.

Because the accompanying consolidated financial statements represent a continuation of the financial statements of ECMRCI, except for its capital structure, the consolidation reflects:

- a. The consolidated assets and liabilities of ECMRCI (legal subsidiary/accounting acquirer) recognized and measured at their pre-combination carrying amounts and not at fair value, and the assets and liabilities of ECVMC (legal parent/accounting acquiree), consisting of cash, prepayments, office equipment, trade and other payables and due to related parties, recognized and measured at acquisition cost;
- b. The retained earnings of ECMRCI for the full period together with the post-combination results of ECVMC from May 31, 2023, the date when ECVMC was acquired by ECMRCI;
- c. The total equity that shows the combined equity of ECVMC and ECMRCI with the legal capital of ECMRCI eliminated as the legal capital reflected would be that of ECVMC (legal parent);
- d. Any difference between the consideration transferred by ECVMC and the legal capital of ECMRCI that is eliminated is reflected as "Equity reserve".
- e. The consolidated statements of comprehensive income for the year ended December 31, 2022 and 2021 reflect that of ECMRCI for the full period.

Reverse acquisition applies only to the consolidated financial statements. The Parent Company financial statements will continue to represent ECVMC as a stand-alone entity as at December 31, 2024 and 2023 and for each of the three years in the period ended December 31, 2024.

Statement of Compliance

The consolidated and parent company financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Group as at December 31, 2024 and 2023 and for each of the three years in the period ended December 31, 2024. The financial statements of the subsidiary are prepared for the same reporting year as the Parent Company using uniform accounting policies. When necessary, adjustments are made to the separate financial statements of the subsidiary to bring its accounting policies in line with the Parent Company's accounting policies.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the non-controlling interests (NCI), even if this results in the NCI having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, NCI and other components of equity while any resulting gain or loss is recognized in the consolidated statement of income. Any investment retained is recognized at fair value.

NCI represents the interests in the subsidiaries not held by the Parent Company and are presented separately in the consolidated statement of income and within equity in the consolidated statement of financial position, separately from equity attributable to holders of

the Parent Company. NCI shares in losses even if the losses exceed the NCI in the subsidiary.

Changes in Accounting Policies and Disclosures

Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of amendments effective as at January 1, 2024. Unless otherwise indicated, adoption of the new standard did not have an impact on the consolidated financial statements of the Group.

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*
The amendments clarify:
 - That only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
 - That classification is unaffected by the likelihood that an entity will exercise its deferral right.
 - That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.
- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*
The amendments specify how a seller-lessee measures the lease liability arising in a sale and leaseback transaction in a way that it does not recognize any amount of the gain or loss that relates to the right of use retained.
- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*
The amendments specify disclosure requirements to enhance the current requirements, which are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. The Group intends to adopt the following pronouncements when they become effective. The adoption of future accounting standards is not expected to have a material impact on the Group's consolidated financial statements and parent company's financial statements.

Effective beginning on or after January 1, 2025

- PFRS 17, *Insurance Contracts*
- Amendments to PAS 21, *Lack of exchangeability*

Effective beginning on or after January 1, 2026

- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*
- Annual Improvements to PFRS Accounting Standards—Volume 11
 - Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
 - Amendments to PFRS 7, *Gain or Loss on Derecognition*
 - Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities and Transaction Price*
 - Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
 - Amendments to PAS 7, *Cost Method*

Effective beginning on or after January 1, 2027

- PFRS 18, *Presentation and Disclosure in Financial Statements*
- PFRS 19, *Subsidiaries without Public Accountability*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

Summary of Material Accounting Policies

The accounting policies set out below have been applied consistently to all periods presented in the Group's consolidated and parent company's financial statements, unless otherwise indicated.

Presentation of Financial Statements

The Group has elected to present all items of recognized income and expense in two statements: a statement displaying components of profit or loss (consolidated and parent company statement of income) and a second statement beginning with profit or loss and displaying components of OCI (consolidated and parent company statement of comprehensive income).

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated and parent company financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets: Initial Recognition and Measurement

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. The Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVTPL), transaction costs.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Contractual Cash Flows Characteristics

If the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, the Group assesses whether the cash flows from the financial asset represent 'solely payments of principal and interest' (SPPI) on the principal amount outstanding.

In making this assessment, the Group determines whether the contractual cash flows are consistent with a basic lending arrangement, i.e., interest includes consideration only for the time value of money, credit risk and other basic lending risks and costs associated with holding the financial asset for a particular period of time. In addition, interest can include a profit margin that is consistent with a basic lending arrangement. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual terms that introduce exposure to risks or volatility in the contractual cash flows that is unrelated to a basic lending arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI on the principal amount outstanding.

Financial Assets: Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments);
- Financial assets at FVTPL;
- Financial assets at fair value through other comprehensive income (FVOCI), where cumulative gains or losses previously recognized are reclassified to profit or loss (debt instruments); and
- Financial assets at FVOCI, where cumulative gains or losses previously recognized are not reclassified to profit or loss (equity instruments).

The Group's financial assets are all classified and measured at amortized cost.

Financial Assets at Amortized Cost

This category is most relevant to the Group. The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

These financial assets are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at amortized cost using the effective interest (EIR) method, less any impairment in value. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees and costs that are an integral part of the EIR. The amortization is included in "Interest income" in the statements of comprehensive income and is calculated by applying the EIR to the gross carrying amount of the financial asset, except for (i) purchased or originated credit-impaired financial assets and (ii) financial assets that have subsequently become credit-impaired, where, in both cases, the EIR is applied to the amortized cost of the financial asset.

The Group's financial asset at amortized cost includes cash in bank.

Impairment of Financial Assets

The Group recognizes expected credit losses (ECLs) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are measured in a way that reflects the following:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and

- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Financial assets migrate through the following three stages based on the change in credit quality since initial recognition:

Stage 1: 12-month ECL

For credit exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit-impaired upon origination, the portion of lifetime ECLs that represent the ECLs that result from default events that are possible within the 12 months after the reporting date are recognized.

Stage 2: Lifetime ECL - not credit-impaired

For credit exposures where there has been a significant increase in credit risk since initial recognition on an individual or collective basis but are not credit-impaired, lifetime ECLs representing the ECLs that result from all possible default events over the expected life of the financial asset are recognized.

Stage 3: Lifetime ECL - credit-impaired

Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of those financial assets have occurred. For these credit exposures, lifetime ECLs are recognized and interest revenue is calculated by applying the credit-adjusted EIR to the amortized cost of the financial asset.

For cash in bank, the Group applies the low credit risk simplification. The probability of default and loss given defaults are publicly available. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group uses the rating from external credit agencies to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial Liabilities: Initial Recognition and Measurement

Financial liabilities are classified, at initial recognition, as FVTPL, at amortized cost or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of financial liabilities at amortized cost, net of directly attributable transaction costs.

The Group's financial liabilities are all classified and measured at amortized cost.

Subsequent Measurement – Financial Liabilities at Amortized Cost

This is the category most relevant to the Group. After initial recognition, interest-bearing financial liabilities are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in the statements of comprehensive income when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as “Interest expense” in the statements of comprehensive income.

The Group’s financial liabilities at amortized cost consist of trade and other payables, due to related parties, loans payable and installment payable.

Reclassifications of Financial Instruments

The Group reclassifies its financial assets when, and only when, there is a change in the business model for managing the financial assets. Reclassifications shall be applied prospectively by the Group and any previously recognized gains, losses or interest shall not be restated. The Group does not reclassify its financial liabilities.

Derecognition of Financial Assets and Liabilities

Financial Assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

1. the rights to receive cash flows from the asset have expired;
2. the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
3. the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of the Group’s continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statements of comprehensive income.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statements of financial position if there is a currently enforceable legal right to set off the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Group assesses that it has a currently enforceable right

of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Group and all of the counterparties.

Prepayments and Other Current Assets

Prepayments and other current assets are composed of prepaid expenses, creditable withholding taxes (CWTs), advances to suppliers and contractors, and input value-added tax (VAT). These are classified as current when these are probable to be realized within one year from the end of the reporting period. Otherwise, these are classified as noncurrent assets.

Property and Equipment

Property and equipment are carried at cost, excluding the cost of day-to-day servicing, less accumulated depreciation and any accumulated impairment in value. The initial cost of an item of property and equipment consists of its purchase price including import duties, taxes, and any directly attributable costs of bringing the asset to its working condition and location of its intended use. Such costs include the cost of replacing part of such property and equipment when that cost is incurred, only if the recognition criteria are met. Expenditures incurred after the asset has been put into operation, such as repairs and maintenance, are normally charged to statement of comprehensive income in the period in which the costs are incurred.

In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment. Major maintenance cost that are capitalized as part of property and equipment are depreciated on straight-line basis over the shorter of their estimated useful life, typically the period until the next major maintenance or inspection.

Depreciation of property and equipment is computed using the straight-line basis, net of any estimated residual value, over their estimated useful lives as follows:

Category	Number of Years
Building and other structures	5
Furniture and fixtures	5
Office equipment	5
Tools and Equipment	5
Communications Equipment	5
Transportation equipment	7
Other equipment	5

Depreciation of property and equipment begins when it becomes available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Depreciation do not cease when the asset becomes idle or is retired from active use unless the asset is fully depreciated and amortized. Depreciation of an asset ceases when the asset is derecognized.

Each part of an item of property and equipment with a cost that is significant in relation to the total cost of an item shall be depreciated and amortized separately.

The useful lives and depreciation method are reviewed at each reporting date to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the property and equipment (calculated as the difference between the net disposal proceeds and the carrying amount of the property and equipment) is recognized in the statements of comprehensive income in the year the property and equipment is derecognized.

When items of property and equipment are retired or otherwise disposed of, their cost and related accumulated depreciation and amortization and any impairment in value are eliminated from the accounts and any resulting gain or loss on disposal is included in the statements of comprehensive income.

Fully depreciated and amortized assets are retained in the accounts until they are no longer in use and no further depreciation is recorded.

Intangible Asset

Intangible assets are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization in the case of intangible assets with finite useful lives, and any accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortized over the asset's useful or economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Amortization shall begin when the asset is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

The amortization period and method for an intangible asset with a finite useful life is reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates. The amortization on intangible assets with finite lives is recognized in the statements of comprehensive income consistent with the function of the intangible asset.

The Group's intangible asset pertains to the acquired computer software, which is estimated to have a useful life of five (5) years.

Intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in the statement of comprehensive income.

Mining Rights

Mining rights are identifiable intangible assets acquired by the entity to explore, extract, and retain, at least, a portion of the benefits from mineral deposits. Mining rights shall be recognized if it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably.

Mining rights pertain to the right of the Group as the holder of the MPSA-078-97-XIII-SMR located in Cagdianao, Dinagat Islands, MPSA-233-2007-XIII-SMR located in Libjo, Dinagat Islands and MPSA-232-2007-XIII-SMR located in Surigao del Norte, Hibuson Island. The mining rights is acquired through the assignment of MPSA from CMC, LMC, Norte Este and WNC.

Mining rights with finite useful life is stated at cost less amortization and accumulated impairment in value. Impairment assessments are made if events or changes in circumstances indicate that a carrying value of the assets may not be recoverable.

The net carrying amount of mining rights of the Group is amortized using the units of production method based on the estimated economically recoverable reserves to which they relate or are written off if the properties covered by the mining rights are abandoned.

Deferred Exploration Costs

Costs incurred during the start-up phase of a mine are expensed as incurred. Ongoing mining expenditures on producing properties are charged against earnings as incurred.

Expenditures for mine exploration work prior to drilling are charged to operations. When it has been established that a mineral deposit is commercially mineable and a decision has been made to formulate a mining plan (which occurs upon completion of a positive economic analysis of the mineral deposit), the costs subsequently incurred to develop a mine on the property prior to the start of mining operations are capitalized. Upon the start of commercial operations, such costs are transferred to mine and mining properties under "Property and equipment". Capitalized amounts may be written down if future cash flows, including potential sales proceeds related to the property, are projected to be less than the carrying value of the property. If no mineable ore body is discovered, capitalized acquisition costs are expensed in the period in which it is determined that the mineral property has no future economic value.

Major development expenditures incurred to expose the ore, increase production or extend the life of an existing mine are capitalized.

Impairment of Nonfinancial Assets

Nonfinancial prepayments and other current and noncurrent assets

The Group assesses at each financial reporting date, its prepayments and other current assets and deposits and other noncurrent assets to determine whether there is any indication that the assets may be impaired. If there is an indication of possible impairment, the recoverable amount of prepayments and other current assets and deposits and other noncurrent assets is

estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognized immediately in the statements of comprehensive income.

The Group provides allowance for impairment losses on nonfinancial prepayments and other current assets and deposits and other noncurrent assets when they can no longer be realized. The amounts and timing of recorded expenses for any period would differ if the Group made different judgments or utilized different estimates. An increase in allowance for impairment losses would increase recorded expenses and decrease prepayments and other current assets and deposits and other noncurrent assets.

Property and equipment, intangible assets and mining rights

The Group assesses at each financial reporting date whether there is an indication that property and equipment may be impaired. If any such indication exists, or when the annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell (FVLCS) and its value-in-use (VIU) and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing VIU, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining FVLCS, an appropriate valuation model is used, with the calculations corroborated by other available fair value indicators. Any impairment loss is recognized in the statements of comprehensive income in those expense categories consistent with the function of the impaired asset.

Recovery of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the asset no longer exist or have decreased. The recovery is recorded in the statements of comprehensive income. However, the increased carrying amount of an asset due to a recovery of an impairment loss is recognized to the extent that it does not exceed the carrying amount that would have been determined (net of depreciation and amortization) had no impairment loss been recognized for that asset in prior years.

Deferred exploration costs

An impairment review is performed, either individually or at the CGU level, when there are indicators that the carrying amount of the assets may exceed their recoverable amounts. To the extent that this occurs, the excess is fully provided against, at the end of the reporting period in which this is determined.

Deferred exploration costs are reassessed on a regular basis. Facts and circumstances that would require an impairment assessment as set forth in PFRS 6, *Exploration for and Evaluation of Mineral Resources*, are as follows:

- The period for which the Group has the right to explore in the specific area has expired or will expire in the near future, and is not expected to be renewed
- Substantive expenditure on further exploration and evaluation of mineral resources in the specific area is neither budgeted nor planned
- Exploration for and evaluation of mineral resources in the specific area have not led to the discovery of

- commercially viable quantities of mineral resources and the Group has decided to discontinue such activities in the specific area
- When a service contract where the Group has participating interest in is permanently abandoned, and
 - Sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

Retirement Benefits Costs

The Group has a non-funded, non-contributory defined retirement benefit plan covering substantially all its employees. The retirement benefits costs are actuarially determined using the projected unit credit method and incorporates assumptions concerning employees' projected salaries.

Retirement benefits costs comprise of the following:

- Service cost
- Net interest on the net retirement benefit liability or asset
- Remeasurements of net retirement benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in statements of comprehensive income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest cost on the retirement benefit liability or asset is the change during the period in the net retirement liability that arises from the passage of time which is determined by applying the discount rate in government bonds to the net retirement benefit liability, determined at the start of the period, after considering any payments to the net retirement benefit liability during the period. Interest on the retirement benefit liability is recognized as finance expense in the statements of comprehensive income.

Remeasurements comprising actuarial gains and losses were previously recognized immediately in statements of comprehensive income in the period in which they arise.

Capital Stock

The Parent Company has issued capital stock that is classified as equity and recorded at par. Incremental costs incurred directly attributable to the issuance of new shares are deducted from additional paid-in capital (APIC). If APIC is not sufficient, the excess is charged against retained earnings (deficit).

Subscription Receivable

Subscription receivable pertains to the amount of subscribed capital stock less the amount paid-up. Subscription receivable is presented as deduction from capital stock.

Basic/Diluted Earnings/Losses Per Share

Basic earnings/losses per share is computed by dividing net loss attributable to equity holders of the Group for the year by the weighted average number of common shares outstanding during the year after giving retroactive effect to stock dividends declared and stock rights exercised during the year, if any. The Group currently does not have potential dilutive common shares.

Retained earnings (deficit)

Retained earnings (deficit) includes accumulated profits and losses attributable to the Group's stockholders. Retained earnings (deficit) may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Equity Reserve

Equity reserve represents the residual amount recognized in the consolidated financial statements to reflect the equity of the legal subsidiary (accounting acquirer) before the business combination, which was accounted for as a reverse acquisition. However, the equity structure (i.e., the number and type of equity instruments issued) still reflects the equity structure of the legal parent (accounting acquiree), including the equity instruments issued by the legal parent to effect the combination.

Reverse Acquisitions

Consolidated financial statements prepared following a reverse acquisition are issued under the name of the legal parent (accounting acquiree) but described in the notes as a continuation of the financial statements of the legal subsidiary (accounting acquirer), with one adjustment, which is to adjust retroactively the accounting acquirer's legal capital to reflect the legal capital of the accounting acquiree. That adjustment is required to reflect the capital of the legal parent (the accounting acquiree). Comparative information presented in those consolidated financial statements also is retroactively adjusted to reflect the legal capital of the legal parent (accounting acquiree).

Combination of Entities under Common Control

Combination of entities under common control are accounted for by applying the pooling-of-interest method. The pooling-of-interests method generally involved the following:

- The assets and liabilities of the combining entities are reflected in the consolidated financial statements at their carrying amounts. No adjustments are made to reflect fair value or recognize any new assets or liabilities at the date of combination. The only adjustments that are made are those adjustments to harmonize the accounting policies.
- No new goodwill is recognized as a result of the combination. The only goodwill that is recognized is any existing goodwill relating to either of the combining entities. Any difference between the consideration paid or transferred and the entity acquired is reflected within equity.
- The consolidated statement of income, comprehensive income and cash flows reflect the result of the combining entities in full, irrespective of when the combination takes place.
- Comparative financial information are presented as if the entities had always been combined, or on the date the common control existed on the combining entities, whichever comes earlier.
- The effects of any intercompany transactions are eliminated to the extent possible.

OCI

OCI includes items of income and expenses (including items previously presented under statement of changes in equity) that are not recognized in the statement of comprehensive income for the year in accordance with PFRSs.

Revenue from Contracts with Customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent.

The following specific recognition criteria must also be met before revenue is recognized:

Royalty income

Royalty income is main source of revenue and is recognized from the share of sale of export of raw minerals by the Operators which rate is equivalent to certain percentage of gross receipts as stated in the agreements with various Operators.

Commission and marketing income

Commission income is recognized either based on the ore price per WMT at the date of loading and also equivalent to certain percentage of gross receipts depending on the agreement with various operators.

Other income

Other income is recognized as they are earned.

Expense Recognition

Costs and expenses are decreases in economic benefits during the accounting period in the form of outflows or decreases of assets or incurrence of liabilities that result in decreases in equity other than those relating to distributions to equity participants. Costs and expenses are recognized when the services are used, or the expense arises.

General and administrative expenses

General and administrative expenses consist of costs associated with the development and execution of day-to-day operations of the Group. These are generally recognized when the service is incurred or the related expense arises.

Other charges

Other charges are recognized as they are incurred.

Income Taxes

Current Income Tax

Current income tax assets and liabilities for the current and prior year periods are measured at the amount expected to be recovered from, or paid to, the tax authority. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as at the reporting date.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions when appropriate.

Deferred Income Tax

Deferred income tax is provided, using the liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax assets are recognized for all deductible temporary differences, carryforward of unused tax credits and unused net operating loss carry-over (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward benefits of unused tax credits and unused NOLCO can be utilized.

Deferred income tax liabilities are recognized for all taxable temporary differences.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax assets to be utilized. Unrecognized deferred income tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred income tax assets to be recovered.

Deferred income tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

OCI

OCI comprises items of income and expense (including items previously presented under the consolidated statement of changes in equity) that are not recognized in profit or loss for the year in accordance with PFRSs.

Segment Reporting

An operating segment is a component of an entity that: (a) engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity); (b) whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; and (c) for which discrete financial information is available.

The Group has only one business and geographical segment.

Related Party Transactions

Transactions with related parties accounted for based on the nature and substance of the agreement, and financial effects are included in the appropriate asset, liabilities, income and expense accounts.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statements of comprehensive income, net of any reimbursement.

Contingencies

Contingent liabilities are not recognized in the financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent asset are not recognized in the financial statements but disclosed in the notes to financial statements when an inflow of economic benefits is probable.

Events After the Reporting Date

Post year-end events that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are non-adjusting events are disclosed in the notes to the financial statements when material.

3. Significant Accounting Judgments, Estimates and Assumptions

The Group's financial statements prepared in accordance with PFRSs require management to make judgment, estimates and assumptions that affect the amounts reported in the financial statements and related notes. The estimates and assumptions used in the financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the Group's financial statements. Actual results could differ from such estimates.

Judgments, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Group's accounting policies, management has made the following significant judgments, apart from those including estimations and assumptions, which have the most significant effect on the amounts recognized in the financial statements.

Assessing Going Concern

The use of going concern assumption requires management to make judgments at a particular point in time about the future outcome of events and conditions that are inherently uncertain. The underlying assumption in the preparation of financial statements is that the Group has neither the intention nor the need to liquidate the business.

Note 1 to the consolidated financial statements discusses the matters considered by management in concluding the appropriateness of the use of going concern assumption in the preparation of the financial statements. These matters include continuously coordinate with the respective operators of its MPSA to continue confirmatory and exploration activities to further enhance Ore Reserves/Resources, confirmatory and exploration activities to further enhance Ore Reserves/Resources, management of expenditure for its day-to-day activities, enter into loan restructuring agreements to negotiate deferral of payments of third-party loans, proceed with the necessary actions to complete the requirements on its permit renewal and improvement of the efficiency of the production level of operations through strategic operational changes and capital developments to increase cash inflows. As such, the financial statements have been prepared on a going concern basis of accounting.

Accounting for the reverse acquisition of ECVMC and ECMRCI

As discussed in Notes 1 and 2, as at May 31, 2023, the equity share swap transaction between ECVMC and ECMRCI became effective.

Management judgment was required to determine that ECVMC did not meet the definition of a “business” and should not be accounted for as a business combination.

Combination of Entities under Common Control

A combination involving entities or business under common control is a combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the acquisition, and that is control is not transitory.

The Share Swap transaction was a transaction between entities under common control since at acquisition date on May 31, 2023, ECVMC and ECMRCI are under the common control of HGP Group.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Estimating Allowance for ECL on Trade and Other Receivables and Due from Related Parties

The Group uses a provision matrix to calculate ECLs for trade and other receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns. The provision matrix is initially based on the Group’s historical observed default rates. The Group calibrates the matrix to adjust the historical credit loss experience with forward-looking information. At every end of the reporting period, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed. The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group’s historical credit loss experience and forecast of economic conditions may also not be representative of customers’ actual default in the future. The information about the ECLs on the Group’s trade and other receivables is disclosed in Note 5.

For the Group’s advances to related parties, the ECL is based on the 12-month ECL. The 12-month ECL is the proportion of lifetime ECL that results from default events on a financial instrument that are possible within twelve (12) months after the end of the reporting period. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group’s historical experience and informed credit assessment including forward looking information. Significant management’s judgment and estimate is also required to determine the realizable amount of the financial asset based on cashflow forecast, which requires the use of significant assumptions.

As at December 31, 2024 and 2023, the carrying values of the Group’s trade receivables amounted to ₱118,410,662 and ₱51,750,865, respectively, and the carrying values of the Group’s due from related parties amounted to nil and ₱948,319,068. No allowance for expected credit losses were recognized as of December 31, 2024 and 2023 (see Notes 5 and 18).

Assessing Recoverability of Mining Rights

The application of the Group's accounting policy for mining rights requires judgements in determining whether it is likely that future economic benefits are certain. Mining rights shall be assessed for impairment when facts and circumstances suggest that the carrying amounts exceed the recoverable amounts. Estimates and assumptions made may change if new information becomes available. If, after mining rights are capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written-off in the statements of comprehensive income in the period when the new information becomes available. An impairment loss is recognized when the carrying value of these assets do not exceed their fair value.

As at December 31, 2024 and 2023, mining rights amounted to ₱1,597,677,797 and ₱860,367,776, respectively. No allowance for impairment loss on mining rights were recognized as of December 31, 2024 and 2023, (see Note 9).

Assessing Unit-of-Production Depletion

Estimated recoverable mineral reserves are key inputs in determining the depletion of mining rights. This results in a depletion charge proportional to the depletion of the anticipated remaining mine life. Estimated recoverable mineral reserves for development projects is, to a large extent, based on the interpretation of geological data obtained from drill holes and other sampling techniques and feasibility studies, which derive estimates of costs based upon anticipated tonnage and grades of ores to be mined and processed, the configuration of the ore body, expected recovery rates from the ore, estimated operating costs, estimated climatic conditions and other factors.

Estimated recoverable reserves are used in determining the depletion of mining rights. This results in a depletion charge proportional to the depletion of the anticipated remaining mine life. Each item's life, which is assessed annually, has regard to both physical life limitations and to present assessments of economically recoverable reserves of the mine property at which the asset is located. The calculations require the use of estimates of future capital expenditure. The Group use the tons of ore produced as the basis for depletion. Any change in estimates is accounted for prospectively in accordance with PAS 8. Average depletion rates used by the Group in 2024, 2023 and 2022 are 8.41%, 7.05% and 5.52% in 2024, 2023 and 2022, respectively.

Assessing Recoverability of Deferred Exploration Costs

The application of the Group's accounting policy for deferred exploration costs requires judgment and estimates in determining whether it is likely that the future economic benefits are certain, which may be based on assumptions about future events or circumstances. Estimates and assumptions may change if new information becomes available. If, after mine exploration costs are capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off and is recognized in the statement of comprehensive income in the period when the new information becomes available.

The Group reviews the carrying values of its mineral property interests whenever events or changes in circumstances indicate that their carrying values may exceed their estimated net recoverable amounts. An impairment loss is recognized when the carrying values of these assets are not recoverable and exceeds their fair value. There were no impairment losses recognized on the Group's deferred exploration costs in 2024 and 2023. No allowance for impairment loss was provided for deferred exploration costs as at December 31, 2024 and 2023. Deferred exploration costs amounted to ₱147,909,653 as at December 31, 2024 and 2023 (see Note 10).

Estimating Realizability of Deferred Tax Assets

The Group reviews the carrying amounts of deferred tax assets at each reporting date and reduces the amounts to the extent that it is no longer probable that sufficient future taxable income will be available to allow all or part of the deferred income tax assets to be utilized in the future. Significant management judgment is required to determine the amount of deferred income tax assets that can be recognized, based upon the likely timing and level of future taxable income together with future planning strategies.

The Group recognized deferred tax assets amounting to ₱6,520,171 and ₱6,047,671 million as of December 31, 2024 and 2023, respectively (see Note 17).

The Group did not recognize deferred tax assets on carryforward benefits of unused NOLCO and MCIT amounting to ₱268,763,028 and ₱93,310,511 as of December 31, 2024 and 2023, respectively and the Parent Company did not recognize deferred tax assets on carryforward benefits of unused NOLCO amounting to ₱100,271,959 and ₱93,310,511 as of December 31, 2024 and 2023, respectively, as management assessed that it is not probable that sufficient future taxable income will be available to allow all or part of deferred income tax assets to be utilized in the future (see Note 17).

Loan with SBC

Facility Loan

The Group and SBC executed a Loan Agreement wherein SBC granted the Group a loan facility amounting to ₱500 million with a prevailing SBC average lending rate of 8.75%, 7.75, and 6.875% in 2024, 2023, 2022. Total interest expense incurred amounted to ₱54,184,323,

₱13,660,411 and ₱9,060,000 in 2024, 2023 and 2022, respectively.

In 2024, the Group entered into a loan restructuring agreement with SBC, which included an additional loan of ₱40,000,000 and adding the unpaid interest amounting to ₱24,152,468 as part of the carrying amount of the loan.

Loan to shareholder

The Group availed a loan from its shareholder for a transportation equipment amounting to

₱2.69 million with an interest rate of 9.73% per annum. Total interest expense incurred amounted to ₱6,895, ₱83,938, and ₱171,962 in 2024, 2023 and 2022, respectively.

Loan with CMC

The Group and CMC executed a Loan Agreement wherein CMC granted the Group a loan facility amounting to ₱1,000 million with an interest rate of 3% per annum. The loan was issued in two tranches of ₱150 million in October 2015 and ₱850.0 million in December 2015.

As payment for the loan, CMC shall deduct 50% of the commission and royalties, net of withholding tax and interest, each time a commission, royalty or additional royalty is paid

by CMC to the Group. The loan is secured by a Pledge Agreement between the CMC and ECMRCI covering the latter's rights, interests, receivables, obligations, and liabilities over the Mineral Production Sharing Agreements (MPSAs) on the Cagdianao property owned by ECMRCI.

On March 28, 2019, the ECMRCI and CMC amended the Loan Agreement executed in 2015. The Company obtained an additional ₱280 million loan from CMC. The outstanding balance due to CMC under the original and amended Loan Agreements shall be paid by deducting 60% of the commission and royalties, net of withholding tax and interest payments, each time a commission, royalty or additional royalty is paid by CMC to ECMRCI.

Total interest expense incurred amounted to nil, ₱91,322 and ₱5,240,844 in 2024, 2023 and 2022, respectively.

b. Installment Payable

Equipment Financing

Starting 2020, the Group acquired various units of transportation equipment through a three-year financing agreement with SBC terms of (a) down payment of an average 30% and (b) the remaining balance payable in installments and will mature in accordance with terms and conditions of the agreements. The related nonfinancial assets were recognized since the lease term is for the major part of the economic life of the transportation equipment (see Note 7).

The future minimum lease payments for the obligations under finance lease on transportation equipment are as follows:

	Consolidated		Parent Company	
	MAR 31, 2025	2024	MAR 31, 2025	2024

13. Retirement Benefits Liability

The Group has an unfunded, noncontributory defined benefit plan covering all regular employees. Benefits are based on the employee's years of service and final plan salary. Under the existing regulatory framework, Republic Act 7641 requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law

does not require minimum funding of the plan.

The costs of defined benefit pension plan as well as the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. The principal assumptions used in determining pension for defined benefit plans are as follows:

	MAR 31, 2025	2024
Discount rate	6.09%	6.09%
Future salary increase rate	11.00%	11.00%

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined retirement benefits obligation as at the end of the reporting period, assuming all other assumptions were held constant:

	Increase (decrease)	MAR 31, 2025	2024
Discount rate	+100 basis points (bps)	(₱1,298,467)	(₱1,298,467)

In 2021, the Parent Company entered into a MOA with majority stockholders of ECMRCI for the latter's subscription up to 5.18 billion shares of the Parent Company arising from the increase in authorized capital stock. Such increase in authorized capital stock from 4 billion shares to 12 billion shares has been approved by the BOD and Stockholders.

On May 29, 2023, the SEC approved the Parent Company's application for the amendment of Articles of Incorporation in relation to the increase in authorized capital stock from 4,000,000,000 shares to 12,000,000,000 shares. On the same date, the Parent Company issued 5,100,000,000 common shares with par value of ₱1 per share to HGP Group in exchange for the 100% outstanding shares of ECMRCI. The Group incurred ₱73,141,470 transactions costs in relation to the issuance of the capital stock, which the Parent Company availed from its related parties.

The table below provides information regarding the number of stockholders of the Parent Company as of March 31, 2025, 2024 and 2023:

18. Related Party Disclosures

Related party relationship exists when one party has the ability to control, directly or indirectly through one or more intermediaries, the other party or exercises significant influence over the other party in making financial and operating decisions. Such relationship also exists between and/or among entities, which are under the common control with the reporting enterprises and its key management personnel, directors, or its shareholders. In considering each related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

In the normal course of business, the Group has transactions with its affiliates and stockholders. Transactions pertain to advances from related parties to meet the Group's working capital requirements.

20. Segment Information

The Group is engaged in the business of mine exploration. Accordingly, the Group operates mainly in one reportable business and geographical segment which is the Philippines. No entity-wide disclosures pertaining to revenues are provided as the Parent Company has not earned revenue and is only a holding company. Noncurrent assets of the Group are located in the Philippines.

21. Financial Risk Management Objectives and Policies

The Group has risk management policies that systematically view the risks that could prevent the Group from achieving its objectives. These policies are intended to manage risks identified in such a way that opportunities to deliver the Group's objectives are achieved. The Group's risk management takes place in the context of day-to-day operations and normal business processes such as strategic and business planning. Management has identified each risk and is responsible for coordinating and continuously improving risk strategies, processes and measures in accordance with the Group's established business objectives.

The Group's principal financial instruments consist of cash in banks, trade and other receivables and due to/from related parties, trade and other payables, loan payables and installment payable. The main purpose of these financial instruments is to finance the Group's operations.

The main risks arising from the Group's or financial instruments are credit risk and liquidity risk. The BOD reviews and agrees policies for managing each of these risks and are summarized below:

Credit Risk

Credit risk refers to the potential loss arising from any failure by counterparties to fulfill their obligations as and when they fall due. The Group trades only with recognized, creditworthy parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis with the result that the Group's exposure to bad debts is not significant.

Since the Group trades only with recognized parties, there is no requirement for collateral. The credit risk arising from these financial assets arises from default of the counterparty, with maximum exposure equal to the carrying amount of these instruments.

The table below shows the maximum exposure to credit risk of the Group's financial assets as at March 31, 2025 and 2024:

	Consolidated		Parent Company	
	MAR 31, 2025	2024	MAR 31, 2025	2024
Cash in banks	₱5,025,385	₱7,011,125	₱166,425	₱166,402
Trade and other receivables	114,608,725	114,035,099	—	—
Due from related parties	8,441,927	78,719,812	—	—
	₱128,076,037	₱199,766,036	₱166,425	₱166,402

For cash in banks, the Group has established probability of default (PD) rates based on available credit ratings published by third-party credit rating agencies. The credit ratings already consider forward-looking information. When a counterparty does not have published credit ratings, the Group benchmarks the credit ratings of comparable companies, adjusted to account for the difference in size and other relevant metrics.

While cash with banks are also subject to the impairment requirements of PFRS 9, the identified impairment loss was immaterial.

Trade and other receivables

The Group applies the PFRS 9 simplified approach in measuring ECL which uses a 12-month expected loss allowance for all trade receivables. The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

Below is the information about the credit risk exposure on the Group's trade and other receivables using a provision matrix:

ECL	₱—	₱—	₱—	₱—	₱—	₱—

Due from related parties

ECL on due from related parties are assessed based on either 12-month or lifetime ECL. The Group considers reasonable and supportable information such as historical experience and forward-looking information available at each reporting period to determine whether there has been a significant increase in credit risk since initial recognition. The Group determines the realizable amount of due from related parties based on cashflow forecast. The allowance for ECL on due from related parties is nil since the Group's expected cash flows to be received exceeds the contractual cash flows due. Some of the due from related parties are also secured with financial guarantee contract.

Liquidity Risk

Liquidity risk is the risk that the Group may be unable to meet its payment obligations when they fall due under normal and stress circumstances. To manage this risk, the Group maintains a balance between continuity of funding and flexibility of cash flows through cash planning.

As part of its overall liquidity management, the Group maintains sufficient levels of cash to meet working capital requirements. The Group avails of funds from related parties when needed.

22. Significant Contracts

Memorandum of Agreement with CMC

On November 19, 1997, the Group entered into a Memorandum of Agreement (MOA) with CMC which allows CMC to explore, develop and mine nickel ore and obliges it to comply with the terms of the MPSA.

Under the MPSA, CMC pays the Government an excise tax of 4%, and a 5% royalty, as the contract area is within the Surigao Mineral Reservation.

On December 18, 2015, the Group and CMC executed a Supplemental Agreement to provide for the automatic renewal of the term of the MOA for another twenty-five (25) years, or from 2022 to 2047. In consideration of the new term as well as the other conditions contained in the Supplemental Agreement, CMC granted a loan of ₱1,000.0 million to the Group.

Thereafter, CMC shall pay ECMRCI commission and royalties as follows:

- Commission equivalent to 3.5% on the gross sales amount of all nickel ore;
- Royalties equivalent to either 7% or 8.75% on the gross sales amount of all nickel ore depending on the monthly average LME nickel settlement price; and
- Additional royalty ranging from ₱10.0 million to ₱50.0 million depending on CMC's audited net income after tax less the additional royalty amount.

On March 28, 2019, the Group and CMC entered into a supplemental agreement amending the memorandum of agreement stating that after the full payment of ECMRCI's loan to CMC, royalty percentage rates will range from 2.50% to 4.50% depending on the monthly average LME nickel settlement price. In 2023, ECMRCI settled the loan to CMC, hence, the new royalty percentage rates became effective.

As at December 31, 2024, the survey plan for the MPSA renewal is already approved by the MGB and is awaiting for the approval of the DENR. On March 2, 2022, MGB ordered the renewal of the MPSA between the Government and Group for another twenty-five (25) years.

Operating Agreement with LMC

On April 26, 2012, the Group entered into an Operating Agreement with LMC which allows LMC to explore, develop, exploit and operate the mineral property located in Libjo, Dinagat Islands and to extract, mine, process, market, sell, dispose or convey any and all minerals and ores found therein during the lifetime of this Operating Agreement.

For and in consideration of the rights granted, LMC shall pay the Group a royalty equivalent to 3% on the gross sales amount of nickel sold.

Thereafter, the Group and LMC executed a Supplemental Agreement to provide for the following:

- Goodwill bonus amounting to ₱200.0 million, net of tax, to be paid within 15 days from the date of signing;
- Additional royalty equivalent to 4.0% on the gross sales amount of all nickel ore, net of tax; and Marketing share of one USD per WMT for all ores shipped out, net of tax.

Memorandum of Agreement with OVMPC

The Group has an existing MOA with OVMPC which allows OVMPC to explore, develop, exploit, operate and utilize the mineral property covered by this MOA subject to the provisions of MPSA granted by the Philippine Government. OVMPC shall carry on and conduct immediate exploration, commence development and utilization works within two years from the signing of MOA.

For and in consideration of the rights granted, OVMPC shall pay the Group a commission equivalent to 5% on the gross sales amount of nickel sold.

Memorandum of Agreement with Norte Este Corporation (Norte Este)

In 2021, the Group entered into an Operating Agreement with Norte Este which allows Norte Este to explore, develop, extract, operate and market the minerals in the Phase 3 Mineral Property located in Libjo, Dinagat Islands. Norte Este has also the right to construct and maintain roads, bridges, causeway, buildings, plants, and other improvements of all kinds as may be deemed necessary and convenient to its mining operations.

Thereafter, Norte Este shall pay the Group royalties and marketing as follows:

- Royalties ranging from 7% to 15% on the gross sales amount of all nickel ore depending on the monthly average LME nickel settlement price; and
- Marketing ranging from \$0.75 to \$3.50 on the gross sales amount of all nickel ore depending on the monthly average LME nickel settlement price; and

Memorandum of Agreement with Westernshore Nickel Corporation

In 2023, the Group entered into an Operating Agreement with Westernshore Nickel Corporation (WNC) which allows WNC to explore, develop, extract, operate and market the minerals in the Phase 2 Mineral Property located in Libjo, Dinagat Islands.

Thereafter, WNC shall pay the Group mining lease of 3% on the gross sales amount of all nickel ore depending on the monthly average LME nickel settlement price.

As at April 29, 2025, the Group's respective agreements with CMC, LMC, OVMPC and Norte Este have not been terminated and continue to be in full force and effect, subject to the supplemental terms agreed by the Group each with CMC, LMC, OVMPC and Norte Este.

In 2024, 2023 and 2022, the Group earned royalty income amounting to ₱112,330,287, ₱161,685,814 and ₱435,183,065, respectively, and commission and marketing income amounting to ₱103,839,957, ₱125,482,671 and ₱168,204,287, respectively from CMC, LMC and Norte Este. (Note 15).

No royalty and commission earned yet from OVMPC as the current MPSA is still under exploration phase.
