"A Sacred Warrior Fights Against Diabetes"

Vishal Raju Bhagat Foundation

History

On August 26, 2006, Vishal Bhagat, the only son of Mr. Raju Bhagat, lost his precious life in a drowning accident at Lake Corpus Christi. It was a heavy sorrow for him, his family and friends. We all understood the reality, and stood up for Vishal's noble and sacred war against diabetes. Vishal's spark of life motivated all of us. In November of 2006, we started the Vishal Bhagat Memorial Golf Tournament to raise funds primarily to fight against juvenile diabetes. This is the tenth year of this journey. Now, it has become a pressing mission - to fight against diabetes and raise awareness of the disabled within various communities.

Hope

One day, we all hope, we will find the cure for diabetes. The scientific community will make strides to beat this disease, which has affected so many of our brothers and sisters.

Future

The Vishal Raju Bhagat Foundation aspires to continue to broaden this movement through increasing participation in the Vishal Bhagat Memorial Golf Tournament and planning to add new satellite events in up-coming years. The Vishal Raju Bhagat Foundation is a platform upon which, ideas and thoughts are communicated. Our hope is that our efforts will provide the fuel, that when ignited by Vishal's spark into a flame, will produce the needed energy to eradicate diabetes.

Thank you very much for attending the 12th Annual Vishal Bhagat Memorial Golf Tournament. Your support as a sponsor, participant, or volunteer continues to make this a successful fundraiser and we deeply appreciate that. The Vishal Raju Bhagat Foundation primarily supports the Juvenile Diabetes Research Foundation, since Vishal wanted to raise awareness for juvenile diabetes (Type 1 diabetes) when he founded the Sugar Free Bowl. Over the years, we have also supported other causes including the American Diabetes Association which also raises awareness for Type 2 diabetes, the Miracle Foundation which sets up orphanages in India, Driscoll Children's Hospital, the local children's hospital, where the donations went to improve the Intensive Care Unit, and CHRISTUS Spohn Hospital-Alice. These are some of the notable causes we have been fortunate to give to because of the sponsors, participants, and volunteers. We look forward to continuing support to these causes and supporting other notable causes and charities in the future made possible by all of you.

SAVE UP TO \$8,700^{††}

With the Tide® Professional Coldwater System

What if you could reduce your energy, water and linen replacement costs up to \$8,700 a year for a 150-room property^{††}? You can with the Tide® Professional Coldwater System. It features an innovative wash process that reduces the number of fills, and uses an advanced formula with enzymes that help break down stains in colder water.[§] So you get the soft, white linens you expect from Tide® — plus savings you probably wouldn't expect from your on-premise laundry.

Contact your P&G Professional representative today at 1.888.474.7765 or visit pgpro.com

*When you switch to the Tide® Professional Coldwater System from a standard hot system. For guest room linens only. A Career Dedicated to Helping Families
Secure Their Financial Futures

Sharan, Seema, Jaydev & Sachin Patel

Jaydev Patel credits his success to hard work, dedication and commitment to his clients. He believes first and foremost "what is best for your clients is best for you."

Jay says he is "heartened that the journey I started 40 years ago will continue. I have seen Sachin, Seema and Sharan grow and mature. And now I see them helping their clients just as I have my clients for all of these years."

Jay has passed along his values and knowledge to his children so they can continue to help our community plan for a secure financial future.

“ We rarely have to sell products, because most of our clients have become friends. We value them as something more than clients -- as family members. ”

WHAT IS THE 179D TAX DEDUCTION?

The 2005 Energy Policy Act created Section 179D which allows property owners, architects and designers a significant federal tax deduction for the costs of installing energy efficient lighting, HVAC, and/or building envelope systems in commercial buildings. The 179D tax deduction offers up to \$1.80 per square foot for improving the energy efficiency of existing commercial buildings or designing efficient new buildings.

WHAT IS COST SEGREGATION?

Cost segregation is a viable means of increasing cash flow through accelerated depreciation of building costs. Effectively, an engineering-based cost segregation study allows building owners to write off their building (new and existing) in the shortest amount of time permissible under existing tax laws, minimizing their overall tax liability.

Helping Here.

**Working together.
Making a difference.**

Look around and you'll find us. We're in the classroom supporting education. We're fighting hunger with donations and warm meals. We're protecting the environment by recycling. We're volunteering our time for a worthy cause. And we're answering the call for help in times of need. In short, we're committed to Helping Here for one reason. We're proud to call Texas home.

ED RACHAL FOUNDATION

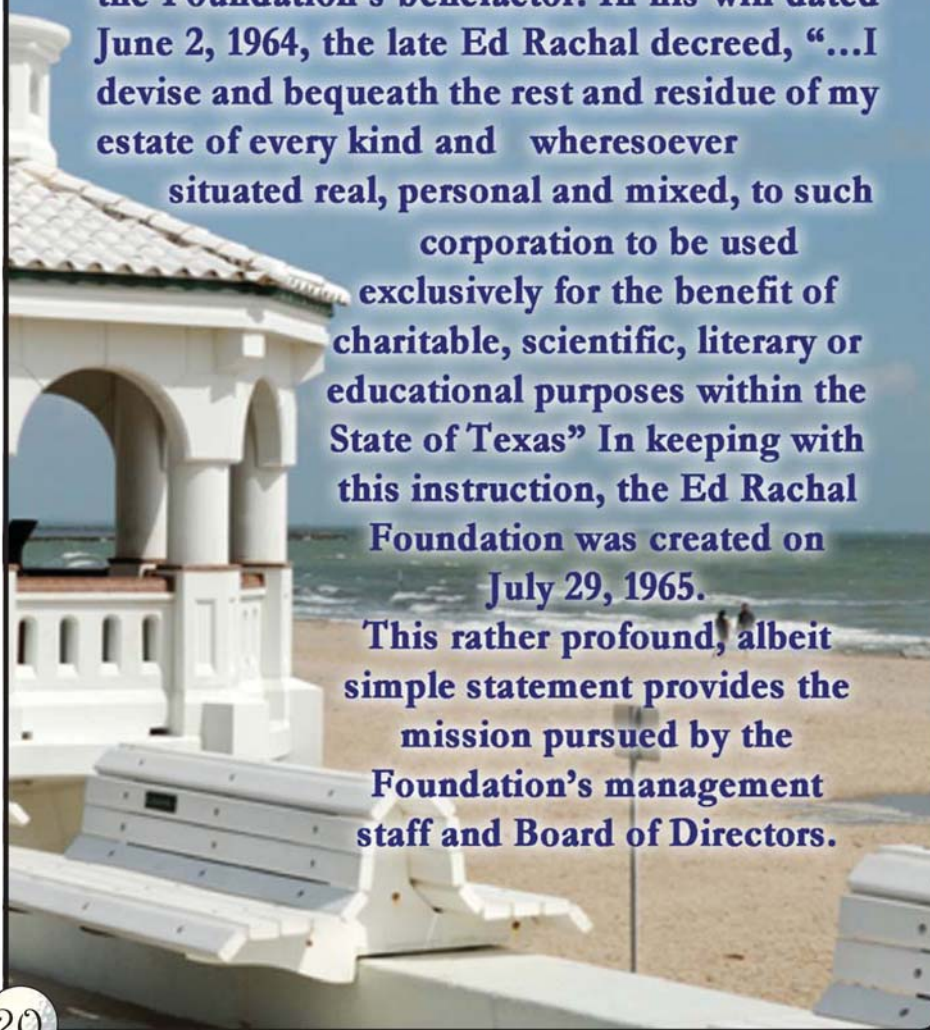

The Mission of the Ed Rachal Foundation is established by the last will and testament of the Foundation's benefactor. In his will dated June 2, 1964, the late Ed Rachal decreed, "...I devise and bequeath the rest and residue of my estate of every kind and wheresoever

situated real, personal and mixed, to such corporation to be used

exclusively for the benefit of charitable, scientific, literary or educational purposes within the State of Texas" In keeping with this instruction, the Ed Rachal

Foundation was created on July 29, 1965.

This rather profound, albeit simple statement provides the mission pursued by the Foundation's management staff and Board of Directors.

Duro-Last®; the most water, wind and worry-resistant roof in the business.

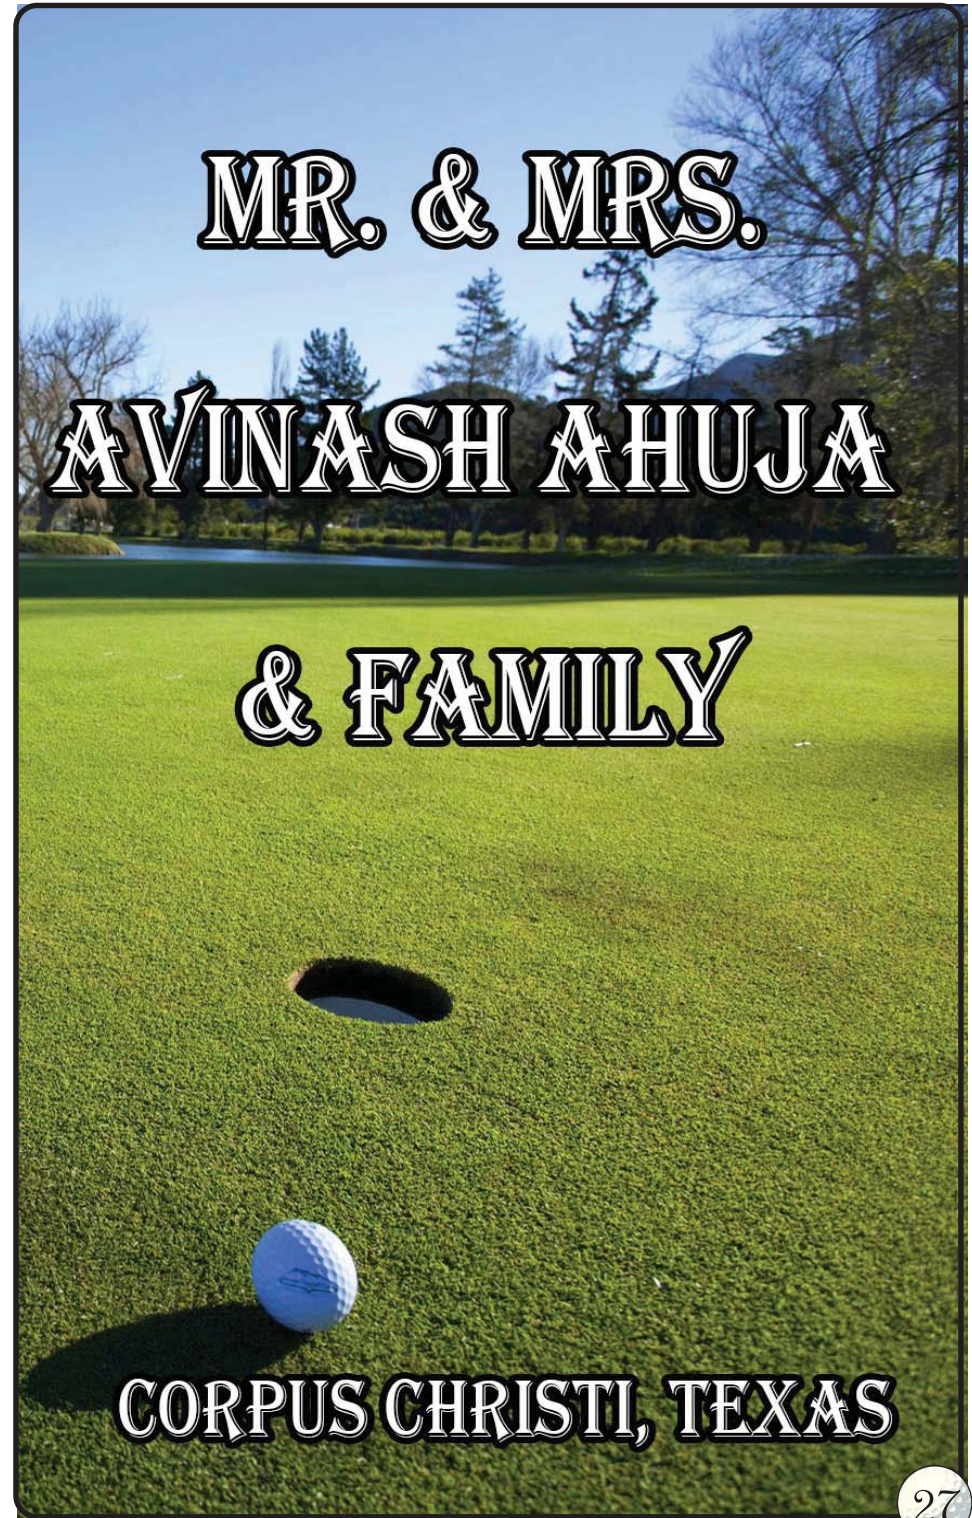

Duro-Last's industry leading warranties are supported by prefabrication of roof panels and membrane accessories in a factory quality controlled environment. This eliminates up to 85% of field welding. Our highly trained technical field team inspects the field welded seams. Once you put a Duro-Last roof on, you can put it out of your mind.
