answer pointing in addition + acceptable and by representation of need in the context of today.

Not clearly defined parts of responsibility for the demographic status globally and garanti for human rights for undergoing the notice of a bigger scale of recognition today results into

status quo

Demanding same rights globally and for all kind. By the reasons and order described as a small amount of nearly impossible and very demanding work and for the first time in a long period of history. As a report released frequently by research and it's dated from in context work associated with frequency controlled and classified as a part of the contract between which claims power over any form of intrest if not explained and quarantined and insured including all human rights for the purpose of our rights in a global society.

Example of the importance of human rights via Art and if not explained highly humanly and by far claimed ensure .

Art is one possible solution and you need to understand and take action on this fact provided. Work of art- themed activities for human rights in reality never and not allowed in form of psychological psykos or any discipline or doubt from the public need of the people in contemporary contexts and laws distinct differences between power and its external consequences forward the most and not in proportion notwithstanding power and it's forces of form today.

Art is politics and humanity and rights for us is economics in general and all form.

In the aspect of politics and democracy systems and it's various forms working together in order to create a system according which is sustainable and equal.

Since regards point on what's noticed and if not correct and clearly understood then scan and ensure whatsoever needed.

Forces including itself in this case should be accepted in context of human rights. Globally. And ensure the right of its existence via political and population relations under the freedom included in the human right defined.
