

## Choose Your Semaglutide Membership

### We suggest:

- Choose the highest max-dose to lose more weight, faster. Save time & money in the long run.
- If budget-minded, choose highest-dose Membership that fits your monthly budget.
- Expect 3-7 lost-pounds a month, more at higher doses and if avoid sugars & starches, exercise.
- Because you fill the syringes, you can adjust down to slow, or up to test higher doses.
- For lower weight-loss goals, expect 6-9 months. For higher goals, expect 9-15 months.
- Get to goal then do Maintenance (\$195) or Mid-Dose (\$295) to stay. Costs less than food savings.
