

Choose Your Tirzepatide Membership

We suggest:

- Tirzepatide is 2X the cost of Semaglutide. But gives 1.5 to 2X the weight-loss. Worth it if afford it.
- If choosing Tirzepatide, go all the way: Choose the highest max-dose to lose more weight, faster.
- If hesitant, or costs matter, or looking for value, choose Semaglutide High-Dose or Super-Dose.
- Expect 5-9 lost-pounds a month, more at higher doses & if avoid sugars & starches, do exercise.
- For lower weight-loss goals, expect 4-8 months. For higher goals, expect 8-14 months.
- Get to goal then do Tirzep Maintenance* (\$395) or Sema Mid-Dose (\$295) to stay. A must!

For New Members. New or did a few months of Sema or Tirzep elsewhere. We start higher, go faster.
