

# So: Semaglutide or Tirzepatide?

- Tirzepatide is near 2X more weight-loss.
- Tirzepatide weight-loss is faster.
- But: Tirzepatide is almost 2X the price.
- Same schedule: 1 self-inject per week.
- Same mild, temporary side-effects.
- Tirzepatide worth it if can afford it.
- Or start w/Sema, then switch if need.
