ABOUT SURGE

SURGE AUTO ELECTRICAL

Surge Auto Electrical is a family-owned and operated mobile auto electrical business proudly based in Perth, Western Australia. We are committed to delivering high-quality, reliable, and professional service to clients across the state – whether you're in the heart of the city or out on a remote site.

With years of industry experience and a passion for problem-solving, Surge Auto Electrical specialises in a comprehensive range of services tailored to meet the diverse needs of individuals, businesses, and industries throughout WA. Our mobile team is equipped to handle everything from complex diagnostics to custom electrical builds – all with a focus on safety, efficiency, and workmanship you can trust.

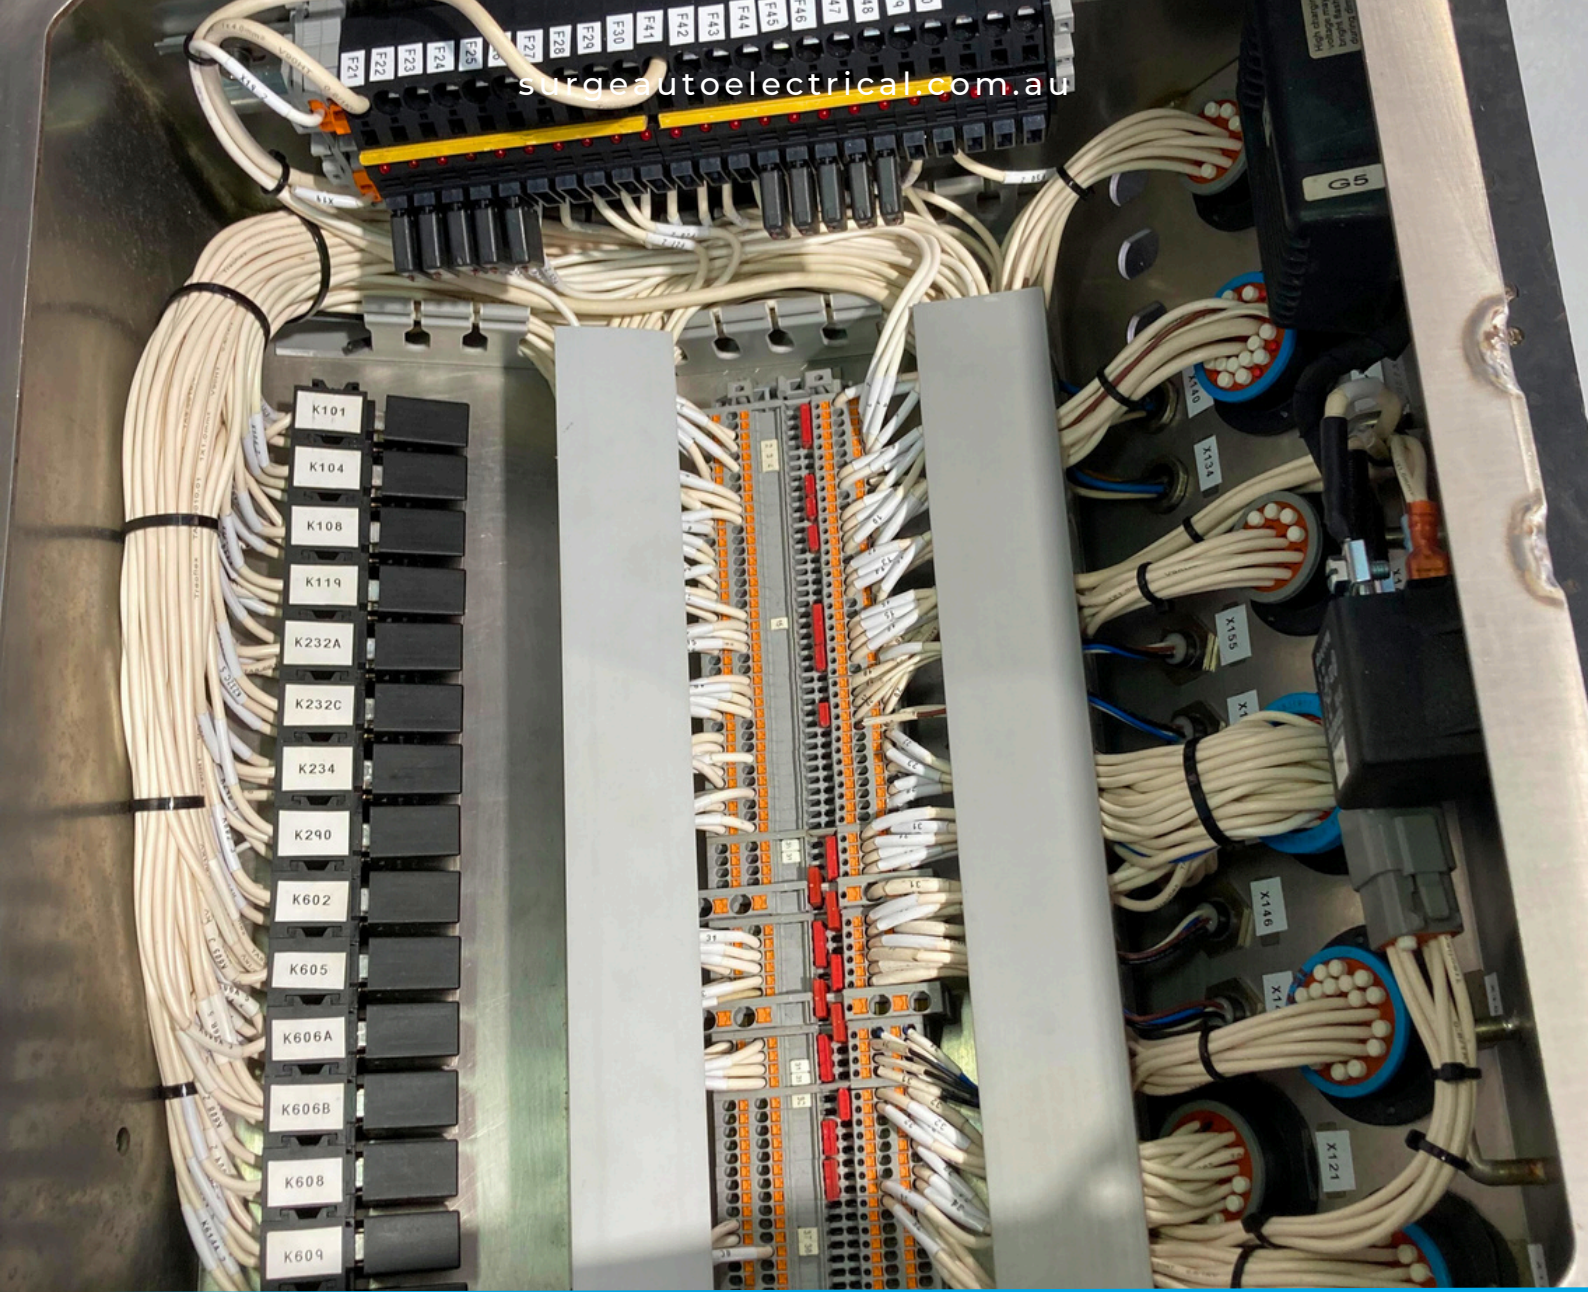

OUR MISSION

With years of hands-on industry experience, we bring a passion for problem-solving and a strong focus on safety, workmanship, and customer care. We understand that downtime can be costly – that's why our mobile service comes to you, fully equipped to handle even the most complex electrical issues on-site.

What sets us apart:

- Fast, reliable, mobile service across Perth and regional WA
- Expert diagnostics and fault-finding
- Friendly, professional team with industry certifications
- Tailored solutions for personal, commercial, and industrial vehicles
- Commitment to safety, compliance, and quality results
- Custom wiring solutions for automotive, industrial, and mining sectors

Whether you're stuck on the side of the road, operating a fleet, or managing a remote work site, Surge Auto Electrical is just a call away.

Our mobile team covers a wide service area and is dedicated to getting you back on the road safely and efficiently.

- ✓ Fully Mobile, Fully Equipped Service
- ✓ Certified & Compliant with Industry Standards
- ✓ End-to-End Electrical Solutions
- ✓ Custom Wiring Solutions for Any Sector

OUR SERVICES

Diagnostics & Fault-Finding

We use advanced diagnostic tools to quickly pinpoint faults, ensuring accurate repairs and minimal downtime.

Classic Cars

Upgrade your classic car's electrics with modern, reliable solutions – all while preserving its original charm.

Air Conditioning

Stay cool with expert A/C diagnostics, repairs, and re-gassing—get your system checked before summer hits.

Mining Services

Custom solutions for heavy vehicles, machinery, and site compliance. Breakdowns, maintenance and repairs.

Mine Spec Fitouts

Light Vehicles, Heavy Equipment & Machinery

4WD Accessories & Lighting Upgrades

Gear up for your next off-road adventure with all the essential accessories you need.

Fleet Maintenance & Fitouts

Boost fleet reliability with electrical audits, preventive maintenance, and GPS tracker installs—improve security, reduce downtime, and streamline operations.

Labour Hire Solutions

Keep projects moving with flexible labour hire—skilled, reliable workers ready for short or long-term placements.

Dual Battery & Solar Systems

Whether you're heading off-road or setting up camp, our custom 12V and 24V electrical solutions are ideal for 4WDs, caravans, and camping setups.

Go further, stay longer — with a dual battery setup you can rely on.

OEM Rebuilds

Extensive experience rebuilding a wide range of underground mining equipment to OEM standards. Our team has worked on complete electrical overhauls for machines including:

- CAT Bidders
- Sandvik Bidders
- Sandvik Drills
- Volvo IT

Custom Harness Manufacturing

At Surge Auto Electrical, we understand that electrical failures from poor-quality wiring can lead to costly downtime and unnecessary frustration. That's why we offer custom harness manufacturing solutions designed to suit the exact needs of your machinery and operational environment.

Whether you're replacing damaged wiring or upgrading for better durability, we deliver harnesses that perform under pressure—every time.

Our wiring harnesses are constructed using high-grade materials designed to withstand the extreme conditions found in mining, construction, and industrial applications. Every harness is manufactured with precision, durability, and functionality in mind.

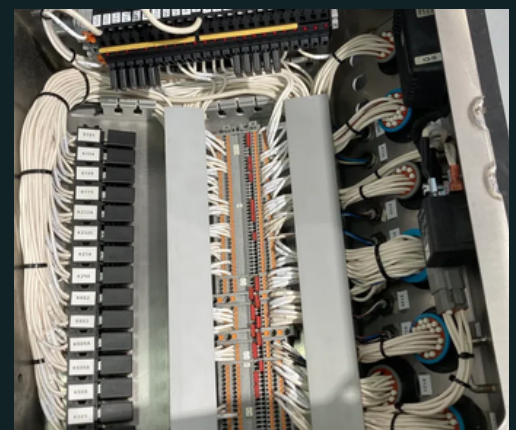

Specialist Works

We specialize in rewiring and overhauling electrical component boxes to ensure optimal performance and reliability.

Our expertise covers models including:

- Epiroc A10, A20, A30
- Sandvik Drill Junction Boxes

Each box is thoroughly inspected, rewired using high-quality materials, and tested for functionality and safety before deployment.
