

Eniac Energy offers 3 options for 48Amp or 96Amp Dual 48Amp ev charger and optional pedestals.

***Note: All electrical engineering and installation including site preparation, will be provided by property or it's electrical contractor to specifications provided by Eniac Energy, LLC / USCharger.

Subscription Solution

USCharger/Eniac Energy LLC handles installation, setup, monitoring and repairs (except for damage to charger hose cords). Circuit breaker resets that may be needed from time to time by on-site maintenance.

Property will be required to provide internet service if Ethernet, WiFi or 4G is not available at the site location.

- This option is provided with annual prepay of \$2,295/year/charger hose for a 5-year term (48A/hose).

Outright Purchase

Hardware, software are bundled into a single upfront purchase with infrastructure provided by property electrician.

- The upfront onetime cost is \$3,690.00 /dual charger & pedestal (Estimated upfront cost installed is \$11,000 - \$16,000 / charge hose).
- Additional Billing cost is \$200/year per hose & \$2.00/credit card transaction.
- Property keep 100% of revenue less billing charge.
- This option offers a 30% Federal Tax incentive (Please consult your accountant)

***Optionally, customer can subscribe to Pro Billing System for private label solution. Upfront additional costs for setup, Apps & Gateway (Stripe or Other) For Pro Billing Platform overview and pricing see:
