Solutions

FUTURE PROOFING

Kempower solutions are designed so that your charger network can be effortlessly scaled to grow when needed. The solutions are modular so you can start smaller and add power later. Simply add dispensers to the upgradable power cabinet over time and save on total project cost. This product is highly configurable with a range of charger sizes and possibilities.

Charger Sizes / kW

50kW | 100kW | 150kW | 200kW | 250kW | 300kW | 350kW | 400kW | 450kW | 500kW | 550kW | 600kW

Voltage Options

500v | 800v

QUALITY & SERVICEABILITY

Kempower products are sturdy yet functional and are tested to last with even the roughest driver handling in the harshest environments. 90% of challenges can be solved with just 4 parts. With remote diagnostics, redundant architecture and modularity of parts, Kempower chargers are simple to service.

SCALABLE POWER

Electric vehicles are not all the same. Your business needs easily scalable, user-friendly, standardized and reliable chargers. Kempower's flexible architecture allows you to add power modules or additional plugs later in the field. Meanwhile, drivers will enjoy optimal power output at each plug.

INTEGRATED SOFTWARE

Our engineering team worked closely with Kempower to their entire product line-up. Software manages all power, billing and driver interaction and each Kempower charger comes with a 5-year software license.

ABOUT KEMPOWER

Kempower designs, manufactures and commercializes charging solutions and services for electric vehicles and machines operating in the most demanding conditions.

Their charging solutions are designed and manufactured in Lahti, Finland. They are owned by the Kemppi Group and together have 70 years of experience in perfecting power sources. Manufacturing is opening a US factory in 2023.
