ABOUT US :

Hakim Diab Architects (H&D Architects) was founded in Beirut in 1998 with the purpose to create unique architectural and interior design solutions for the commercial and residential environments. The firm dedicates its expertise and attention to detail on every project, carefully tailoring each design to the location and the cultural setting. Its sole purpose is to fulfil its client's vision and exceed their expectations. H&D approach is based on understanding the concerns of the client, why they wish for change, as opposed to what they want to change. H&D has completed all types of projects, from historical property's renovation to modern design architecture and from city's apartment to mountain villas.

Karen Wazen & Elias Bakhazi - UAE

PRIVATE HOUSE

We react to the tastes and enthusiasms of our clients, drawing inspiration from their individuality. We consistently look to create spaces that offer enjoyment and visual richness.

Karen Wazen & Elias Bakhazi - UAE

PRIVATE HOUSE

We bring a sense of playfulness and adventure to everything we do; to the buildings we create, but also to how we inspire clients and communities, and how we collaborate with consultants and makers.

PRIVATE APARTMENT

In today's world of 24/7 noise from social media, advertising, emails, mobiles and traffic, we want to offer reprieve. We do so with architecture that is simple and intuitive, yet strong and elegant.

Habib Bassil-Paris

Nada Hakim-Paris

PRIVATE APARTMENT

In the residence we are storyteller, but instead of words we use fabrics, furniture, architectural elements and personal items.

DENTAL CLINIC

We like to approach every project with an open mind. We try to avoid a specific style and enjoy the freedom to try new ideas and technologies where appropriate,

LEBANON

RESIDENTIAL

Clients know the way that they live, work, and play, better than we do. We simply help them to understand how they use their space, and to design buildings that frame their lives, and their relationship to the landscape.

LEBANON

RESIDENTIAL AND COMMERCIAL

PRIVATE RESIDENCE

Architecture must seduce, shape and perhaps more importantly, evoke an emotional response.

STORE

We strive to make interiors with integrity, which respond to the place they are sited and are tectonic in their expression,

PRIVATE VILLA

Conscious that architects' approach to the built environment has a fundamental impact on our cultural heritage, we endeavor to achieve the perfect marriage of the poetic and the practical.

LOFT

Whether a super-home or simple barn conversion, the same attention to detail is expended on all projects. Rather than a predetermined house style, each is approached with a fresh slate.

PRIVATE APARTMENT

We respond to context with a flexible, thoughtful and imaginative approach, to create wonderful places and spaces for people to inhabit.

PRIVATE VILLA

Our projects are contemporary in nature but there is no set style. Our work celebrates beautiful materials, textural contrasts and finely crafted minimalist detailing.

PRIVATE VILLA

There are always challenges to overcome; our skill is in finding solutions that are imaginative and elegant, creating distinctive, often sculptural buildings.
