Blue Spruce

Slow to moderate grower in fertile loams and clays. Used for windbreaks, wildlife and very popular Christmas tree, blue color varies with nurseries.

Douglas Fir Grows well on most upland soils except those with high lime content in topsoil.

Norway Spruce

Fast grower, does well on well to poorly drained soils, clay and loam sands, identified by its drooping branches and large cones. Used for windbreaks, timber, pulpwood and wildlife.

Red Pine

Moderate to fast grower, prefers well drained soil, sand, loam, gravel. Windbreaks, timber, pulpwood and wildlife. Much better choice than Austrian Pine. **Michigan Native**

White Pine *Our State Tree!*

Slow grower at first but once established grows faster, moist sandy loam, but will grow from swamp to sand. Used for timber, windbreaks, pulpwood and wildlife. **Michigan Native**

White Spruce

Slow to moderate grower in fertile loams and clays, faster when established. Used for lumber, pulpwood, Christmas trees, wildlife, deer are not overly fond of these. **Michigan Native**

Bud Caps

Protect the top of trees from deer. Prevents browse over winter, no moisture retention or build-up, removing the threat of mold and mildew. Guaranteed drainage and positive air flow. Less heat build-up within the cap. The tight mesh configuration provides a micro-climate shade factor that shows better vigor and bud development.

Plantskydd

Deer repellent

Planting Gel

We always suggest using planting gel to help with plant survival. Planting gel helps keep moisture around the roots of the trees. Works in flower gardens too!

Arenac Conservation District (ACD) reserves the right to cancel orders and refund payments.
all orders are subject to availability at the time of sale.

ACD does not guarantee plant survival. [liability ceases at distribution.](#)

All orders need to be checked at time of pick up to ensure accuracy all sales are final.

All orders not picked up by the scheduled dates will be charged a \$10.00 late fee if Prior arrangements have not been made. All orders not picked up within 5 days will be

Join our Earth Team Volunteers!

Arenac Conservation District is looking for volunteers to help sort and pack the tree orders prior to pick up. If you would like to help, please contact us at 989.846.4565 ext. 5 or dawn.hergott@mi.nacdnet.net Thank You!
