

OCTOBER 3RD
FIGHTING FRAUD AND FUELING EDUCATION

October 4, 2023

WORLD ROMANCE SCAM PREVENTION DAY WAS A **HUGE** SUCCESS!

To start, we at [Advocating Against Romance Scammers](#) (AARS) want to thank every person, organization, law enforcement, corporation, and media that took October 3rd and MADE it an INCREDIBLE success! The amount of people who will see the additional education presented for the day will be countless! Outside of what we all do daily for romance scams and identity theft victims, this day and its purpose was in front of the eyes of thousands, maybe millions of people who may not have otherwise known the red flags, facts, and tips!

World Romance Scam Prevention Day (WRSPD) was created to help bring awareness to a cybercrime that, unfortunately, brings shame and embarrassment to victims (scammed and identity theft), frequently keeping them from reaching out for help, reporting, and seeking justice. AARS also created/registered the day to make people aware that there *is* support and they are *not* alone. Without a doubt, WRSPD did just that!

For the next 364 days, AARS will continue to advocate, educate, and bring awareness to the matter of online romance scams, and on October 3, 2024 we will recognize World Romance Scam Prevention Day with the rest of the world once again! THIS DAY BELONGS TO THE WORLD!

We will post a link to the *Fighting Fraud and Fueling Education* webinar in approximately a week. Keep a look out if you were not able to attend!

Thank you for making [WORLD ROMANCE SCAM PREVENTION DAY](#) a day of caring, sharing, and WINNING!

And a special thank you to [Electronic Caregiver](#), [AARP](#), and [Match Group](#) for being Champion sponsors of the day!

Sincerely,

Kathy Waters
